SAP C-SEC-2405 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Governance, Compliance, and Cybersecurity: This section of the exam measures the skills of compliance officers and covers the principles of governance, compliance, and cybersecurity of SAP systems. It includes understanding regulatory requirements and best practices for maintaining security. A critical skill evaluated is ensuring organizational compliance with relevant laws and policies.
Topic 2	<ul style="list-style-type: none"> • SAP Fiori Authorizations and SAP S • 4HANA: This section of the exam measures the skills of SAP Developers and covers authorization management specific to SAP Fiori applications within SAP S • 4HANA. It emphasizes configuring authorizations for Fiori apps to ensure appropriate access levels. A key skill assessed is understanding Fiori authorization concepts to enhance user experience.
Topic 3	<ul style="list-style-type: none"> • User Administration: This section of the exam measures the skills of SAP Administrators and covers user administration tasks within SAP systems. It includes managing user accounts, roles, and profiles efficiently. A critical skill evaluated is maintaining accurate user records to support security and compliance efforts.
Topic 4	<ul style="list-style-type: none"> • Authorization and Role Maintenance: This section of the exam measures the skills of SAP administrators and covers the management of user authorizations and roles within SAP systems. It emphasizes the processes involved in defining, maintaining, and approving roles to ensure secure access. A key skill assessed is managing role authorizations effectively to mitigate access risks.
Topic 5	<ul style="list-style-type: none"> • Public Cloud User and Role Management: This section of the exam measures the skills of SAP IT cloud Professionals and covers managing users and roles in public cloud environments for SAP applications.

SAP Certified Associate - Security Administrator Sample Questions (Q67-Q72):

NEW QUESTION # 67

Which archiving objects are relevant for archiving change documents for user master records? Note: There are 2 correct answers to this question.

- A. US_AUTH
- B. US_PASS
- C. US_PROF
- D. US_USER

Answer: A,D

Explanation:

* Context: Archiving change documents for user master records ensures compliance and reduces database size.

* Solution Explanation:

* US_USER: Relevant for changes to user master data.

* US_AUTH: Pertains to changes in user authorization assignments.

SAP Security References:

* SAP Archiving and Data Management Guide

* SAP Help Portal for User Master Data Archiving

NEW QUESTION # 68

Which application in SAP S/4HANA Cloud Public Edition allows you to upload employee information independent of the customers' HR system?

- A. Identity and Access Management app
- B. Maintain Business User app
- C. Display Technical Users app
- D. Manage Workforce app

Answer: D

NEW QUESTION # 69

What must you do if you want to enforce an additional authorization check when a user starts an SAP transaction?

- A. Assign the authorization object to be checked to the chosen transaction code with transaction SU24 and set Default Status to "Yes".
- B. Assign the authorization object and permissions to the chosen transaction code using transaction SE93.
- C. Assign authorization object S_START to the chosen transaction code with transaction SU24 and specify the Program ID and Object Type.
- D. Assign the authorization object to be checked to the chosen transaction code in the SAP Default authorization data using transaction SU22 and set Check Indicator to "Check".

Answer: C

NEW QUESTION # 70

Which of the following allow you to control the assignment of table authorization groups? Note: There are 2 correct answers to this question.

- A. SSM_CUST
- B. PRGN_CUST
- C. V_BRG_54
- D. V_DDAT_54

Answer: C,D

Explanation:

In SAP systems, table authorization groups are controlled using views V_DDAT_54 and V_BRG_54.

V_DDAT_54 is a maintenance view that allows administrators to assign tables to authorization groups, defining which groups protect specific tables and ensuring that access is restricted to authorized users.

V_BRG_54 is another view used to manage table authorization groups, particularly for assigning and maintaining group definitions that link to authorization objects like S_TABU_DIS. These views enable granular control over table access, supporting data security and compliance. PRGN_CUST is a customizing table for role and authorization settings, not specifically for table authorization groups, and SSM_CUST is related to system settings, not table access control. By using V_DDAT_54 and V_BRG_54, SAP provides a structured approach to managing table authorizations, ensuring that sensitive data in tables is protected against unauthorized access while allowing efficient administration of access controls.

NEW QUESTION # 71

Where can you find information on the SAP-delivered default authorization object and value assignments?

Note: There are 2 correct answers to this question.

- A. SU22
- B. USOBT_C
- C. SU24
- D. USOBT

Answer: A,D

Explanation:

Information on SAP-delivered default authorization objects and their value assignments can be found in transaction SU22 and table USOBT. Transaction SU22 is used to maintain and view SAP default authorization data, including authorization objects and their proposed values for transactions, as provided by SAP. The table USOBT (Authorization Object Defaults) stores these default assignments, detailing the authorization objects linked to transactions and their standard values. In contrast, USOBT_C is a customer-specific table for customized authorization data, and SU24 is used for maintaining customer-specific authorization proposals, not SAP-delivered defaults. These tools and tables ensure administrators can access and understand SAP's standard authorization configurations for secure system setup.

NEW QUESTION # 72

The SAP C-SEC-2405 PDF dumps format is the most simple and easy version, specially designed by the Itcertkey to provide value to its consumers. It is also compatible with all smart devices.
