the most customers, we have a high pass rate as 98% to 100%, which is unique in the market!

DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q29-Q34):

NEW QUESTION # 29

Can a DSCI Certified Lead Assessor for Privacy, not currently an employee of a DSCI Accredited Organization, conduct external assessment leading to DSCI Privacy certification?

- A. True
- B. False

Answer: B

Explanation:

The DAF#P clearly mandates that only assessors affiliated with DSCI Accredited Organizations are authorized to conduct certification assessments. Even if an individual holds a DSCI Certified Lead Assessor credential, they must be employed with or contracted through an accredited organization to carry out official DSCI certification assessments.

NEW QUESTION # 30

Categorise the following statement:

"For an identified data leakage scenario, security team is struggling to configure rules."

- A. Capability
- B. Visibility
- C. Enforcement
- D. Demonstration

Answer: A

Explanation:

The statement reflects an organization's difficulty in operationalizing privacy safeguards in response to a known threat scenario. According to the DSCI Assessment Framework for Privacy (DAF-PC), "Capability" refers to an organization's ability to implement and maintain technical, procedural, and administrative controls effectively. A struggling security team in configuring rules for a known leakage scenario indicates a gap in technical expertise or resources, which directly correlates with a lack of "Capability." This category assesses how prepared an organization is in deploying privacy controls, managing incidents, and aligning security technologies with privacy requirements. Thus, the challenge in configuring protective rules is best categorized under "Capability" as it denotes a functional inadequacy in handling privacy-related incidents.

NEW QUESTION # 31

An entity shall retain personal data only as long as may be reasonably necessary to satisfy the purpose for which it is processed; or with respect to an established retention period. This privacy principle is known as?

- A. Storage Limitation
- B. Collection Limitation
- C. Security safeguards
- D. Use Limitation

Answer: A

NEW QUESTION # 32

Entities should collect personal information from user that is adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed. This Privacy Principle is called:

- A. Accountability
- B. Use Limitation

- C. Collection Limitation
- D. Storage Limitation

Answer: C

Explanation:

According to the DSCI Privacy Framework and aligned with global privacy principles such as those found in the OECD and APEC frameworks, "Collection Limitation" emphasizes that personal data should be collected in a manner that is lawful and fair, and should be limited to what is necessary for the identified purposes.

As per DSCI Assessment Framework for Privacy (DAF-P©), this principle ensures organizations collect only relevant data by minimizing unnecessary data acquisition, thereby reducing the privacy risks. The principle mandates:

"Personal data collected should be adequate, relevant, and limited to what is necessary in relation to the purposes for which they are processed." This is designed to promote responsible data stewardship and ensure minimal exposure of individuals' personal information.

NEW QUESTION # 33

Which of the following is not an objective of VPI?

- A. To enable identification of processes, functions and relationships handling personal information
- B. Enable an organization to map its data operations and categorization of PI
- C. None of the above
- D. Assess the current state of data spread and transactions of the organization to map this against its privacy objectives

Answer: C

Explanation:

All the listed options (A, B, and C) are legitimate objectives of the "Visibility over Personal Information (VPI)" practice area. The VPI layer emphasizes:

- * Comprehensive inventorying and mapping of personal data across systems
- * Aligning data operations with privacy risks and business goals
- * Categorizing data to manage consent, retention, and sharing

Therefore, none of these options are incorrect or outside the scope of VPI.

NEW QUESTION # 34

.....

Our company has always been following the trend of the DCPLA certification. Our research and development team not only study what questions will come up in the exam, but also design powerful study tools like DCPLA exam simulation software.
