Nutanix NCP-US - Best Practices to Pass NCP-US Exam [2023]

We are aimed to develop a long-lasting and reliable relationship with our customers who are willing to purchase our NCP-US study materials. To enhance the cooperation built on mutual-trust, we will renovate and update our system for free so that our customers can keep on practicing our NCP-US study materials without any extra fee. Meanwhile, to ensure that our customers have greater chance to pass the exam, we will make our NCP-US test training keeps pace with the digitized world that change with each passing day. In this way, our endeavor will facilitate your learning as you can gain the newest information on a daily basis and keep being informed of any changes in NCP-US test. Therefore, our customers can save their limited time and energy to stay focused on their study as we are in charge of the updating of our NCP-US test training. It is our privilege and responsibility to render a good service to our honorable customers.

Nutanix Certified Professional - Unified Storage (NCP-US) v6 exam Sample Questions (Q64-Q69):

NEW QUESTION # 64
A company uses a Nutanix 3-node cluster environment. In Prism Pro, the Capacity Runway shows these capacity values:
Max Capacity: 6 TiB
Effective Capacity 4 TiB
The company wants to upgrade the environment to use an RF3 container and also requires all cluster nodes to be the same model. What must the effective capacity Of the Nutanix cluster be to support the new RF3 container?

- A. 6 TiB
- B. 10 TiB
- C. 9 TiB
- D. 4 TiB

Answer: C

Explanation:
To support a new RF3 container, the effective capacity of the Nutanix cluster must be at least three times the size of the data that needs to be stored on it3. This is because RF3 means that each data block is replicated three times across different nodes or blocks for fault tolerance3. This is because if you have 4 TiB of effective capacity with RF2 (which means each data block is replicated twice), then you need 9 TiB of effective capacity with RF3 (which means each data block is replicated three times).

NEW QUESTION # 65
An administrator is deploying Files for multiple departments. One department works with a dynamic set of data and needs to ensure that their end users are able to get previous versions of their files. Which feature needs to be enabled to fulfill the requirement?

- A. Protection Domain schedules on the Nutanix cluster
- B. Windows Previous Versions (WPS) within the guest OS

The NCP-US pdf dumps file is the most efficient and time-saving method of preparing for the Nutanix NCP-US exam. Nutanix NCP-US dumps pdf can be used at any time or place. You can use your pc, tablet, smartphone, or any other device to get NCP-US PDF Question files. And price is affordable.

Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q92-Q97):

NEW QUESTION # 92

Technical requirements within an organization dictate the need for a common naming system across multiple Nutanix Objects instances for a particular application use case. Which Nutanix Objects feature should an administrator leverage to ensure compliance with this naming requirement?

- A. Multiclustler
- B. Cloud Tiering
- C. Streaming Replication
- **D. Federated Namespace**

Answer: D

NEW QUESTION # 93

What should the administrator do to satisfy the configuration requirements?

- **A. Configure Lifecycle rules with enabled tiering for AWS S3 and Objects instance.**
- B. Configure Lifecycle rule with enabled tiering for AWS S3 and replication for Objects instance.
- C. Configure Lifecycle rule with enabled replication for AWS S3 and tiering for Objects instance.
- D. Configure Lifecycle rules with enabled replication for AWS S3 and Objects instance.

Answer: A

NEW QUESTION # 94

An administrator is upgrading Files from version 3.7 to 4.1 in a highly secured environment. The pre-upgrade check fails with the following error:

"FileServer preupgrade check failed with cause(s) Sub task poll timed out" What initial troubleshooting step should the administrator take?

- A. Check there is enough disk space on FSVMs.
- **B. Verify connectivity between the FSVMs.**
- C. Examine the failed tasks on the FSVMs.
- D. Increase upgrades timeout from ecli.

Answer: B

NEW QUESTION # 95

Which two network requirements must an administrator take into consideration for a new scale-out Files cluster when configuring and defining separate client and storage networks? (Choose two.)

- **A. The client and storage networks must have different subnet.**
- B. Ensure the client and storage networks use a tagged VLAN.
- **C. Ensure there is one IP address available for the storage network.**
- D. Ensure there is one IP address available for client network.

Answer: A,C

Explanation:

These are two essential requirements that an administrator must take into consideration when configuring separate client and storage networks.

these are some of the network requirements that an administrator must take into consideration for a new scale-out Files cluster when

configuring and defining separate client and storage networks:

The client and storage networks must have different subnets¹². This is because FSVMs use IP addresses from both networks, so they must be distinct to avoid conflicts.

Ensure there are enough IP addresses available for both networks¹². This is because each FSVM requires one IP address from each network, plus one virtual IP address (VIP) per network per cluster. For example, if you have a three-node cluster with three FSVMs, you need six IP addresses for the client network (three for FSVMs and three for VIPs) and six IP addresses for the storage network (three for FSVMs and three for VIPs).

Ensure the client and storage networks use tagged VLANs if they share physical interfaces¹. This is because VLAN tagging allows multiple logical networks to coexist on a single physical interface without interfering with each other.

Ensure there are no firewall rules or port blocking that prevent communication between clients, FSVMs, CVMs and Prism Element¹. This is because Nutanix Files uses various ports for different protocols and services such as SMB, NFS, NTP, DNS etc.

NEW QUESTION # 96

In File Analytics, what enables searching for a specific user or file to review activity?

- A. RBAC
- B. Anomalies Widget
- C. Analysis Session
- D. Audit Trails

Answer: D

NEW QUESTION # 97

.....

Even we have engaged in this area over ten years, professional experts never blunder in their handling of the NCP-US exam torrents. By compiling our NCP-US prepare torrents with meticulous attitude, the accuracy and proficiency of them is nearly perfect. As the leading elites in this area, our NCP-US prepare torrents are in concord with syllabus of the exam. They are professional backup to this fraught exam. So by using our NCP-US Exam torrents made by excellent experts, the learning process can be speeded up to one week. They have taken the different situation of customers into consideration and designed practical NCP-US test braindumps for helping customers save time. As elites in this area they are far more proficient than normal practice materials' editors, you can trust them totally.
