The students can give unlimited to track the performance of their last given tests in order to see their mistakes and try to avoid them while giving the final test. Customers of BraindumpQuiz will receive updates till 1 year after their purchase. Anyone can try a free demo of the Implementation Engineer - SAN ONTAP Exam (NS0-521) practice material before making purchase. There is a 24/7 available support system that assists users whenever they are stuck in any problem or issues. This product is a complete package and a blessing for those who want to pass the Network Appliance NS0-521 test in a single try.

## Network Appliance NS0-521 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                               |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>Storage Virtualization and Automation: This section explores the benefits of storage virtualization and implements automation techniques to streamline storage management and improve operational efficiency.</li></ul>                         |
| Topic 2 | <ul style="list-style-type: none"><li>ONTAP Troubleshooting and Monitoring: This section of the exam covers skills to troubleshoot ONTAP issues effectively and utilize monitoring tools for proactive system management.</li></ul>                                                   |
| Topic 3 | <ul style="list-style-type: none"><li>Storage Networking Technologies: This section is about how to understand the fundamentals of storage networking, including Fibre Channel, iSCSI, and FCoE protocols, to design and manage high-performance storage solutions.</li></ul>         |
| Topic 4 | <ul style="list-style-type: none"><li>Storage Performance Optimization: In this section, the focus is on how to discover the art of optimizing storage performance through effective workload management, caching strategies, and system tuning for demanding applications.</li></ul> |
| Topic 5 | <ul style="list-style-type: none"><li>Storage Capacity Planning: In this section of the exam, the focus is on the analysis of storage requirements, forecast growth, and design of scalable storage solutions to meet evolving business needs.</li></ul>                              |
| Topic 6 | <ul style="list-style-type: none"><li>Data Protection and Disaster Recovery: This domain covers how to implement robust data protection techniques, such as snapshots, replication, and backup solutions, to ensure data integrity and facilitate disaster recovery.</li></ul>        |
| Topic 7 | <ul style="list-style-type: none"><li>ONTAP System Configuration: This domain covers the skills to configure and optimize ONTAP systems, including cluster creation, node management, and data protection strategies.</li></ul>                                                       |
| Topic 8 | <ul style="list-style-type: none"><li>SAN Design and Implementation: This section of the exam covers how to design and deploy robust SAN architectures, including zoning, LUN creation, and host integration, ensuring high availability and seamless data access.</li></ul>          |

## 100% Pass Network Appliance - Updated Official NS0-521 Study Guide

Dear everyone, you can download the NS0-521 free demo for a little try. If you are satisfied with the NS0-521 exam torrent, you can make the order and get the latest NS0-521 study material right now. Our NS0-521 training material comes with 100% money back guarantee to ensure the reliable and convenient shopping experience. The accurate, reliable and updated Network Appliance NS0-521 study torrent are compiled, checked and verified by our senior experts, which can ensure you 100% pass.

### Network Appliance Implementation Engineer - SAN ONTAP Exam Sample Questions (Q56-Q61):

#### NEW QUESTION # 56

An administrator has a 2-node NetApp ONTAP cluster that is hosting FC LUNs for 90 SAN hosts.

The hosts are experiencing occasional performance problems and receiving QFULL responses from the cluster nodes. Which action would resolve this issue?

- A. Configure additional FC target ports.
- B. Configure additional FC ports on the hosts.
- C. Increase the queue depth on the initiator ports.
- D. Increase the queue depth on the target ports.

**Answer: A**

Explanation:

Adding more FC target ports on the ONTAP cluster nodes increases available queue resources and paths, reducing queue full (QFULL) responses and improving SAN host performance.

#### NEW QUESTION # 57

A healthcare customer wants to Implement an FC SAN solution consisting of a NetApp ONTAP system, Broadcom switches, and servers. Which tool contains detailed blueprints and implementation references that can be used to design this solution?

- A. NetApp Active IQ Unified Manager
- B. NetApp Active IQ Config Advisor
- C. NetApp Fusion
- D. NetApp Verified Architecture

**Answer: D**

Explanation:

The correct tool for designing an FC SAN solution consisting of a NetApp ONTAP system, Broadcom switches, and servers is the "NetApp Verified Architecture" (NVA). The NetApp Verified Architecture provides comprehensive blueprints and detailed implementation references.

These blueprints are thoroughly tested, prescriptive in nature, and designed to minimize deployment risks and accelerate time to market. They are specifically designed to help ensure that the architecture meets the high standards required for enterprise environments.

NVA documents include design guides, best practices, and detailed configuration steps, making them invaluable for planning and deploying complex solutions like the one described.

#### NEW QUESTION # 58

What is the minimum number of rack units that are required on each site for a NetApp AFF All San Array (ASA) A800 MetroCluster IP configuration with 72 disks per site and Cisco N9K- C9336C-FX2 backend switches?

- A. 12 RU
- B. 4 RU
- C. 16 RU
- D. 8 RU

**Answer: D**

Explanation:

A NetApp AFF ASA A800 node requires 4 rack units (RU) each. With two nodes per site, plus Cisco N9K-C9336C-FX2 backend switches (typically 1-2 RU each), the minimum combined rack space per site totals around 8 RU.

#### NEW QUESTION # 59

A NetApp AFF node in a four-node cluster has a single FC port on one node, which is used for legacy tape backup. Tape is no longer needed, and the port is disconnected and modified for reuse in the FCP SAN. Based on this change, which command will verify that the port is usable?

- A. vserver fcp initiator show
- B. lun persistent-reservation show
- C. system node hardware unified-connect show
- D. network interface show

**Answer: C**

Explanation:

To verify that a modified FC port is usable after it has been repurposed from tape backup to FCP SAN, the command `system node hardware unified-connect show` should be used. This command checks the status and configuration of the unified connect hardware, ensuring that the port is correctly set up for the new function in the SAN environment.

#### NEW QUESTION # 60

What is used to release space from a NetApp ONTAP LUN when something is removed from within the Windows operating system?

- A. Snapshot Autodelete
- B. SCSI reservation
- C. SnapCenter Plug-in
- D. SCSI UNMAP

**Answer: D**

Explanation:

SCSI UNMAP enables the host OS to notify ONTAP about freed blocks within a LUN, allowing the storage system to reclaim space efficiently.

#### NEW QUESTION # 61

.....

The NS0-521 study materials are in the process of human memory, is found that the validity of the memory used by the memory method and using memory mode decision, therefore, the NS0-521 training materials in the process of examination knowledge teaching and summarizing, use for outstanding education methods with emphasis, allow the user to create a chain of memory, the knowledge is more stronger in my mind for a long time by our NS0-521 study engine. Firmly believe in an idea, the NS0-521 exam questions are as long as the user to follow our steps to obtain the certificate.
