

# Latest PDII-JPN Test Practice, Reliable PDII-JPN Exam Braindumps

Salesforce PDII exam is a challenging yet rewarding certification that validates advanced knowledge and skills in Salesforce development. It is a key credential for developers who want to advance their careers in Salesforce and work on complex projects that require advanced skills and knowledge. With the right preparation and dedication, candidates can pass the exam and join the ranks of certified Salesforce experts.

## Salesforce Certified Platform Developer II (PDII) Sample Questions (Q101-Q106):

### NEW QUESTION # 101

A developer is asked to develop a new AppExchange application. A feature of the program creates Survey records when a Case reaches a certain stage and is of a certain Record Type. This feature needs to be configurable, as different Salesforce instances require Surveys at different times. Additionally, the out-of-the-box AppExchange app needs to come with a set of best practice settings that apply to most customers.

What should the developer use to store and package the custom configuration settings for the app?

- A. Process Builder
- B. Custom Settings
- C. Custom Metadata
- D. Custom Objects

Answer: C

### NEW QUESTION # 102

A custom field Exec\_Count\_c of type Number is created on an Account object. An account record with value of "1" for a: Exec\_Count\_c is saved. A workflow field update is defined on the Exec\_Count\_c field, to increment its value every time an account record is created or updated. The following trigger is defined on the account: trigger ExecOrderTrigger on Account (before insert, before update, after insert, after update) { for (Account accountInstance: Trigger.New) { if (Trigger.isBefore) { accountInstance.Exec\_Count\_c += 1; System.debug(accountInstance.Exec\_Count\_c); } } } What is printed from the System.debug statement? Output from System.debug in every iteration is separated with a delimiter.

- A. 2,2,3,3
- B. 2,2,4,4
- C. 1,2,3,4
- D. 1,2,3,3

Answer: B

### NEW QUESTION # 103

What is the most efficient way in Visualforce to show information based on data filters defined by an end-user for a large volume of data?

- A. Use filter conditions in a SOQL query to limit data based on data filters.
- B. Use an Apex controller to refine raw data based on data filters and store the result in a static variable.

Even in a globalized market, the learning material of similar PDII-JPN doesn't have much of a share, nor does it have a high reputation or popularity. In this dynamic and competitive market, the PDII-JPN learning questions can be said to be leading and have absolute advantages. In order to facilitate the user real-time detection of the learning process, we PDII-JPN Exam Material provided by the questions and answers are all in the past. It is closely associated, as our experts in constantly update products every day to ensure the accuracy of the problem, so all PDII-JPN practice materials are high accuracy.

Our PDII-JPN exam questions have always been the authority of the area, known among the exam candidates for their high quality and accuracy. According to data collected by our workers who questioned former exam candidates, the passing rate of our PDII-JPN training engine is between 98 to 100 percent! It is nearly perfect. So it is undeniable that our PDII-JPN practice materials are useful and effective.

## Actual Salesforce PDII-JPN Exam Questions – Smart Strategy to Get Certified

It can't be denied that professional certification is an efficient way for employees to show their personal PDII-JPN abilities. In order to get more chances, more and more people tend to add shining points, for example a certification to their resumes. What you need

to do first is to choose a right PDII-JPN Exam Material, which will save your time and money in the preparation of the PDII-JPN exam. Our PDII-JPN latest questions is one of the most wonderful reviewing PDII-JPN study training materials in our industry, so choose us, and together we will make a brighter future.

## Salesforce Sample Questions (Q138-Q143):

### NEW QUESTION # 138

開発者は、次のように、Queueable Interface を実装する 2 つのクラスを作成しました。

```
public class without sharing OrderQueueableJob implements Queueable {
    public void execute(QueueableContext context) {
        // implementation logic
        System.enqueueJob(new FollowUpJob());
    }
}
```

展開プロセスの一環として、開発者は対応するテストクラスを作成するように求められます。テストクラスを正常に実行するには、開発者が実行する必要がある 2 つのアクションのうちどれですか？2 つの答えを選択してください

- A. `System.enqueueJob(new OrderQueueableJob())` を `Tess`. `and Test`. `stopTest` 内に囲みます (1.)
- B. テストクラスの実行ユーザーが、`Order` オブジェクトに対するすべて表示権限を持っていることを確認します。
- C. `seeAllData=True` を実装して、Queueable ジョブを一括モードで実行できるようにします。
- D. テストを実施します。`isRunningTest()` を使用して、テスト実行中のジョブの連鎖を防ぎます。

Answer: A,B

### NEW QUESTION # 139

環境には 2 つの Apex トリガーがあります。取引先の更新後トリガーと取引先担当者の更新後トリガーです。Account after-update トリガーは、Account の住所が更新されるたびに起動し、その住所に関連付けられているすべての Contact を更新します。Contact after-update トリガーは編集ごとに起動し、連絡先に関連するすべての Campaign Member レコードを連絡先の状態で更新します。

次のことを考慮してください: 200 個の取引先レコードのアドレスの一括更新。各取引先には 50 の連絡先があります。各連絡先には 1 人のキャンペーン メンバーがいます。これは、アカウント全体で 10,000 の連絡先レコードがあり、連絡先全体で 10,000 のキャンペーン メンバー レコードがあることを意味します。

大量更新が発生するとどうなりますか？

- A. 2 つのトリガーが同じコンテキストで起動され、DML ステートメントによって処理されるレコード数を超えるため、一括更新は失敗します。
- B. 取引先住所の一括更新は成功しますが、DML ステートメントによって処理されるレコード数が超過するため、連絡先住所の更新は失敗します。
- C. 各トリガーは独自のコンテキスト内で起動し、各トリガーは DML によって処理されるレコード数の制限を超えないため、エラーは発生しません。ステートメント。
- D. DML ステートメントで処理されるレコード数の制限が 50,000 であるため、エラーは発生しません。

Answer: C

### NEW QUESTION # 140

アカウントをアカウントの地域のマネージャーに割り当てる目的とした以下のトリガーについて考えてみましょう。

```

trigger AssignOwnerByRegion on Account ( before insert, before update )
{
    List<Account> accountList = new List<Account>();
    for( Account anAccount : trigger.new )
    {
        Region__c theRegion = [
            SELECT Id, Name, Region_Manager__c
            FROM Region__c
            WHERE Name = :anAccount.Region_Name__c
        ];
        anAccount.OwnerId = theRegion.Region_Manager__c;
        accountList.add( anAccount );
    }
    update accountList;
}

```

開発者がベストプラクティスに従うために、このトリガーに加えるべき2つの変更はどれですか？  
2つの答えを選択してください

- A. Use a Map to cache the results of the Region\_\_c query by Id.
- B. Move the Region\_\_c query to outside the loop.
- C. Add isExecuting before the update context to the trigger.
- D. Remove the last line that updates accountList because it is not needed.

**Answer: A,B**

**Explanation:**

The best practices for writing triggers in Salesforce include bulkifying your code to handle multiple records efficiently and reducing the number of SOQL queries, especially within loops, to avoid hitting governor limits.

Option B is correct because moving the SOQL query outside of the for loop is essential to bulkify the trigger. Performing a query within a loop can cause a SOQL governor limit to be reached if the trigger is processing many records. The best practice is to collect all necessary data before the loop starts and then process it within the loop.

Option C is correct as well, because using a Map to cache the results of a SOQL query by Id is another way to bulkify the code. This allows you to query all the necessary data once and then access it efficiently in memory, avoiding repeated queries.

Option A is incorrect because adding isExecuting before the update doesn't address any best practices related to bulkification or SOQL query optimization.

Option D is incorrect because the last line should not be removed if the developer intends to perform DML on the accountList. However, this line should be outside of the loop and is unnecessary if the trigger context is 'before insert' or 'before update', since in those contexts, changes to records in Trigger.new are implicitly saved without the need for explicit DML.

#### NEW QUESTION # 141

企業は Salesforce を使用して顧客に製品を販売します。また、製品の記録システムである外部製品情報管理(PIM)システムも備えています。

開発者は次の要件を受け取りました。

\* PIM で製品が作成または更新されるたびに、製品は Product? として作成または更新される必要があります。 Salesforce のレコードと、PricebookEntry レコードは Salesforce によって自動的に作成または更新される必要があります。

= PricebookEntry は、カスタム設定で指定された Pricebook2 で作成する必要があります。 開発者はこれらの要件を満たすために何を使用する必要がありますか？

- A.呼び出し可能なアクション
- B.イベント監視
- C.カスタム Apex REST
- D.SオブジェクトツリーREST

**Answer: C**

#### NEW QUESTION # 142

OpportunityList という名前の Opportunity レコードのリストが与えられた場合、Opportunity の取引先のすべての連絡先を照会するのに最適なコード スニペットはどれですか？

A)

```
List <Contact> contactList = new List <Contact>();  
  
Set <Id> accountIds = new Set <Id> ();  
  
for (Opportunity o : opportunityList) {  
    accountIds.add(o.AccountId);  
}  
  
for(Account a : [SELECT Id, (SELECT Id FROM Contacts) FROM Account WHERE Id IN :accountIds]) {  
  
    contactList.addAll (a.Contacts) ;  
}
```

B)

```
List <Contact> contactList = new List <Contact>();  
  
Set <Id> contactIds = new Set <Id> ();  
  
for (Opportunity o : opportunityList) {  
    contactIds.add(o.ContactId);  
}  
  
for(Contact c : [SELECT Id FROM Contact WHERE Id IN :contactIds]) {  
  
    contactList.add(c);  
}
```

C)

```

List <Contact> contactList = new List <Contact>();

for (Opportunity o : opportunityList) {
    Account a = [SELECT Id, (SELECT Id FROM Contacts) FROM Account
    WHERE Id = :o.AccountId]
    contactList.addAll(a.Contacts);
}

```

D)

```

List <Contact> contactList = new List <Contact>();

for ( Contact c : [SELECT Id FROM Contact WHERE AccountId IN :o
    ppportunityList.AccountId] ){contactList.add(c);
}

```

- A. オプション C
- B. オプション A
- C. オプション B
- D. オプション D

**Answer: B**

#### NEW QUESTION # 143

.....

It's known that there are numerous materials for the PDII-JPN Exam, choose a good materials can help you pass the exam quickly. Our product for the PDII-JPN exam also have materials, besides we have three versions of the practice materials. The PDF version can be printed into the paper version, and you can take some notes on it, and you can study it at anywhere and anytime, the PDF version also provide the free demo and you can practice it before buying. The online version uses the onlin tool, it support all web browsers, and it's convenient and easy to learn it also provide the text history and performance review, this version is online and you can practice it in your free time. The desktop version stimulate the real exam environment, it will make the exam more easier.
