Why Choose Exam4Free For Your Microsoft GH-100 Exam Preparation?

You can also use the GitHub Administration PDF format using smartphones, tablets, and laptops. Since the PDF format of real dumps questions is portable, you can access it from any place in free time. The GitHub Administration web-based practice exam can be easily taken from every browser and operating system without installing additional software. The desktop GitHub Administration practice exam software comes with all specs of the Microsoft GH-100 web-based version but it works offline only on Windows computer or laptop.

Microsoft GitHub Administration Sample Questions (Q13-Q18):

NEW QUESTION # 13

How does GitHub handle secrets found via secret scanning in a public repository?

- A. It immediately blocks the commit to protect the secret.
- B. It notifies the admin via webhook.
- C. It alerts the service provider (e.g., AWS, Stripe).
- D. It deletes the secret from the repository automatically.

Answer: C

Explanation:

When secret scanning detects a supported credential in a public repository, GitHub notifies the issuing service provider so they can revoke or rotate the exposed secret.

NEW QUESTION # 14

What is the key benefit of using a GitHub security advisory within a repository?

- A. It prevents users from cloning the repository until issues are resolved.
- B. It allows maintainers to privately disclose, discuss, and publish vulnerabilities.
- C. It flags all forks of the repository as vulnerable.
- D. It automatically reverts commits that introduced the vulnerability.

Answer: B

Explanation:

GitHub security advisories let maintainers privately disclose, discuss fixes, and then publish vulnerabilities in a controlled manner within the repository.

NEW QUESTION # 15

What benefit does GitHub Advanced Security provide?

- A. helps enterprise administrators improve and maintain network security for their GitHub Enterprise Server instances
- B. helps organization administrators manage security tokens
- C. helps organization administrators analyze and configure permissions to the least privilege required
- D. helps developers improve and maintain the security and quality of code

Answer: D

Explanation:

GitHub Advanced Security equips developers with built-in code scanning (CodeQL), secret scanning, dependency review, and other AppSec tools - helping them find, fix, and prevent security vulnerabilities while maintaining code quality.

NEW QUESTION # 16

Which GitHub feature is responsible for tracking dependencies and known vulnerabilities in those dependencies from an advisory database?

- A. Security Policy
- B. Repository Insights
- C. CodeQL
- D. Dependency Graph

Answer: D

Explanation:

The Dependency Graph continuously analyzes your repository's manifest and lock files to build an inventory of direct and transitive dependencies and flags any that match entries in the GitHub Advisory Database, surfacing known vulnerabilities.

NEW QUESTION # 17

You are using GitHub-hosted runners and need to securely deploy to an internal system. The security team requires that these runners use IP address ranges that would not be shared with other companies. Which of the following approaches would meet their requirements?

- A. GitHub-hosted larger runners with Azure private networking
- B. GitHub-hosted standard runners, using the IP addresses provided in "api" from <https://api.github.com/meta>
- C. GitHub-hosted standard runners, using the IP addresses provided in "actions" from <https://api.github.com/meta>
- D. GitHub-hosted larger runners with static IP addresses

Answer: D

Explanation:

GitHub's larger runners let you reserve dedicated static IP addresses for your workflows - so you can allow-list those IPs in your firewall and be sure they aren't shared with any other tenant.

NEW QUESTION # 18

About the upcoming GH-100 exam, do you have mastered the key parts which the exam will test up to now? Everyone is conscious of the importance and only the smart one with smart way can make it. Maybe you are unfamiliar with our GH-100 Latest Material, but our GH-100 real questions are applicable to this exam with high passing rate up to 98 percent and over.
