Latest H19-338-ENU Examprep | Exam H19-338-ENU Duration

H19-338-ENU exam is a new turning point in the IT industry. Get this examination certification, you will become the IT industry's professional high-end person. With the spread and progress of information technology, you will see hundreds of online resources which provide Huawei H19-338-ENU Questions and answers. While TestValid ahead. The reason people choose TestValid Huawei H19-338-ENU exam training materials is that it can really bring benefits to them, and to help you come true your dreams as soon as possible!

Huawei HCSP-Presales-Storage Sample Questions (Q188-Q193):

NEW QUESTION # 188

Which of the following is not an industrial design feature of Huawei's flagship AirEngine 8760-Xi-PRO?

- A. 18-degree angle of tilt for network ports and optical ports
- B. Shark fin bionic heat dissipation channel
- C. Easy and flexible
- D. Removable cover for IoT card Installation

Answer: C

Explanation:

Explanation

AirEngine 8760-Xi-PRO is Huawei's flagship Wi-Fi 6 product that has a unique industrial design with features such as an 18-degree angle of tilt for network ports and optical ports, a shark fin bionic heat dissipation channel, and a removable cover for IoT card installation. These features are designed to improve the performance, reliability, and convenience of the product. Easy and flexible is not an industrial design feature of the AirEngine 8760-Xi-PRO, but rather a general description of its deployment and management capabilities.

NEW QUESTION # 189

How to test the failure of three controllers on a Dorado V6 mission-critical storage system with four controllers (SmartMatrix)?

- A. Simulate the faults on any two controllers. After 5 minutes, simulate the fault on the third controller.
- B. Simulate the faults on three controllers at the same time

Answer: A

NEW QUESTION # 190

In static-priority arbitration mode, if the active-active relationships are functioning, but all replication links between storage arrays are down.

What will happen?

- A. Services stop at the preferred-site while they continue at the non-preferred site
- B. Service stop at both the preferred and non-preferred sites
- C. Services continue at the preferred site while they stop at the non-preferred site
- D. Service continues at both the preferred and non-preferred sites

Answer: C

NEW QUESTION # 191

Which is a backup solution from Dell EMC?

- A. EISOO
- B. NetBackup
- C. Veeam
- D. Networker

Answer: D

NEW QUESTION # 192

Which of the following are benefits of front-end interconnect (shared) I/O modules? (Multiple choice)

- A. Storage sysadmins are needed to ensure the multipath software in servers runs online before controller upgrades.
- B. Direct data dispatch to the distributed controllers through front-end modules in one controller enclosure.
- C. Fewer front-end modules and host links needed.
- D. Host path loss prevention in the event of controller failure, controller hard/software upgrades, and even single FC 1 between host and storage.

Answer: C,D
