We can confidently say that Our PRINCE2-Practitioner training quiz will help you. First of all, our company is constantly improving our products according to the needs of users. If you really want a learning product to help you, our PRINCE2-Practitioner study materials are definitely your best choice, you can't find a product more perfect than it. Second, our PRINCE2-Practitioner learning questions have really helped a lot of people. Looking at the experiences of these seniors, I believe that you will definitely be more determined to pass the PRINCE2-Practitioner exam.

PRINCE2 Practitioner exam is a certification exam that tests the knowledge and expertise of project management professionals in the PRINCE2 methodology. PRINCE2 stands for Projects IN Controlled Environments, and it is a widely recognized project management framework that provides a structured approach to managing projects. The PRINCE2 Practitioner exam is the second level of certification in the PRINCE2 certification path, following the Foundation level.

The preparation for the PRINCE2 Practitioner Exam is crucial for success. Candidates should have a good understanding of PRINCE2 principles, themes, and processes and should be able to apply them in different situations. To prepare for the exam, candidates can attend PRINCE2 training courses, read relevant books and study guides, and take practice tests. With the right preparation and dedication, passing the PRINCE2 Practitioner Exam can enhance your project management career, increase your earning potential, and enable you to lead successful projects.

Who would be responsible for maintaining the Configuration Item Records?

- A. Project Manager
- B. Project Assurance
- **C. Project Support**
- D. Team Manager

Answer: C

Explanation:

Explanation/Reference:

Testlet 1

Project Scenario

Calendar Project (Note: The companies and people within the scenario are fictional.) There has been a reduction in the number of orders at the MNO Manufacturing Company due in part to the increased marketing activities of its competitors. To help counter this, the company has decided to create a promotional calendar for next year for all its current and prospective customers. The end product of this project will be a prepared calendar pack, ready for printing. The design of the calendar will be similar to one sent out previously, and must reflect the company image as described in the existing corporate branding standards. Another project is currently producing a new company logo which is to be printed on each page of the promotional calendar. The prepared calendar pack will consist of:

Design for each month - correctly showing at public holidays and new company logo

Selected photographs- 12 professionally-produced photographs, showing different members of staff

Selected paper and selected envelope - for printing and mailing the calendar

Chosen label design - a competition to design a label will be held as part of this project

List of customers - names and addresses of customers to whom the calendar will be sent.

The project is currently in initiation and will have two further stages:

Stage 2 will include the activities to:

Create the customer list using information from the Accounts and Marketing departments

Confirm compliance with the Data Protection Legislation

Create a design for each month - this will be done by the internal creative team

Select and appoint a professional photographer

Gather photograph design ideas from previous project and agree photographic session schedule

Prepare a production cost forecast

Select paper and envelope.

Stage 3 will include the activities to:

Produce and select the professionally-taken photographs

Hold the label design competition and choose the label design

Assemble the prepared calendar pack.

A production cost forecast, based on the options and costs for the paper, envelope, printing and marketing of the calendar is to be produced in stage 2. However, the actual production and distribution of the calendars is not within the scope of the project. The product cost forecast will be reviewed by the Project Board to determine whether the project should continue.

It is now 05 October and the prepared calendar pack must be delivered to the print company by 30 November, to enable printing and distribution of the calendar in time for Christmas. The cost of the activities to develop the specialist products and the cost of the project management activities are estimated to be £20,000. There is a project time tolerance of +1 week /-2 weeks and a project cost tolerance of +

£6,000 / -£6,000. A change budget of £500 has been allocated but there is no risk budget.

NEW QUESTION # 225

Which of the following statements are True:

1. Quality management is the complete set of quality standards, procedures and responsibilities for a site or organization.
2. Quality planning is about defining products required of the project with their respective quality criteria, methods and responsibilities.
3. Quality control focuses on the operational techniques and activities used to carry out quality inspections
4. Quality assurance ensures that quality methods are being correctly followed.

- A. 1, 2 & 3
- B. 1, 3 & 4
- C. 1, 2 & 4
- D. 2, 3 & 4

Answer: A

NEW QUESTION # 226

The delivery of the pilot courses has been split into two separate products: 'planned pilot courses' and 'delivered pilot courses'. 'Planned pilot courses' will be produced during stage 3, and the 'delivered pilot courses' will take place during stage 4. This will allow the project board to approve the plan for the pilot courses before the resources are committed to delivering the pilot courses.

Why is this an appropriate application of the plans theme to control the project?

- A. Because the delivery steps to create the pilot courses have been aligned to the management stages.
- B. Because the project board should ensure that lessons from one stage are applied to the next stage.
- C. Because the pilot courses have been broken down into two separate products.
- D. Because a PRINCE2 project should focus on the quality of the products being delivered.

Answer: A

NEW QUESTION # 227

The project is at the start of stage 3, and there will be six teams working on product delivery. In order to exercise control, the project manager has asked each team to submit a detailed team plan for approval. The external team manager for the 'e-learning course' has agreed to submit a summary to the project manager, but will submit the detailed team plan to the senior supplier to review and approve.

Is the team manager's response appropriate, and why?

- A. Yes, because team plans are mandatory on a project of this size and complexity.
- B. Yes, because a supplier may want to keep the details of the specialist work confidential.
- C. No, because the team plan must be submitted to project assurance to check it is viable.
- D. No, because the project manager needs detailed plans to manage the work of several teams.

Answer: D

NEW QUESTION # 228
