2026 Latest AD0-E117 Exam Fee 100% Pass | Professional AD0-E117 Torrent: Adobe Experience Manager Architect Master

Windows computers support the desktop practice test software. ExamPrepAway has a complete support team to fix issues of Adobe AD0-E117 PRACTICE TEST software users. ExamPrepAway practice tests (desktop and web-based) produce score report at the end of each attempt. So, that users get awareness of their Adobe Experience Manager Architect Master (AD0-E117) preparation status and remove their mistakes.

Adobe Experience Manager Architect Master Exam, also known as AD0-E117, is a certification test that assesses the candidate's knowledge of Adobe Experience Manager's architecture and development processes. With the increasing adoption of AEM by large organizations, the demand for highly skilled and certified AEM developers has grown exponentially. Therefore, this certification can significantly boost the candidate's career opportunities and credibility in the industry.

Adobe Experience Manager Architect Master Sample Questions (Q18-Q23):

NEW QUESTION # 18

An enterprise client is on-boarding an AEM Desktop application to provide authors with the ability to load the AEM repository virtually on the file system. The desktop application is unable to connect to the AEM Author, which has SSL enabled. The intermediate certificate is installed on Apache.

How should an Architect resolve this issue?

- A. Install the certificate chain to the keystore of the AEM ssl-service user
- **B. Install the Root certificate to the AEM truststore**
- C. Install the certificate chain to the AEM truststore
- D. Install the certificate chain to the keystore of the AEM authentication service user

Answer: B

Explanation:

"installing the Root certificate to the AEM truststore can allow AEM Desktop application to connect to AEM Author with SSL enabled".

NEW QUESTION # 19

A client wants to enable SSO in the AEM Authoring instance using SAML for the content authors. The client also wants to onboard their marketing team and design team to use AEM. However, these teams use their personal Adobe ID to login to the Creative and Marketing Cloud products such as Analytics and Target on Admin Console. The client wants to enable the usage of company credentials for all their solutions to enforce standardized security policies. What would the architect propose to meet these requirements?

- A. Onboard all users to Adobe IMS using Federated ID
- B. Create a new SAML profile in the client IDP to integrate to the Marketing and Creative cloud products
- **C. Onboard all users to Adobe IMS using Enterprise ID**
- D. Configure Adobe IMS to forward sign-in for Adobe ID to the client IDP

Answer: C

NEW QUESTION # 20

A client was successfully moved from AEM 6.5 to AEM as a Cloud Service (AEMaaS) environment. The Content Transfer Tool was used to transfer the content to the AEMaaS environment. The developed components render different renditions based on the breakpoint of the pages. The users reported that newly uploaded assets are not rendering or missing. What is the cause of this issue and how can it be resolved?

- **A. The Asset Update workflow is not compatible with AEMaaS. The solution is to use AEM Processing profiles to create the missing renditions.**
- B. The Asset Update workflow was not migrated properly to the new AEMaaS instance. The solution is to migrate the /var path and the workflow models using the Content Transfer Tool.
- C. The Asset Update workflow was not migrated properly to the new AEMaaS instance. The solution is to make sure that the workflow is present in the codebase.
- D. The Asset Update workflow is not compatible with AEMaaS. The solution is to rewrite the workflow to use the new APIs in the AEM SDK.

Answer: A

NEW QUESTION # 21

A customer is about to go live with a new website on AEM on prem. The DNS (www.domain.com) already points to the load balancer of the AEM environment and final sanity checks are being performed. The website was tested in lower environments without SSL. On production, the website is served over https. During sanity testing, all requests result in a 404.

While investigating this issue, an Architect determines the following:

- * The requests land on port 443 on the load balancer where SSL is terminated and an HTTP header X-Forwarded-Proto is set
- * The website Sling Mapping is created beneath /etc/map/http/www.domain.com.80
- * The URLs on the website are externalized with http in the absolute links. Which two actions should the Architect take to resolve this problem? (Choose two.)

- A. Ensure the Sling Mapping exist at /etc/map/https/www.domain.com.80
- **B. Configure Apache Felix Http Service SSL Filter to use the correct SSL forward header**
- **C. Ensure the Sling Mapping exist at /etc/map/httpj)mwv<.domain.com.443Configure the Adobe Granite SSL Connector Factory with the correct SSL port**
- D. Ensure the Sling Mapping exist at /etc/map/https/www.domain.com.443

Answer: B,C

Explanation:

"the Sling Mapping should match the protocol and port of the incoming request, which in this case is https and 443. The Apache Felix Http Service SSL Filter should be configured to use the X-Forwarded-Proto header to detect if the request is secure or not".

NEW QUESTION # 22

A customer's photo gallery site uses query parameters to filter photo search results. The site experiences high AEM Publish server load when users filter photos on the site. The customer would like to identify the cause of this issue.

What should the Architect investigate first?

- A. Volume of assets being loaded at a time
- **B. Cache-Control Headers in dispatcher.any**
- C. ignoreUrlParams configuration in dispatcher.any
- D. Dispatcher load balancing configuration

Answer: B

Explanation:

"Cache-Control Headers in dispatcher.any control how long the dispatcher caches responses from the publish server. If these headers are not configured properly, the dispatcher may cache stale or dynamic content, resulting in high server load and poor performance".

NEW QUESTION # 23

.....

As far as the AD0-E117 practice test are concerned, these AD0-E117 practice questions are designed and verified by the experience and qualified Adobe AD0-E117 exam trainers. They work together and strive hard to maintain the top standard of AD0-E117 exam practice questions all the time. So you rest assured that with the Adobe AD0-E117 Exam Dumps you will ace your Adobe AD0-E117 exam preparation and feel confident to solve all questions in the final Adobe AD0-E117 exam.
