CIPS L5M8 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none">Understand approaches to the planning and management of projects and change initiatives: This section of the exam measures the skills of Strategic Operations Managers and covers the planning and governance frameworks necessary for effective project and change management. It includes corporate governance structures such as project boards, reporting systems, and initiation documents. Learners examine common project objectives that balance cost, quality, and time while promoting sustainability and community impact. Additionally, this section delves into risk management approaches, including identification, simulation, and accountability within supply chains. It concludes with an analysis of planning methodologies such as sequencing, network analysis, PERT, CPM, and the use of Gantt charts to ensure efficient project execution and control.
주제 2	<ul style="list-style-type: none">Understand aspects of projects in organisations: This section of the exam measures the skills of Procurement Project Managers and covers the fundamental aspects that influence how projects operate within organisations. It explores the distinction between programmes and projects, stakeholder management, and how key measures such as cost, quality, and delivery impact project success. Candidates also study factors leading to project success or failure, work breakdown structures, and how project structures and resources align with supply chain relationships. It further includes understanding sub-contracting, consortiums, and project partnerships, as well as analysing project resources through scheduling, technology systems, and financial management. The section concludes with the project life cycle, from initiation and implementation to closure and review.
주제 3	<ul style="list-style-type: none">Understand the concept of organisational change and how it can be achieved: This section of the exam measures skills of Change Management Specialists and covers the core concepts and types of organisational change, including evolutionary, adaptive, revolutionary, and reconstructive change. It examines how internal and external factors such as SWOT and PEST analyses, innovation, and management restructuring, drive transformation. Learners evaluate how organisations respond to change, including resistance, skepticism, and the need to maintain progress during turbulent environments. It also addresses methods for managing and sustaining change through communication, empowerment, incremental adjustments, and lean methodologies, while distinguishing between hard and soft change processes.

질문 # 81

Subcontractors are primary members of the supply chain and have an impact on value-adding activities of a project. Is this sentence TRUE?

- A. yes - subcontractors are always used on large, complex projects
- B. yes - subcontractors can fulfil a need for a complex skill
- C. no - subcontractors do not have an impact on value-adding activities
- **D. no - subcontractors are not primary members of the supply chain**

정답: D

설명:

Subcontractors typically sit at tier 2/3, so they are not primary (tier-1) members. However, they do influence value creation and project success, so D is incorrect.

질문 # 82

Why should objectives be incorporated into a Project Initiation Document (PID)? Select TWO

- A. they set strict rules about what the project can and cannot do

- B. they assist in breaking the project down into discrete tasks
- C. they lead to increased profits
- D. they motivate and provide clarity

정답: B,D

설명:

Clear objectives in the PID motivate/align the team and help decompose the work into manageable tasks. They are not "rules," and financial outcomes are not guaranteed or the sole purpose.

- B. Cost of leather used to manufacture shoes
- C. Cost of machines to produce shoes
- D. Electricity used to run its factories

정답: D

질문 # 84

Which of the following is true about identifying stakeholders?

- A. Stakeholders do not change during a project
- B. Stakeholders with indirect ties to the project need not be engaged with
- C. It is not very difficult to identify stakeholders
- D. The project manager's family is not a potential stakeholder

정답: B

질문 # 85

Which of the following questions could be answered by a risk simulation software such as Monte Carlo?
Select TWO

- A. Will the quality of the project be affected if we change supplier?
- B. How likely is it that decision X will delay the project?
- C. Is the project likely to stay on budget?
- D. C, D Monte Carlo simulation uses probabilistic modelling to quantify risk. It can answer numeric or time-based questions such as budget variance or likelihood of delay. Qualitative queries (like A or B) are outside its scope.
- E. How effective is the Project Lead?

정답: D
