Reliable H19-338-ENU Test Notes | H19-338-ENU Downloadable PDF

We can send you a link within 5 to 10 minutes after your payment. You can click on the link immediately to download our H19-338-ENU real exam, never delaying your valuable learning time. If you want time - saving and efficient learning, our H19-338-ENU Exam Questions are definitely your best choice. And if you buy our H19-338-ENU learning braindumps, you will be bound to pass for our H19-338-ENU study materials own the high pass rate as 98% to 100%.

Huawei H19-338 (HCPP-Storage) Certification Exam is a professional-level certification exam designed to test the knowledge and expertise of individuals in the field of storage systems. H19-338-ENU exam is aimed at individuals who have a strong understanding of storage systems and are looking to demonstrate their knowledge and expertise in this area. H19-338-ENU exam is designed to test the candidate's understanding of storage systems, including the design, implementation, and management of these systems.

As the world evolves and businesses continue to embrace digitalization and big data, the need for effective storage solutions continues to grow. Huawei, a leading technology company, has come up with a certification program, the H19-338-ENU HCPP-Storage exam, to train and certify professionals in storage solutions.

Huawei HCSP-Presales-Storage Sample Questions (Q148-Q153):

NEW QUESTION # 148

The free mobility function allows users to obtain the consistent network access policy regardless of their location and IP address. Free mobility requires the network to be made up entirely of Huawei devices.

- A. True
- B. False

Answer: B

Explanation:

Explanation

The free mobility function allows users to obtain the consistent network access policy regardless of their location and IP address, but it does not require the network to be made up entirely of Huawei devices.

According to the Huawei CloudCampus Solution Description, free mobility is supported on a hybrid network consisting of Huawei and third-party devices, and the authentication point can be deployed on third-party devices.

NEW QUESTION # 149

In database application scenarios, which is the recommended latency of the active-active (HyperMetro) replication network?

- A. 0.5
- B. 0
- C. 1
- D. 2

Answer: C

NEW QUESTION # 150

Which statements about the interconnection between Huawei storage systems using the OceanStor OS is not true?

- A. Between different models: OceanStor mission-critical, mid-range, and entry-level storage systems
- B. Between different types: interconnection between OceanStor Dorado, FV5, and V5
- C. Between different vendors: Huawei, EMC, and HDS
- D. Between different generations: OceanStor V5, OceanStor V3

Answer: C

NEW QUESTION # 151

For defending against application layer DDoS attacks, which product will be the best choice?

- A. HiSec Insight
- C. AntiDDoS
- B. USG6000E
- C. FireHunter

Answer: A

Explanation:

Explanation

HiSec Insight is a security analysis platform that provides comprehensive protection against advanced persistent threats (APTs) and application layer DDoS attacks . It uses big data analysis and machine learning techniques to detect and block malicious traffic, identify attack sources, and generate security reports . The other products are not specialized in defending against application layer DDoS attacks. USG6000E is a series of next-generation firewalls that provide network security and VPN services . AntiDDoS is a series of products that provide protection against network layer DDoS attacks . FireHunter is a series of sandbox products that provide malware detection and analysis .

NEW QUESTION # 152

In FusionStorage 8.0.0, what is the minimum number of disks needed for each node?

- A. 0
- B. 1

- Answer: B**
