

# CMMC-CCA Reliable Real Test & Vce CMMC-CCA Test Simulator

The image shows the cover of a study guide for the CCA Exam. The title 'CCA EXAM PREP' is prominently displayed at the top in large, bold letters, with 'CCA' in blue and 'EXAM PREP' in yellow. Below the title, it says 'AHIMA'S CERTIFIED CODING ASSOCIATE EXAM PREPARATION'. A central graphic features a blue clipboard with a checklist and a yellow stethoscope. To the right of this graphic, the text 'CCA EXAM STUDY GUIDE COVERS' is followed by a bulleted list of topics: Clinical Classification Systems, Reimbursement Methodologies, Health Records and Data Content, Compliance, Information Technologies, and Confidentiality and Privacy. At the bottom of the cover, two yellow banners contain the text '420 CCA EXAM QUESTIONS' and '4 FULL LENGTH CCA PRACTICE EXAMS'. The publisher's name, 'AMBITIONZ PUBLISHING', is at the very bottom.

P.S. Free & New CMMC-CCA dumps are available on Google Drive shared by PracticeDump: <https://drive.google.com/open?id=1ngXZn4j3qST5VopObi-pGxCVtKc03K6k>

There is no exaggeration that you can be confident about your coming exam just after studying with our CMMC-CCA preparation materials for 20 to 30 hours. Tens of thousands of our customers have benefited from our CMMC-CCA Exam Dumps and passed their exams with ease. The data showed that our high pass rate is unbelievably 98% to 100%. Without doubt, your success is 100% guaranteed with our CMMC-CCA training guide.

## Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• <b>CMMC Level 2 Assessment Scoping:</b> This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Assessing CMMC Level 2 Practices:</b> This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>CMMC Assessment Process (CAP):</b> This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements:</b> This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.</li> </ul>

## Vce CMMC-CCA Test Simulator - CMMC-CCA Valid Cram Materials

With the advent of knowledge times, we all need some professional certificates such as CMMC-CCA to prove ourselves in different working or learning condition. So making right decision of choosing useful practice materials is of vital importance. Here we would like to introduce our CMMC-CCA practice materials for you with our heartfelt sincerity. With passing rate more than 98 percent from exam candidates who chose our CMMC-CCA study guide, we have full confidence that your CMMC-CCA actual test will be a piece of cake by them.

### Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q79-Q84):

#### NEW QUESTION # 79

As the Lead Assessor for your Assessment Team, you are validating an OSC's scope in readiness to start the assessment. You learn that the OSC provides its employees with laptops to work on DoD projects. These laptops have an antivirus solution that connects to a management console to receive updates, send alerts, and control settings. However, the server does not process, store, or transmit CUI but implements several CMMC controls. Which of the following is NOT part of the OSC's requirements regarding the antivirus solution?

- A. The OSC should document it in the System Security Plan (SSP).
- **B. Logically separate the antivirus solution from other CUI assets.**
- C. They should document the specifics of the antivirus solution in the asset inventory.
- D. Itemize the solution in the CMMC Assessment Scope's network diagram and prepare it to be assessed against CMMC practices.

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

The antivirus solution is a Security Protection Asset (SPA), per the CMMC Assessment Scope - Level 2, requiring documentation in the network diagram (Option A), asset inventory (Option B), and SSP (Option C), and assessment against CMMC practices. Logical separation (Option D) is not required for SPAs, which must integrate with the CUI environment to function. D is not a requirement.

Reference:

CMMC Assessment Scope - Level 2, Section 2.3.3 (SPAs), p. 6: "SPAs are documented and assessed, not separated from CUI assets."

### NEW QUESTION # 80

During a CMMC assessment of an OSC, you discover that they rely heavily on a reputable CSP for their email services. As you delve deeper into the assessment, you suspect the OSC is incorrectly assuming that the CSP's security measures are sufficient to meet all the CMMC requirements related to email security. Given the critical nature of email communications and the potential exposure of sensitive information, you recognize the importance of clearly understanding the division of responsibilities between the OSC and the CSP for email security controls. To effectively assess how email security responsibilities are divided between the OSC and the CSP, which document should you prioritize reviewing?

- A. The OSC's overall security policy
- B. The CSP's publicly available security documentation
- **C. The Shared Responsibility Matrix (SRM) between the OSC and the CSP**
- D. The Service Level Agreement (SLA) between the OSC and the CSP

**Answer: C**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The Shared Responsibility Matrix (SRM), per CMMC and FedRAMP guidance, delineates security control responsibilities between the OSC and CSP, critical for assessing email security (e.g., AC.L2-3.1.13). Option A (security policy) lacks CSP-specific detail. Option C (public documentation) is generic, not contractual.

Option D (SLA) focuses on service levels, not control specifics. Option B is the correct answer, providing the clearest division per CAP.

Reference Extract:

\* CMMC Assessment Process (CAP) v1.0, Section 4.3: "The SRM clarifies CSP and OSC responsibilities for cloud services." Resources: <https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

### NEW QUESTION # 81

While scoring the evidence for a particular CMMC practice, the Certified Assessor notes that one of the practice objectives is NOT MET, thereby scoring the entire practice as NOT MET. The OSC Assessment Official disagrees with the Certified Assessor's decision, and they both take the dispute to the Lead Assessor, who is unable to resolve the issue to the OSC's satisfaction. How will this dispute be settled?

- A. The Certified Assessor is certified and, as such, the decision will stand.
- B. The OSC can supply adequate proof to the Cyber-AB to overturn the decision.
- **C. The Lead Assessor will present the dispute to the C3PAO Official, who will make a ruling.**
- D. The Lead Assessor is the final arbiter of the dispute.

**Answer: C**

Explanation:

The CMMC Assessment Process (CAP) specifies that when disputes cannot be resolved by the Lead Assessor, they must be elevated to the C3PAO Official, who has authority to make the final decision.

Extract:

"Unresolved disputes between the OSC and the Assessment Team must be elevated to the C3PAO Official for final resolution." Therefore, the C3PAO Official is the final arbiter in such disputes.

Reference: CMMC Assessment Process (CAP), Dispute Resolution.

### NEW QUESTION # 82

A company has four waterjet machines with very limited computing capabilities. The company loads CUI onto these machines for machining parts and uses CUI as necessary for machining.

Should these waterjet machines be part of the CMMC Assessment?

- A. No, these waterjet machines are Out-of-Scope Assets and do not need to be assessed.
- **B. Yes, these waterjet machines are Specialized Assets that are within the scope of a CMMC Assessment.**

- C. Yes, these waterjet machines are CUI Assets that must be assessed because they handle CUI.
- D. No, these waterjet machines are Contractor Risk Managed Assets and do not need to be assessed.

**Answer: B**

Explanation:

The CMMC Scoping Guidance defines Specialized Assets (e.g., OT, IoT, test equipment, manufacturing machines) that may process CUI but do not always meet traditional IT security requirements. These assets are still within scope and must be documented and assessed as Specialized Assets.

Extract:

"Specialized Assets are defined as operational technology, IoT, test equipment, and similar devices that may process CUI but cannot be secured in the same manner as standard assets. They remain in-scope for the assessment." Thus, waterjet machines are Specialized Assets in scope.

Reference: CMMC Scoping Guidance - Specialized Assets.

### NEW QUESTION # 83

Ron is the Lead Assessor for an OSC's CMMC assessment. His team has scheduled interviews and demonstrations with the OSC's system administrator, Olivia. However, on the first day, the CEO informs Ron that Olivia is very ill and is unavailable. The CEO offers to be interviewed about Olivia's responsibilities instead, even though he does not actually perform those tasks. What should Ron do in this scenario?

- A. Reschedule the interviews with Olivia or continue with another person who understands and performs Olivia's duties while she is away.
- B. Have the CEO accompanied by another IT rep during the interview.
- C. It depends on the specific details discussed during the interview with the CEO.
- D. Interview the CEO.

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP requires interviews with individuals who perform the tasks, not proxies like the CEO (Options A, B, C). Option D ensures compliance by seeking the appropriate personnel.

Extract from Official Document (CAP v1.0):

\* Section 2.2 - Conduct Assessment (pg. 25): "Interviews and demonstrations must be conducted with the person responsible for carrying out the work." References:

CMMC Assessment Process (CAP) v1.0, Section 2.2; CoPC Paragraph 2.4.

### NEW QUESTION # 84

.....

To get better condition of life, we all need impeccable credentials of different exams to prove individual's capacity. However, weak CMMC-CCA practice materials may descend and impair your ability and flunk you in the real exam unfortunately. And the worst condition is all that work you have paid may go down the drain for those CMMC-CCA question torrent lack commitments and resolves to help custCMMC-CCAomers. Moreover, only need toCMMC-CCA spend 20-30 is it enough for you to grasp whole content ofCMMC-CCA practice materials that you can pass the exam easily, this is simply unimaginable.
