

100% Pass Cisco - Efficient New 300-620 Test Registration

BTW, DOWNLOAD part of BraindumpQuiz 300-620 dumps from Cloud Storage: https://drive.google.com/open?id=1JD2gUVAfx_PNsVb3W8b6Rip5L0a3T19m

If you buy our 300-620 study materials you will pass the 300-620 test smoothly and easily. We boost professional expert team to organize and compile the 300-620 training materials diligently and provide the great service which include the service before and after the sale, the 24-hours online customer service and refund service. Our 300-620 real quiz boosts 3 versions and varied functions to make you learn comprehensively and efficiently. The learning of our study materials costs you little time and energy and we update them frequently. questions: Implementing Cisco Application Centric Infrastructure in detail please look at the introduction of our product as follow.

Cisco 300-620 certification exam is a challenging but rewarding opportunity for IT professionals who want to demonstrate their expertise in designing and implementing modern data center networks. By earning this certification, candidates can open up new career opportunities and enhance their credibility as network engineering experts.

Exam Topics for Implementing Cisco Application Centric Infrastructure (300-620 DCACI)

The following will be practiced in **CISCO 300-620 practice exam** and **CISCO 300-620 Practice Exams**:

- ACI Management
- ACI Fabric Infrastructure
- Integrations
- External Network Connectivity
- ACI Anywhere

To pass the Cisco 300-620 exam, candidates must demonstrate a deep understanding of the ACI architecture, as well as the ability to troubleshoot and optimize ACI deployments. They must also be proficient in using Cisco Application Policy Infrastructure Controller (APIC), which is the central management tool for ACI environments.

New Cisco 300-620 Real Test, 300-620 Reliable Dumps Pdf

As one of the most professional dealer of 300-620 practice questions, we have connection with all academic institutions in this line with proficient researchers of the knowledge related with the 300-620 exam materials to meet your tastes and needs, please feel free to choose. And we have three versions of 300-620 training guide: the PDF, Software and APP online for you. You can choose the one which you like best.

Cisco Implementing Cisco Application Centric Infrastructure Sample Questions (Q43-Q48):

NEW QUESTION # 43

Drag and Drop Question

Drag and drop the Cisco ACI filter entry options from the left onto the correct categories on the right indicating what are required or optional parameters.

Answer:

Explanation:

Explanation:

https://www.cisco.com/c/en/us/td/docs/switches/datacenter/aci/apic/sw/1-x/Operating_ACI/guide/b_Cisco_Operating_ACI/b_Cisco_Operating_ACI_chapter_01000.html

NEW QUESTION # 44

Which two actions extend a Layer 2 domain beyond the ACI fabric? (Choose two.)

- A. extending the EPG out of the ACI fabric
- B. extending the routed domain out of the ACI fabric
- C. creating an external physical network
- D. creating a single homed Layer 3 Out
- E. extending the bridge domain out of the ACI fabric

Answer: A,E

Explanation:

There are several different ways to extend layer 2 domain beyond the ACI fabric:

* Extend the EPG out of the ACI fabric - A user can extend an EPG out of the ACI fabric by statically assigning a port (along with VLAN ID) to an EPG. The leaf will learn the endpoint information and assign the traffic (by matching the port and VLAN ID) to the proper EPG, and then enforce the policy. The endpoint learning, data forwarding, and policy enforcement remain the same whether the endpoint is directly attached to the leaf port or if it is behind a layer 2 network (provided the proper VLAN is enabled in the layer2 network).

* Extend the bridge domain out of the ACI fabric - Another option to extend the layer 2 domain is to create a layer 2 outside connection (or external bridged network, as called in the APIC GUI) for a given bridge domain. It effectively extends the bridge domain to the outside network.

NEW QUESTION # 45

A Cisco ACI fabric contains 10 standalone leaf switches. An engineer must configure only the first two leaf switches in a VPC. Which VPC protection type must be configured to accomplish this goal?

- A. explicit
- B. serial
- C. consecutive
- D. reciprocal

Answer: A

NEW QUESTION # 46

An engineer must configure VMM domain integration on a Cisco UCS B-Series server that is connected to a Cisco ACI fabric. Drag and drop the products used to create VMM domain from the bottom into the sequence in which they should be implemented at the top. Products are used more than once.

Answer:

Explanation:

NEW QUESTION # 47

Refer to the exhibit. An engineer must allow IP mobility between Site1 and Site2 in a Cisco ACI Multi-Site orchestrator. The design must meet these requirements:

- A disaster recovery (DR) solution must exist between the sites that do not require vMotion support.
- The application must be started at a DR site without having to re-IP the application servers.
- The solution must avoid any broadcast storms between the sites.

Which two actions meet these criteria? (Choose two.)

- **A. Apply the L2 Stretch feature.**
- B. Define a unique bridge domain subnet per site.
- C. Deploy a local EPG for Site1 and Site2.
- **D. Disable Inter-site BUM Traffic.**
- E. Configure STP between Cisco ACI fabrics.

Answer: A,D

NEW QUESTION # 48

.....

Our 300-620 exam dumps are famous for instant access to download, and you can receive the downloading link and password within ten minutes, so that you can start your practice as soon as possible. Moreover, we offer you free demo to have a try, so that you can know what the complete version is like. We are pass guarantee and money back guarantee for 300-620 ExamDumps, if you fail to pass the exam, we will give refund. Online and offline chat service are available, they possess the professional knowledge for 300-620 exam materials, and if you have any questions, you can consult us.
