

Pass Guaranteed Quiz CheckPoint - Reliable 156-590 - Exam Check Point Certified Threat Prevention Specialist (CTPS) Tutorials

2026 Latest DumpExam 156-590 PDF Dumps and 156-590 Exam Engine Free Share: https://drive.google.com/open?id=1wuoBX_HneefhsnP9JAIJMz8y0qAsEd4C

Now you don't need to spend too much time and money preparing for the CheckPoint 156-590 test. Just get the latest 156-590 exam dumps from DumpExam and prepare the 156-590 test in a very short time. These Customer Experience (CheckPoint) 156-590 updated dumps will eliminate your risk of failing and enhance your chance of success in the DumpExam test. Using CheckPoint 156-590 Exam study material you will gain the best CheckPoint 156-590 exam knowledge and you will attempt the final 156-590 certification test with confidence.

Originating the 156-590 exam questions of our company from tenets of offering the most reliable backup for customers, and outstanding results have captured exam candidates' heart for their functions. Our practice materials can be subdivided into three versions. All those versions of usage has been well-accepted by them. There is not much disparity among these versions of 156-590 simulating practice, but they do helpful to beef up your capacity and speed up you review process to master more knowledge about the 156-590 exam, so the review process will be unencumbered.

156-590 Certification Training and 156-590 Test Torrent - Check Point Certified Threat Prevention Specialist (CTPS) Guide Torrent - DumpExam

DumpExam provides you with tri-format prep material compiled under the supervision of 90,000 CheckPoint professionals from around the world that includes everything you need to pass the CheckPoint 156-590 Exam on your first try. The preparation material consists of a PDF, practice test software for Windows, and a web-based practice exam. All of these preparation formats are necessary for complete and flawless preparation.

CheckPoint Check Point Certified Threat Prevention Specialist (CTPS) Sample Questions (Q14-Q19):

NEW QUESTION # 14

Task: Enable "Update Automatically" for IPS database.

Answer:

Explanation:

See the Explanation.

- 1- Go to Threat Prevention > Updates in SmartConsole.
- 2- Enable "Check for updates automatically."
- 3- Set interval (e.g., every 6 hours).
- 4- Tick "Install updates automatically" with warning prompt.
- 5- Click OK, publish, and monitor update logs.

NEW QUESTION # 15

Which is NOT true of Threat Prevention policy application?

- A. Traffic is matched against all applicable layers at the same time
- B. Only applies first matched rule
- C. Applied as ordered layer
- D. Only applied after traffic is accepted by Access Control Policy

Answer: A

Explanation:

The correct answer is B. Traffic is matched against all applicable layers at the same time . Threat Prevention policy evaluation is not best described as a flat simultaneous match against all applicable layers.

Check Point documentation explains that Threat Prevention Policy Layers are Ordered Layers , and that each ordered layer calculates its action separately from the other layers. In a single-layer policy package, the enforced rule is the first matched rule. In multiple-layer policy behavior, matching and enforcement are determined by the layer calculations and the applicable action logic, rather than by one undifferentiated simultaneous match model.

Option A is true because Threat Prevention inspection is applied after the Access Control policy allows the connection; traffic dropped or rejected by Access Control does not proceed to Threat Prevention enforcement.

Option C is true for a single Threat Prevention layer because the first matching rule is enforced. Option D is also true because Threat Prevention uses ordered policy-layer behavior. The false statement is therefore option B. Reference topics: Threat Prevention Policy, Ordered Layers, first-match rule behavior, Access Control before Threat Prevention, multi-layer enforcement logic.

NEW QUESTION # 16

Which are possible Anti-Virus Scanning Technologies?

- A. Active Streaming, Passive Streaming, Deep Scanning and Archive Scanning
- B. Active and Passive Scanning
- C. Automatic Scanning, Manual Scanning, On-Demand Scanning, Scheduled Scanning
- D. Inspect or Bypass

Answer: A

Explanation:

The correct answer is B. Active Streaming, Passive Streaming, Deep Scanning and Archive Scanning .

Anti-Virus scanning in Check Point Threat Prevention uses multiple content-inspection technologies to balance security, performance, and protocol behavior. Check Point Security Gateway documentation identifies the streaming architecture: the MUX layer chooses to work over PSL , the Passive Streaming Layer, or CPAS , Check Point Active Streaming. The Anti-Virus settings documentation also shows Deep Scanning behavior through file-type processing, including Process all file types and Enable deep inspection scanning

, with an explicit performance-impact warning. It also describes Archive Scanning, where the Anti-Virus engine unpacks archives and applies proactive heuristics.

This makes option B the only complete answer. "Inspect or Bypass" describes possible handling actions, not scanning technologies. "Active and Passive Scanning" is incomplete because it omits deep inspection and archive handling. "Automatic, Manual, On-Demand, Scheduled" describes update or operational timing concepts, not Anti-Virus scanning engines. In practice, Active/Passive Streaming controls how traffic is handled in the inspection pipeline, Deep Scanning expands the set of file types inspected, and Archive Scanning opens compressed containers to detect malware hidden inside them. Reference topics: Anti-Virus Settings, CPAS, PSL, Deep Inspection Scanning, Archive Scanning.

NEW QUESTION # 17

What does not belong to types of exceptions?

- A. QoS Policy exemptions.
- B. Core Activations Exceptions.
- C. Implied IPS Exceptions.
- D. IPS Settings Exceptions.

Answer: A

Explanation:

The correct answer is B. QoS Policy exemptions . Threat Prevention exceptions are policy constructs used to alter how Threat Prevention blades, IPS protections, files, sites, or protected-scope objects are handled. Check Point documentation explains that an exception sets a different action for an object in the protected scope than the action specified by the Threat Prevention rule, and that exceptions are generally intended to reduce the level of enforcement rather than increase it. The guide also describes creating exceptions from IPS Protections, logs, events, and exception groups, all within the Threat Prevention policy workflow.

IPS Settings Exceptions , Core Activation Exceptions , and Implied IPS Exceptions are aligned with the IPS/Threat Prevention exception model because they affect how protections are activated, tuned, or safely excluded from enforcement. QoS Policy exemptions do not belong to Threat Prevention exception taxonomy.

QoS relates to traffic prioritization, bandwidth control, and quality-of-service enforcement, not malware, IPS, Anti-Bot, Anti-Virus, or blade exception handling. In certification terms, the key separation is policy domain:

Threat Prevention exceptions modify security inspection behavior, while QoS exemptions belong to traffic management. Reference topics: Threat Prevention Exceptions, IPS Exceptions, Core Activation Exceptions, Implied IPS Exceptions, exception groups.

NEW QUESTION # 18

Task: Verify the enabled Software Blades on a Check Point Security Gateway.

Answer:

Explanation:

See the Explanation.Explanation:

- 1- SSH into the Security Gateway.
- 2- Run the command: cplic print to check license details.
- 3- Use: enabled_blades or cpstat os to verify enabled blades.
- 4- Confirm Threat Prevention blades like IPS, Anti-Bot, and Anti-Virus are listed.
- 5- Use SmartConsole > Gateway > General Properties to visually confirm the same.

NEW QUESTION # 19

.....

DumpExam is a website that can provide all information about different IT certification exam. DumpExam can provide you with the best and latest exam resources. To choose DumpExam you can feel at ease to prepare your CheckPoint 156-590 exam. Our training materials can guarantee you 100% to pass CheckPoint certification 156-590 exam, if not, we will give you a full refund and exam practice questions and answers will be updated quickly, but this is almost impossible to happen. DumpExam can help you pass CheckPoint Certification 156-590 Exam and can also help you in the future about your work. Although there are many ways to help you achieve your purpose, selecting DumpExam is your wisest choice. Having DumpExam can make you spend shorter time less money and with greater confidence to pass the exam, and we also provide you with a free one-year after-sales service.

156-590 Pass4sure Study Materials: <https://www.dumpexam.com/156-590-valid-torrent.html>

Some of the customer says that the study thoughts from the 156-590 exam dumps are concise and easy to get, and definitely not boring, but useful, All in all, our 156-590 testking practice will help you a lot, CheckPoint Exam 156-590 Tutorials Our track record is outstanding, We offer 156-590 exam materials this time and support you with our high quality and accuracy 156-590 learning quiz, CheckPoint Exam 156-590 Tutorials Each client is provided with passing guarantee that they can take back their money, if any of them fail the exam despite using our products.

Another assumption I make is that the typical Reliable 156-590 Dumps Pdf person who wants to start a personal Web business is busy during the day with a real job,TM and the last thing anyone wants to do after 156-590 coming home from a hard day of work is to update content on a daily or even weekly basis.

Excel in Your CheckPoint 156-590 Exam with DumpExam: The Quick Solution for Success

Send window-sized packets are sent one after 156-590 Labs another in a pipelined fashion continuously to the client receiver, Some of the customer says that the study thoughts from the 156-590 Exam Dumps are concise and easy to get, and definitely not boring, but useful.

All in all, our 156-590 testking practice will help you a lot, Our track record is outstanding. We offer 156-590 exam materials this time and support you with our high quality and accuracy 156-590 learning quiz.

Each client is provided with passing guarantee 156-590 Pass4sure Study Materials that they can take back their money, if any of them fail the exam despite using our products.
