

Cisco 300-425 Regular Update - Latest 300-425 Exam Questions

Top 5 Facts to Rely on Cisco 300-425 Practice Tests

1. You get the actual Cisco 300-425 exam experience.
2. Time management becomes easy during the actual exam.
3. Valuable insights offer more improvement scope.
4. Rigorous Practice Makes you perfect about the Cisco 300-425 syllabus domains.
5. Self-assessment provides self-satisfaction regarding the 300-425 exam preparation.

2026 Latest ValidDumps 300-425 PDF Dumps and 300-425 Exam Engine Free Share: <https://drive.google.com/open?id=1zXJkjqn6oGAF7qsZOxgOzsi0yO4BN8g2>

Our 300-425 practice materials are suitable for exam candidates of different degrees, which are compatible whichever level of knowledge you are in this area. These 300-425 training materials win honor for our company, and we treat 300-425 test engine as our utmost privilege to help you achieve your goal. Meanwhile, you cannot divorce theory from practice, but do not worry about it, we have stimulation 300-425 Test Questions for you, and you can both learn and practice at the same time.

Cisco 300-425 certification exam is designed to test the knowledge and skills of professionals who are responsible for designing and implementing wireless networks in enterprise environments. Designing Cisco Enterprise Wireless Networks certification is part of the Cisco Certified Network Professional (CCNP) Enterprise certification track and is a must-have for individuals who want to advance their careers in the networking industry.

What are the advantages of obtaining Cisco 300-425 certification

Those who pass the Cisco exam with the help of **Cisco 300-425 Dumps** gain several benefits

- Certification would make you more available in networking jobs or companies that require Cisco certification.

- It is the first step for getting a Cisco certification and will lead to its other tiers.
- You will be getting a higher salary as an entry-level network technician or an associate-level network professional in a large organization.

Cisco 300-425 Regular Update - Realistic Designing Cisco Enterprise Wireless Networks Regular Update Pass Guaranteed Quiz

Free demo for 300-425 learning materials is available, you can try before buying, so that you can have a deeper understanding of what you are going to buy. We also recommend you to have a try before buying. In addition, 300-425 training materials contain both questions and answers, and it's convenient for you to check answers after practicing. 300-425 Exam Dumps cover most of the knowledge points for the exam, and you can have a good command of the knowledge points by using 300-425 exam dumps. We have online and offline chat service, if you have any questions, you can consult us.

Prerequisites of Cisco 300-425 Certification Exam

One of the main prerequisites for this exam is having a certification that qualifies as at least a CCENT level. Other than that, there are no other prerequisites for this exam.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q119-Q124):

NEW QUESTION # 119

An engineer has successfully configured high availability and SSO using two Cisco 5508 Wireless LAN Controllers. The engineer can access the Active Primary WLC, but the Secondary Standby WLC is not accessible. Which two methods allow access to the standby unit? (Choose two.)

- A. SSH to the virtual interface of the secondary WLC
- B. SSH to the redundancy management interface of the primary WLC
- C. via the console connection
- D. SSH to the management interface of the primary WLC
- E. SSH to the service port interface

Answer: C,E

NEW QUESTION # 120

A customer has noticed that Client Band Select is enabled and no clients are utilizing the 5 GHz band. Which three parameters must be met to ensure that wireless clients use the 5 GHz band? (Choose three.)

- A. Ensure that the UNII-2 extended channels are enabled on the 802.11a radios.
- B. Ensure that channel bonding is enabled on the WLAN.
- C. Ensure that the co-channel interference has not exceeded -85 dBm.
- D. Ensure that the client is receiving RSSI above the minimum band select RSSI threshold.
- E. Ensure that the WLAN has 802.11a enabled.
- F. Ensure that the client is dual-band capable.

Answer: A,E,F

Explanation:

https://www.cisco.com/c/en/us/td/docs/solutions/Enterprise/Mobility/emob41dg/emob41dg-wrapper/ch3_WLAN.pdf

NEW QUESTION # 121

How does AP failover priority for access points function when configured with priority 1 or 4?

- A. When configured with priority 1, the access point is assigned with the highest priority level and it is marked as critical. This

- access point fails over before other access points with the lower priority when there is primary controller failure.
- B. When configured with priority 4, the access point is assigned with the lowest priority level and it is marked as low. This access point fails over after other access points with the higher priority when there is primary controller failure.
 - C. When configured with priority 1, the access point is assigned with the medium priority level and it is marked as medium. This access point fails over after other access points with the higher priority when there is primary controller failure.
 - D. When configured with priority 4, the access point is assigned with the highest priority level and it is marked as critical. This access point fails over before other access points with the lower priority when there is primary controller failure.

Answer: D

NEW QUESTION # 122

An engineer has successfully configured high availability and SSO using two Cisco 5508 Wireless LAN Controllers. The engineer can access the Active Primary WLC, but the Secondary Standby WLC is not accessible. Which two methods allow access to the standby unit? (Choose two.)

- A. SSH to the virtual interface of the secondary WLC
- B. SSH to the redundancy management interface of the primary WLC
- C. via the console connection
- D. SSH to the management interface of the primary WLC
- E. SSH to the service port interface

Answer: C,E

Explanation:

In a high availability setup with Cisco 5508 Wireless LAN Controllers, the standby controller can be accessed via the console connection and the service port interface. The console provides direct access, while the service port interface allows for network-based access to the standby unit for management purposes.

NEW QUESTION # 123

A network engineer is designing a new wireless network. The network needs to have these characteristics:

Which approach should be taken?

- A. Deploy APs near each other for 5 GHz coverage, and enable the 2.4 GHz radios for all Aps.
- B. Deploy APs near each other for 5 GHz coverage, and disable the 2.4 GHz radios for some Aps.
- C. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for some APs.
- D. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for all APs.

Answer: A
