Pass Guaranteed Quiz 300-425 - Designing Cisco Enterprise Wireless Networks –The Best Certification Cost

If you choose our 300-425 exam questions, then you can have a study on the latest information and technologies on the subject and you will definitely get a lot of benefits from it. Of course, the most effective point is that as long as you carefully study the 300-425 Study Guide for twenty to thirty hours, you can go to the exam. To really learn a skill, sometimes it does not take a lot of time. Come to buy our 300-425 practice materials and we teach you how to achieve your goals efficiently.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q51-Q56):

NEW QUESTION # 51

You are designing a wireless network that contains many different types of wireless clients. How do you conduct a survey to ensure a consistent experience for all of the wireless clients?

- A. by using the client that is used most by the company
- B. by using a client of every different type
- C. by using the client that is used least by the company
- D. by using the client that has the highest RF properties

Answer: A

NEW QUESTION # 52

Refer to the exhibit.

What is the main reason why the Wi-Fi design engineer took a different approach than installing the APs in the offices, even though that installation provides better coverage?

- A. antenna gain
- B. aesthetics
- C. power supply considerations
- D. transmit power considerations

Answer: D

NEW QUESTION # 53

A customer has two Cisco 550B WLCs that manage all the access points in their network and provide N+1 redundancy and load balancing. The primary Cisco WLC has 60 licenses and the secondary Cisco WLC has 40. The customer wants to convert the N+1 model to an HA model and provide SSO. Configuration must be performed during a maintenance window.

After performing all the configurations on both controllers, the config redundancy unit secondary command is issued on the secondary Cisco WLC and it fails.

Which parameter needs to be in place to complete the configuration?

- A. A cable in the RP port
- B. The secondary Cisco WLC needs a minimum of 50 base licenses
- C. SSO needs to be enabled
- D. The primary Cisco WLC is already set as the secondary unit.

Answer: B

Explanation:

If you want to convert any existing WLC as a Standby WLC, do so using the config redundancy unit secondary command in the CLI. This CLI command will only work if the WLC which is intended to work as Standby has some number of permanent license count. This condition is only valid for the 5508 WLC, where a minimum of 50 AP Permanent licenses are needed to be converted to Standby. There is no restriction for other WLCs such as the 5520, WiSM2, 7500, and 8500.

NEW QUESTION # 54

An architect configures a set of AirOS controllers to be in the same mobility group as the existing controllers. The implementation should facilitate inter-controller roaming for users in their new campus. After the configuration, the mobility tunnel is not operational for the data path in the network. Which two validations should be performed? (Choose two.)

- A. eping
- B. firewall port 16666
- C. rping
- D. firewall IP protocol 97
- E. mping

Answer: B,D

NEW QUESTION # 55

Refer to the exhibit.

An engineer is about to establish a mobility peer connection between a Cisco Catalyst 9800-CL version 16.10.1e and Cisco AireOS 5520 version 8.8.120.0. The data path between the 9800-CL and AireOS 5520 is down, but its control path is up. Based on the configuration, what is the cause of the issue?

- A. Encrypted mobility is being used in the 5520 configuration leading to data path down.
- B. The data-link-encryption configuration is missing from the 9800-CL configuration.
- C. The certificate hash key is incorrect leading to data path down.
- D. CAPS is used to key in MAC address in the IOS_XE configuration leading to data path down.

Answer: B

NEW QUESTION # 56

.....

If you are aiming to become a certified Cisco 300-425, you should prepare with actual exam questions and study guides. These study materials will enable you to pass the exam without much difficulty. Cisco's practice exams will help you prepare well for the actual exam. The questions are updated and easy to understand. The test materials also consist of a realistic scenario that simulates the exam environment.
