NS0-528 Interactive EBook | NS0-528 Test Sample Online

BONUS!!! Download part of GetValidTest NS0-528 dumps for free: https://drive.google.com/open?id=1Vj5jtC6QoZOluPq7R7DN6sl8KDMrHV3r

NS0-528 test guide is not only the passbooks for students passing all kinds of professional examinations, but also the professional tools for students to review examinations. In the past few years, NS0-528 question torrent has received the trust of a large number of students and also helped a large number of students passed the exam smoothly. That is to say, there is absolutely no mistake in choosing our NS0-528 Test Guide to prepare your exam, you will pass your exam in first try and achieve your dream soon.

Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	• NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.
Topic 2	• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.
Topic 3	• NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.

Topic 4	• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.
Topic 5	• Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.

Network Appliance NS0-528 Exam Practice Test Questions Updated on a Regular Basis

First and foremost, in order to cater to the different needs of people from different countries in the international market, we have prepared three kinds of versions of our NS0-528 learning questions in this website. Second, we can assure you that you will get the latest version of our NS0-528 Training Materials for free from our company in the whole year after payment on NS0-528 practice materials. Last but not least, we will provide the most considerate after sale service on our NS0-528 study guide for our customers in twenty four hours a day seven days a week.

Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q141-Q146):

NEW QUESTION # 141
What is a SnapMirror policy in NetApp ONTAP?

- A. A method for optimizing data access
- B. A method for compressing data to reduce storage space
- C. A set of rules for controlling how data is replicated between systems
- D. A method for encrypting data to protect it from unauthorized access

Answer: C

NEW QUESTION # 142
What is a backup policy in NetApp data protection software?

- A. A method for optimizing data access
- B. A method for compressing data to reduce storage space
- C. A method for encrypting data to protect it from unauthorized access
- D. A set of rules for controlling how data is backed up

Answer: D

NEW QUESTION # 143
Your disaster recovery strategy requires a mirror, an archive, and a tape backup.
Which software would you recommend for this scenario?

- A. SnapProtect
- B. OnCommand Unified Manager
- C. OnCommand System Manager
- D. OnCommand Workflow Automation

Answer: A

NEW QUESTION # 144

You need to protect an entire SVM and all of its data volumes and have decided to use SnapMirror SVM. The DR cluster uses a different subnet from the production cluster, and the destination SVM has the added requirement of also being online and serving data as read-only.

What option would you set to achieve both goals?

- A. Set the -discard-configs option to network in the applied snapmirror policy.
- B. Use the -identity-preserve option set to true in the snapmirror create command.
- C. Set the -type option to automated-failover in the applied snapmirror policy.
- D. Use the -identity-preserve option set to false in the snapmirror create command.

Answer: D

Explanation:
Setting -identity-preserve false allows the destination SVM to have a different network configuration, which is required since the DR site uses a different subnet. It also enables the destination SVM to be online and serve data in read-only mode, which meets the requirement for data availability during normal operation without promoting the SVM.

NEW QUESTION # 145

You have recently installed and set up a new NetApp HCI deployment in your data center that consists of four compute nodes and four storage nodes. Inside this HCI deployment, you are using ONTAP Select for file services. You must protect the data inside the ONTAP Select VM in case of a rack failure.

Which two methods would accomplish this task? (Choose two.)

- A. Using SolidFire real-time remote replication, replicate the hosting volumes to an ONTAP cluster.
- B. Enable FabricPools in the ONTAP Select instance.
- C. Replicate the SVMs from inside the ONTAP Select VM to an existing ONTAP cluster using SVM D
- D. Replicate the volumes using SnapMirror from inside the ONTAP Select VM to an existing ONTAP cluster.

Answer: A,C

NEW QUESTION # 146

......

It is apparent that a majority of people who are preparing for the NS0-528 exam would unavoidably feel nervous as the exam approaching, since you have clicked into this website, you can just take it easy now--our NS0-528 learning materials. Our company has spent more than 10 years on compiling study materials for the exam, and now we are delighted to be here to share our NS0-528 Study Materials with all of the candidates for the exam in this field. There are so many striking points of our NS0-528 preparation exam.
