

# NetSec-Pro Exam Materials | New NetSec-Pro Real Exam

P.S. Free & New NetSec-Pro dumps are available on Google Drive shared by Actual4test: <https://drive.google.com/open?id=1htmd3spRIpiQZTbUQVp2L-0YDfPSglZ4>

In fact, a number of qualifying exams and qualifications will improve your confidence and sense of accomplishment to some extent, so our NetSec-Pro learning materials can be your new target. When we get into the job, our NetSec-Pro learning materials may bring you a bright career prospect. Companies need employees who can create more value for the company, but your ability to work directly proves your value. Our NetSec-Pro Learning Materials can help you improve your ability to work in the shortest amount of time, thereby surpassing other colleagues in your company, for more promotion opportunities and space for development.

Our NetSec-Pro training materials are famous for instant access to download. You can receive your downloading link and password within ten minutes, so that you can start your learning as early as possible. In order to build up your confidence for NetSec-Pro exam materials, we are pass guarantee and money back guarantee, and if you fail to pass the exam, we will give you full refund. In addition, NetSec-Pro test materials cover most of knowledge points for the exam, therefore you can master the major points for the exam as well as improve your professional ability in the process of learning.

## The Benefits of Using Desktop Palo Alto Networks NetSec-Pro Practice Test Software

Additionally, students can take multiple Palo Alto Networks NetSec-Pro exam questions, helping them to check and improve their performance. Three formats are prepared in such a way that by using them, candidates will feel confident and crack the Palo Alto Networks Network Security Professional (NetSec-Pro) actual exam. These three formats suit different preparation styles of NetSec-Pro test takers.

## Palo Alto Networks Network Security Professional Sample Questions (Q60-Q65):

### NEW QUESTION # 60

A network security engineer needs to implement segmentation but is under strict compliance requirements to place security

enforcement as close as possible to the private applications hosted in Azure. Which deployment style is valid and meets the requirements in this scenario?

- A. On a VM-Series NGFW, configure several Layer 3 zones with Layer 3 interfaces assigned to logically segment the network.
- B. On a VM-Series NGFW, configure several Layer 2 zones with Layer 2 interfaces assigned to logically segment the network.
- C. On a PA-Series NGFW, configure several Layer 3 zones with Layer 3 interfaces assigned to logically segment the network.
- D. On a PA-Series NGFW, configure several Layer 2 zones with Layer 2 interfaces assigned to logically segment the network.

**Answer: A**

Explanation:

In cloud environments like Azure, the VM-Series NGFW is deployed to create Layer 3 segmentation zones closest to the application workloads.

"In Azure, deploy VM-Series firewalls in Layer 3 mode to enforce security policies closest to private applications, meeting strict compliance and segmentation requirements." (Source: VM-Series in Public Clouds) Layer 3 segmentation ensures security policies are enforced at the right boundary to isolate traffic within Azure's virtual networks.

#### NEW QUESTION # 61

Which GlobalProtect configuration is recommended for granular security enforcement of remote user device posture?

- A. Applying log at session end to all GlobalProtect Security policies
- B. Configuring host information profile (HIP) checks for all mobile users
- C. Implementing multi-factor authentication (MFA) for all users attempting to access internal applications
- D. Configuring a rule that blocks the ability of users to disable GlobalProtect while accessing internal applications

**Answer: B**

Explanation:

Host Information Profile (HIP) checks are used in GlobalProtect to collect and evaluate endpoint posture (OS, patch level, AV status) to enforce granular security policies for remote users.

"The HIP feature collects information about the host and can be used in security policies to enforce posture-based access control. This ensures only compliant endpoints can access sensitive resources." (Source: GlobalProtect HIP Checks) This enables fine-grained, context-aware access decisions beyond user identity alone.

#### NEW QUESTION # 62

A network security engineer wants to forward Strata Logging Service data to tools used by the Security Operations Center (SOC) for further investigation. In which best practice step of Palo Alto Networks Zero Trust does this fit?

- A. Standards and Designs
- B. Map and Verify Transactions
- C. Report and Maintenance
- D. Implementation

**Answer: C**

Explanation:

The "Report and Maintenance" step of the Zero Trust model emphasizes ongoing monitoring, analysis, and reporting to ensure the environment remains secure over time.

"The Report and Maintenance phase includes continuous monitoring, log forwarding, and sharing of security telemetry to third-party tools to maintain and validate Zero Trust implementation." (Source: Zero Trust Best Practices) By forwarding logs to SOC tools, the engineer ensures comprehensive visibility and proactive threat hunting.

#### NEW QUESTION # 63

Which two content updates can be pushed to next-generation firewalls from Panorama? (Choose two.)

- A. GlobalProtect data file
- **B. Applications and threats**
- C. Advanced URL Filtering
- **D. WildFire**

**Answer: B,D**

Explanation:

Applications and threats

Panorama can push application and threat signature updates to managed firewalls, ensuring consistent application and threat visibility. "Panorama uses dynamic updates to distribute the latest application and threat signature packs to all managed firewalls." (Source: Manage Content Updates in Panorama) WildFire Panorama also distributes WildFire signature updates to firewalls for real-time malware detection.

"WildFire updates provide the latest malware signatures to enhance detection and prevention, and can be deployed to all managed firewalls via Panorama." (Source: WildFire and Dynamic Updates)

#### **NEW QUESTION # 64**

In SSL Forward Proxy, what role does the firewall play in handling encrypted traffic?

- A. It forces the client to bypass decryption
- B. It uses SSH tunneling to analyze SSL
- C. It allows encrypted traffic to pass without inspection
- **D. It acts as a Certificate Authority and decrypts client-side SSL traffic**

**Answer: D**

Explanation:

The firewall intercepts outbound SSL connections, generates a trusted certificate on the fly to present to the client, decrypts the SSL traffic to inspect it for threats, applies security policies, then re-encrypts the traffic before forwarding it to the destination. This makes the firewall an "invisible" proxy between the client and server, enabling full inspection of encrypted traffic.

#### **NEW QUESTION # 65**

.....

A certification is not only an affirmation to your ability but also can help you enter a better company and improve your salary. NetSec-Pro exam cram can help you get your certification successfully. We have a professional team to collect and research the latest information for the exam, and we offer you free update for 365 days after payment, so that you can obtain the latest information. In order to build up your confidence for NetSec-Pro Exam Braindumps, we are pass guarantee and money back guarantee if you fail to pass the exam.

**New NetSec-Pro Real Exam:** [https://www.actual4test.com/NetSec-Pro\\_examcollection.html](https://www.actual4test.com/NetSec-Pro_examcollection.html)

You can benefit from a number of additional benefits after completing the Palo Alto Networks NetSec-Pro certification exam, We provide the best service and also have facility of customer satisfaction so even after buying NetSec-Pro braindumps actual pdf we provide you 100% satisfaction and confident building support, Palo Alto Networks NetSec-Pro Exam Materials Within a year, we will offer free update.

Errors with a positive consequence are actions that do NetSec-Pro not give the desired result, but provide the learner with information to help her achieve an overall goal.

Executives are willing to listen to ideas from any employee, You can benefit from a number of additional benefits after completing the Palo Alto Networks NetSec-Pro Certification Exam.

### **HOT NetSec-Pro Exam Materials - Palo Alto Networks Palo Alto Networks Network Security Professional - High-quality New NetSec-Pro Real Exam**

We provide the best service and also have facility of customer satisfaction so even after buying NetSec-Pro braindumps actual pdf we provide you 100% satisfaction and confident building support.
