PMI PMI-PMOCP덤프데모문제 - PMI-PMOCP높은 통과율 시험대비자료

IT업계 종사자라면 누구나 PMI 인증PMI-PMOCP시험을 패스하고 싶어하리라고 믿습니다. 많은 분들이 이렇게 좋은 인증시험은 아주 어렵다고 생각합니다. 네 맞습니다. 패스할 확율은 아주 낮습니다. 노력하지 않고야 당연히 불가능한 일이 아니겠습니까? PMI 인증PMI-PMOCP 시험은 기초 지식 그리고 능숙한 전업지식이 필요 합니다. DumpTOP는 여러분들한테PMI 인증PMI-PMOCP시험을 쉽게 빨리 패스할 수 있도록 도와주는 사이트입니다. DumpTOP의PMI 인증PMI-PMOCP시험관련 자료로 여러분은 짧은 시간내에 간단하게 시험을 패스할수 있습니다. 시간도 절약하고 돈도 적게 들이는 이런 제안은 여러분들한테 딱 좋은 해결책이라고 봅니다.

최신 PMI Certification PMI-PMOCP 무료샘플문제 (Q72-Q77):

질문 # 72

A newly appointed PMO professional has been tasked with developing an organizational project management (OPM) competency framework to improve project management across the organization. The goal is to ensure alignment with both industry standards and specific organizational needs.

What should the PMO professional do first?

- A. Analyze the project management skills of the current team and develop a framework around their existing competencies.
- B. Research industry standards and good practices, then adapt them to address the organization's unique challenges.
- C. Focus the competency framework on senior project managers, as they will have the most impact on the organization's success.
- D. Create a list of competencies based on the organization's past project successes.

정답： B

설명：

The best starting point is to research recognized industry standards and best practices to ensure the competency framework is grounded in proven models. From there, the PMO professional should customize the framework to meet the organization's unique challenges and strategic objectives.

Building the framework solely on current team skills (Option A) or past successes (Option B) risks limiting growth and failing to address emerging needs. Focusing only on senior project managers (Option D) excludes broader organizational impact.

PMI-PMOCP Lifecycle Management emphasizes benchmarking external standards as a foundational step in competency framework development.

질문 # 73

A PMO professional has been tasked with assessing and improving the competencies of the PMO team to better support the wide range of services the PMO provides. For example, the competencies required for a portfolio management service may differ significantly from those needed for training and mentoring services.

What steps should the PMO leader take to ensure the PMO team's competencies align with the diverse services provided?

- A. Meet with PMO customers to understand their expectations and develop a competency matrix that maps PMO team members' current skills to the specific needs of each PMO service.
- B. Focus only on developing the competencies related to the PMO's most commonly used services, ensuring efficiency in training and the reduction of costs.
- C. Rotate PMO team members through various PMO services to gain exposure to different areas, assuming that hands-on experience alone will develop the necessary skills for each PMO service.
- D. Conduct a general competency assessment for the entire PMO team and create a single training program covering basic project management skills for all team members.

정답： A

설명：

The best practice is to engage PMO customers to understand their expectations and then develop a competency matrix that aligns team members' skills with the specific demands of each PMO service (Option C). This targeted approach ensures that competency development is relevant and service-focused.

Rotations (Option A) and general assessments (Option B) are less strategic and may dilute focus. Limiting development to common services (Option D) risks neglecting emerging or specialized needs.

PMI-PMOCP Lifecycle Management recommends systematic competency mapping tied to customer needs and service requirements to optimize PMO effectiveness.

질문 # 74

A multinational company seeks to establish and maintain strong governance for its PMO to ensure efficient service delivery, accountability, and alignment with organizational goals.

What is the most critical action the PMO professional should take when establishing PMO governance to ensure the PMO operates effectively?

- A. Focus on increasing the number of governance meetings and reporting cycles to ensure PMO activities are constantly monitored and adjusted as necessary.
- B. Rely on the existing successful project governance processes within the organization so that the PMO services will align naturally with them.
- C. Develop a flexible PMO governance framework tailored to the PMO's unique functions and services, ensuring it can adapt to changing organizational needs while maintaining control and oversight.
- D. Implement standardized governance processes that apply equally to all departments, ensuring that every aspect of PMO operations is controlled and monitored with strict procedures.

정답：C

설명：
Effective PMO governance requires a tailored and flexible governance framework that balances control with adaptability. PMI-PMOCP stresses that governance must reflect the PMO's specific roles, services, and organizational context, enabling it to evolve with changing needs while providing appropriate oversight.
Relying solely on existing governance (option B) or focusing on frequency of meetings (option C) may not address unique PMO requirements. Strict standardized processes (option D) risk rigidity that can hinder responsiveness.

질문 # 75
A newly established PMO has been given an opportunity to give a presentation to the executive committee of a natural flavors company. The new PMO is striving to shape its service offerings to support the research and development (R&D) department of the company.
What should the PMO leader do to gain executive support?

- A. Leverage benchmarks and case studies that highlight how the PMO can improve the success rate of delivering projects on time and within budget.
- B. Present detailed reports on R&D project performance metrics and key performance indicators (KPIs) managed by the PMO.
- C. Showcase the ability of the PMO to standardize processes and increase efficiency across projects in the R&D portfolio.
- D. Demonstrate how the PMO aligns projects with the strategic goals of the organization, using R&D as an example.

정답：D

설명：
Executive support is best gained by demonstrating how the PMO's work aligns with and supports strategic organizational goals, especially when tailored to key departments such as R&D. PMI-PMOCP highlights strategic alignment as critical to securing leadership buy-in.
Process standardization (B), benchmarks (A), or detailed metrics (D) may support the case but are less compelling without clear strategic linkage.
Reference:PMI-PMOCP Study Guide, Chapter on Strategic Alignment and Stakeholder Engagement.

질문 # 76
A software company hired a PMO professional to establish a new PMO to oversee the performance of its projects and create the required processes. The new PMO professional immediately conducted project management training sessions for all project managers, developed project templates, and regularly conducted project audits. After the PMO had been in service for a year, senior management decided to shut down the PMO due to lack of value generation.
What should the PMO professional have done differently to ensure that the PMO generated the desired value?

- A. Conduct the required training on a smaller scale first before delivering the training to all project managers.
- B. Validate and align with senior management's expectations at the beginning of the PMO setup.
- C. Reduce the costs of the PMO in the first year and increase it gradually year over year.
- D. Change the frequency of project audits in order to reduce the PMO operating costs.

정답：B

설명:

A critical early step in establishing a PMO is tovalidate and align the PMO's purpose, objectives, and services with senior management expectations.PMI-PMOCP emphasizes stakeholder engagement and alignment as foundations for PMO success. Without this alignment, PMO efforts may miss organizational priorities, resulting in perceived lack of value.

While training and audits are important, their scale and scope should reflect the organization's needs and priorities. Costs and frequency changes (options A and C) are secondary to strategic alignment. Smaller scale training (option B) may help adoption but does not replace the need for clear expectation-setting.

Alignment ensures the PMO delivers relevant services and is recognized as a value driver.
