Salary & Growth Opportunities with Microsoft SC-400 Exam

Microsoft's Information Protection Administrator Certification (MIS) is the foundation for all of Microsoft's security products. It focuses on the protection of data and access to that data from unauthorized users. Employers are looking for this certification if you want to work in the security field; it demonstrates that you have the skills necessary to not only implement but also administer and troubleshoot Microsoft's security products. Microsoft exams are performance based, so they are hands-on. After you register, you will receive an email with a link to Microsoft's online learning center where you can view study materials, explore practice exams and labs, and learn more about the exam objectives. Students can also download a mobile app that provides additional learning tools on their phones or tablets. As long as you pass the exam within one year, you may take advantage of free re-certification. With such a low cost and high earning potential, it is well worth your while to become certified with Microsoft's MIS.
