

Valid Exam F5 F5CAB4 Book & F5CAB4 Reliable Test Duration

P.S. Free & New F5CAB4 dumps are available on Google Drive shared by Exam4PDF: https://drive.google.com/open?id=1keZ5n2zX2uErferKCqjD_QzjhUZ0j3H

To save resources of our customers, we offer Real F5CAB4 Exam Questions that are enough to master for F5CAB4 certification exam. Our F5 F5CAB4 Exam Dumps are designed by experienced industry professionals and are regularly updated to reflect the latest changes in the BIG-IP Administration Control Plane Administration exam content.

F5 F5CAB4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• List which log files could be used to find events and• or hardware issues: This section teaches identification of key log files (<ul style="list-style-type: none">• var• log• ltm, secure, audit), understanding event severity levels, and interpreting log messages.
Topic 2	<ul style="list-style-type: none">• Apply procedural concepts required to create, manage, and restore a UCS archive: This domain covers UCS backup and restore procedures, understanding backup use cases, proper storage practices, and UCS file contents including private keys.

Topic 3	<ul style="list-style-type: none"> Identify and report current device status: This domain covers monitoring BIG-IP operational status through LCD panels, dashboards, Network Map, GUI TMSH commands, and checking high availability states.
Topic 4	<ul style="list-style-type: none"> Given a scenario, interpret Service status: This section teaches interpreting service states, analyzing netstat output, and determining whether services are listening on specific ports.
Topic 5	<ul style="list-style-type: none"> Explain config sync: This section focuses on configuration synchronization procedures, identifying sync errors, determining sync necessity, checking sync status, and comparing configuration timestamps.
Topic 6	<ul style="list-style-type: none"> Apply procedural concepts required to manage the state of a high availability pair: This domain covers controlling and monitoring failover states in high availability pairs, including forcing standby offline modes, reporting failover status, and verifying device trust.
Topic 7	<ul style="list-style-type: none"> Identify configured system services: This domain covers verifying proper configuration of essential services including DNS, NTP, SNMP, and syslog.

F5CAB4 Reliable Test Duration & Reliable F5CAB4 Exam Price

In seeking professional F5CAB4 exam certification, you should think and pay more attention to your career path of education, work experience, skills, goals, and expectations. The examinee must obtain the F5CAB4 exam certification through a number of examinations that are directly traced to their professional roles. Today, I will tell you a good way to pass the exam that is to choose F5CAB4 Exam Materials valid study questions free download exam training materials. It can help you to pass the exam. What's more, you choose F5CAB4 exam materials will have many guarantee.

F5 BIG-IP Administration Control Plane Administration Sample Questions (Q16-Q21):

NEW QUESTION # 16

A BIG-IP Administrator needs to restore a UCS file to an F5 device using the Configuration Utility. Which section of the Configuration Utility should the BIG-IP Administrator access to perform this task?

- A. System > Configuration
- B. System > Archives
- C. Local Traffic > Policies
- D. Local Traffic > Virtual Servers

Answer: B

Explanation:

Managing the state of a device often involves restoring configuration backups known as User Configuration Set (UCS) files. These archives contain the full system configuration, including licenses and SSL certificates.

The Control Plane provides a dedicated management area for these files under System > Archives, where administrators can upload, create, and restore configuration snapshots.

NEW QUESTION # 17

The BIG-IP Administrator runs the command:

```
netstat -an | grep 443
```

and sees the following output:

```
tcp 0 0 0.0.0.0:443 0.0.0.0:* LISTEN
```

What does this output indicate about the service on port 443? (Choose one answer)

- A. The service is actively listening only on the loopback interface.
- B. The service is in a standby state and unable to accept connections.

- C. The service is actively listening on all interfaces for HTTPS traffic.
- D. The service indicates no connections to the LISTEN port.

Answer: C

Explanation:

In netstat output:

* 0.0.0.0:443 means the service is bound to all available IPv4 interfaces on the system.

* LISTEN indicates the service is actively waiting for incoming connection requests.

Therefore, this output confirms that a service (commonly HTTPS/443, such as the BIG-IP Configuration Utility or an application listener) is actively listening on all interfaces, making B the correct answer.

Why the other options are incorrect:

* A would show 127.0.0.1:443 if it were loopback-only.

* C is incorrect because LISTEN explicitly indicates readiness to accept connections.

* D is unrelated; standby state does not affect socket binding shown by netstat.

Hence, the correct answer is B.

NEW QUESTION # 18

The BIG-IP Administrator generates a qkview using "qkview -s0" and needs to transfer the output file via SCP. Which directory contains the output file?

- A. /var/tmp
- B. /var/local
- C. /var/log
- D. /var/config

Answer: A

Explanation:

A QKView is a comprehensive snapshot of the device's Control Plane state, configuration, and logs used for troubleshooting. By default, the qkview utility stores its generated output file in the /var/tmp/ directory.

Administrators must know this path to retrieve the file for upload to F5 iHealth or Support.

NEW QUESTION # 19

A BIG-IP Administrator needs to load a UCS file but must exclude the license file.

How should the administrator perform this task? (Choose one answer)

- A. From the GUI, select the UCS file, uncheck the license box, and click Restore
- B. From the CLI with command `tmsh load /sys ucs <ucs filename> no-license`
- C. From the CLI with command `tmsh load /sys ucs <ucs filename>`
- D. From the GUI, select the UCS file and click Restore

Answer: B

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents:

When restoring a User Configuration Set (UCS) file, BIG-IP allows administrators to selectively exclude the license during the restore process. From the CLI, this is accomplished using the no-license option with the tmsh load /sys ucs command.

The command:

```
tmsh load /sys ucs <ucs filename> no-license
```

restores:

System configuration

Certificates and keys

Device and traffic objects

while explicitly excluding the license file, which is required when:

Migrating configurations between devices

Restoring to hardware with a different license

Avoiding license conflicts or overwrites

Why the other options are incorrect:

A does not provide the option to exclude the license.

B restores the UCS including the license, which does not meet the requirement.

D is incorrect because the BIG-IP GUI does not provide a checkbox to exclude the license during UCS restore.

Therefore, the correct and supported method is C.

NEW QUESTION # 20

A BIG-IP Administrator must determine if a Virtual Address is configured to fail over to the standby member of a device group. In which area of the Configuration Utility can this be confirmed?

- A. Device Management > Devices
- **B. Local Traffic > Virtual Servers**
- C. Device Management > Traffic Groups
- D. Device Management > Overview

Answer: B

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: To re27port the current status of high availability for specific traffic, an administrator must verify the Traffic Group association28. In the Configuration Utility, Virtual Server properties include the Virtual Address settings where the 'Traffic Group' is assigned292929. If the Virtual Address is assigned to a floating traffic group (like traffic-group-1), it is configured to fail over to the standby member30303030.

NEW QUESTION # 21

.....

We will be happy to assist you with any questions regarding our products. Our F5CAB4 practice exam Exam4PDF helps to prepare applicants to practice time management, problem-solving, and all other tasks on the standardized F5CAB4 Exam and lets them check their scores. The F5CAB4 results help students to evaluate their performance and determine their readiness without difficulty.
