Standard connector											

**NEW QUESTION # 316**

A company is implementing a customer service solution by using Dynamics 365 Customer Service. The company is extending the solution to meet additional business requirements.

The solution has the following requirements:

- \* Customers can log on to a secure website and view the progress of customer service tickets.
- \* Refund requests over a certain value can be automatically sent for managerial approval in Microsoft Teams.

\* Create a custom page showing a gallery of pictures within the Dynamics 365 Customer Service app.

You need to use Microsoft Power Platform technologies to implement the solution.

Which technology should you use? To answer, drag the appropriate technologies to the correct requirements. Each technology may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

**NEW QUESTION # 317**

A medical office has a model-driven app that uses Common Data Service.

You plan to create a screen that allows users to capture information about doctors. The screen must provide users the ability to enter or select the following information;

- \* a place to enter doctor- profile data that is not part of the account table or the contact table.
- \* a place to enter the doctor's specialty in the profile form.
- \* a column for insurance with the ability to pick one of 10 different insurance companies.

You need to store the captured data in Common Data Service.

What should you use to store the data? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation

Graphical user interface, text, application Description automatically generated

Requirement	Option
Store additional doctor profile data.	Field
Store information about the doctor's specialty.	Record
Select an insurance company.	Option set

**NEW QUESTION # 318**

Hotspot Question
