지금 같은 경쟁력이 심각한 상황에서 APMG-International AgilePM-Foundation 시험 자격증만 소지한다면 연봉 상승 등 일상 생활에서 많은 도움이 될 것입니다. APMG-International AgilePM-Foundation 시험 자격증 소지자들의 연봉은 당연히 APMG-International AgilePM-Foundation 시험 자격증이 없는 분들보다 높습니다. 하지만 문제는 APMG-International AgilePM-Foundation 시험 패스하기가 너무 어렵습니다. Itexamdump는 여러분의 연봉 상승을 도와 드리겠습니다.

많은 시간과 돈이 필요 없습니다. 30분이란 특별 학습 가이드로 여러분은 APMG-International AgilePM-Foundation 인증 시험을 한번에 통과할 수 있습니다. Itexamdump에서 APMG-International AgilePM-Foundation 시험 자료의 문제와 답이 실제 시험의 문제와 답과 아주 비슷한 덤프만 제공합니다.

AgilePM-Foundation 덤프 최신자료 & AgilePM-Foundation 합격보장 가능 공부자료

APMG-International AgilePM-Foundation 덤프 결제에 관하여 불안정하게 생각되신다면 paypal에 대해 알아보시면 믿음이 생길 것입니다. 더욱 안전한 지불을 위해 저희 사이트의 모든 덤프는 paypal을 통해 지불을 완성하게 되어 있습니다. Paypal을 거쳐서 지불하면 저희측에서 APMG-International AgilePM-Foundation 덤프를 보내드리지 않을 시 paypal에 환불 신청하실 수 있습니다.

최신 AgilePM AgilePM-Foundation 무료 샘플문제 (Q55-Q60):

질문 # 55

Which of the following statements is true?

- A. Project management is concerned with a wider context than product development.
- B. Product development focuses primarily on who is involved and why it should be.

- C. Project management addresses more complex problems than product development.
- D. Product development focuses on governance of the environment.

정답: A

설명:

AgilePM sits at the project level, framing delivery within business justification, governance, stakeholder engagement, risk, funding, and release management. This is a wider context than the mechanics of product development, which concentrates on evolving the product incrementally (requirements, design, build, test) using frameworks like Scrum. AgilePM aligns product delivery with organizational goals via a Business Case, clear roles, stage/phase control, and timeboxing, while enabling adaptive scope through prioritization. Product development is a vital subset, but project management additionally addresses cross-team dependencies, external stakeholders (e.g., operations, compliance), transition to live service, and benefits enablement. Options B, C, and D either overstate comparative complexity, misstate product development's focus, or confuse product delivery with governance structures. The accurate statement is that project management operates in a broader organizational and governance context than product development—exactly what AgilePM was designed to harmonize with agile delivery methods.

질문 # 56

Identify the missing words in the following sentence.

Each event and artifact of[?] has a clear role and is interconnected. If one is removed [...] leg. (The end of the sentence appears cut off, but the key context is in the first part).

- A. all Agile approaches
- B. both Scrum and AgilePM
- **C. Scrum**
- D. AgilePM

정답: C

설명:

This wording aligns with Scrum. Scrum explicitly defines a small set of events (Sprint, Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective) and artifacts (Product Backlog, Sprint Backlog, Increment) that are interconnected and each serve a clear purpose. Scrum theory emphasizes empiricism supported by three pillars—transparency, inspection, and adaptation—often likened to a three-legged stool: remove a leg and the system becomes unstable. Likewise, removing or watering down any Scrum event or artifact reduces transparency and weakens inspection/adaptation, undermining outcomes. AgilePM has products/roles/phases rather than this specific "events + artifacts" construct, and "all Agile approaches" is too broad. Therefore, the missing framework is Scrum.

질문 # 57

Identify the missing words in the agile Business Consortium's definition of Business Agility.

"A progressive, [?] approach to all aspects of business that is transforming how organizations ..."

- **A. people-centric**
- B. technology focused
- C. collaborative
- D. strategic focused

정답: A

설명:

The Business Consortium's description of Business Agility emphasizes a progressive, people-centric approach. While tools and technology matter, agile ways of working prioritize empowered people, fast feedback, learning, and adaptive leadership across all business functions—not just IT. A people-centric stance enables rapid sensing and responding to change, closer customer collaboration, and continuous improvement of value streams. It underpins practices such as cross-functional teams, decentralized decision-making, iterative planning, and outcome-based metrics. Options like "strategic focused," "technology focused," and "collaborative" reflect important aspects of agility, but the defining adjective used in the Consortium's phrasing is people-centric, capturing the primacy of culture, leadership behaviors, and human interactions in achieving genuine business agility.

질문 # 58

Which of the following statements about positive characteristics of an effective change team (Lencioni) are true?

- * Members should be encouraged to draw attention to colleagues' failures to meet commitments.
- * Conflict should be avoided to maintain good relationships.

- A. Neither 1 nor 2 is true.
- B. Only 2 is true.
- C. Both 1 and 2 are true.
- D. Only 1 is true.

정답: A

설명:

* Statement 1: Incorrect. While accountability is important, it should be addressed constructively, not by drawing attention to failures in a punitive way.

* Statement 2: Incorrect. Constructive conflict is essential for innovation and problem-solving.

Avoiding conflict entirely can lead to unresolved issues and reduced performance.

Key AgilePM Concepts Referenced:

* Team Dynamics and Conflict Management: AgilePM Handbook, Chapter 5, Section 5.5.

질문 # 59

According to the DSDM principle 'Never Compromise Quality', when should the overall level of quality to be delivered within the solution be agreed?

- A. During evolutionary development
- B. Whenever the level of solution quality is known.
- C. When the Business Advisor is available
- D. At the start of the project

정답: D

설명:

According to the DSDM principle 'Never Compromise Quality,' the overall level of quality to be delivered within the solution should be agreed at the start of the project⁵. This principle ensures that quality is not compromised to recover from deviations; instead, the scope of the project will be dynamic⁶.

질문 # 60
