## 350-901 practice test questions, answers, explanations

The authoritative, efficient, and thoughtful service of 350-901 learning question will give you the best user experience, and you can also get what you want with our study materials. I hope our study materials can accompany you to pursue your dreams. If you can choose 350-901 test guide, we will be very happy. We look forward to meeting you. You can choose your favorite our study materials version according to your feelings. When you use 350-901 Test Guide, you can also get our services at any time. We will try our best to solve your problems for you. I believe that you will be more inclined to choose a good service product, such as 350-901 learning question. After all, everyone wants to be treated warmly and kindly, and hope to learn in a more pleasant mood.

Cisco 350-901 Exam consists of multiple-choice questions, simulations, and other types of interactive questions. 350-901 exam is administered through Pearson VUE testing centers, and candidates have 120 minutes to complete it. In addition to passing the exam, candidates must also meet certain prerequisites, including holding a valid Cisco Certified DevNet Associate certification or equivalent experience.

## Cisco Developing Applications using Cisco Core Platforms and APIs (DEVCOR) Sample Questions (Q564-Q569):

### NEW QUESTION # 564

DRAG DROP

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question.

A developer is creating a Python Script that will use the Webex Teams REST API to automatically create a new collaboration space with him and his team leads on-demand via a Linux terminal command. Drag and drop the code snippets from the left onto the numbers on the right that match the missing sections in the exhibit to complete the script. Not all code snippets are used.

**Answer:**

Explanation:

### NEW QUESTION # 565

Drag and drop the git commands from the left into the correct order on the right to create a feature branch from the master and then incorporate that feature branch into the master.

**Answer:**

Explanation:

□

### NEW QUESTION # 566

Drag and Drop Question

Drag and drop the code from the bottom onto the box where the code is missing to create a Puppet manifest that implements an NTP configuration when applied to a device in the master inventory. Not all options are used.

□

**Answer:**

Explanation:

□

### NEW QUESTION # 567

A developer is creating a Python Flask solution to leverage the Cisco Meraki Location API. Drag and drop the code snippets from the bottom onto the blanks in the Python script to manage incoming location data. Not all options are used.

□

**Answer:**

Explanation:

□

### NEW QUESTION # 568

An application has initiated an OAuth authorization code grant flow to get access to an API resource on behalf of an end user. Which two parameters are specified in the HTTP request coming back to the application as the end user grants access? (Choose two.)

- A. access token and a refresh token with respective expiration times to access the API resource
- B. redirect URI a panel that shows the list of permissions to grant
- C. code that can be exchanged for an access token
- D. access token and expiration time to access the API resource
- E. state can be used for correlation and security checks

**Answer: A,D**

### NEW QUESTION # 569
