SAP C-BCBTM-2509 Exam Syllabus Topics:

| Topic | Details |
|-------|---------|
| | |

| | |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"> • Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries. |
| Topic 2 | <ul style="list-style-type: none"> • Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems. |
| Topic 3 | <ul style="list-style-type: none"> • Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization. |
| Topic 4 | <ul style="list-style-type: none"> • Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization. |

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q10-Q15):

NEW QUESTION # 10

What does WalkMe Discovery help organizations achieve?

- A. Enhances employee satisfaction scores by 50%
- B. Automates training development processes
- **C. Identifies underutilized tools and compliance risks**
- D. Translates all tools into multiple languages automatically

Answer: C

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 11

Of the following options, which technologies does SAP provide to help organizations transform?

- A. SAP Signavio and SAP LeanIX solutions
- B. SAP Finance and SAP Marketing
- C. SAP Sales and SAP HR
- D. SAP ERP and SAP CRM

Answer: A

Explanation:

SAP enables digital transformation primarily through its Business Transformation Management (BTM) portfolio, led by SAP Signavio and SAP LeanIX. These technologies give organizations the tools to visualize, plan, and manage transformation initiatives effectively.

"SAP helps organizations accelerate transformation with SAP Signavio for business process transformation and SAP LeanIX for enterprise architecture and technology management." Reference:

SAP Signavio enables business process analysis, mining, and optimization, while SAP LeanIX supports enterprise architecture, application portfolio management, and technology risk compliance - together offering full visibility from business to IT.

"The combination of SAP Signavio and SAP LeanIX forms the backbone of SAP's transformation offerings, aligning business process improvements with IT landscape modernization." Incorrect Options:

A, B, and C refer to standard ERP or LOB modules, not transformation-focused solutions.

Verified Correct answer: D: SAP Signavio and SAP LeanIX solutions.

NEW QUESTION # 12

What is the primary function of SAP Signavio Process Insights?

- A. It performs cloud-based professional process modeling based on best practices content.
- B. It is the collaborative process mining solution for experience data analysis.
- C. It is the single source of truth for business processes within any organization.
- D. It analyses SAP processes to identify process weaknesses and improvements.

Answer: D

Explanation:

SAP Signavio Process Insights is part of the SAP Signavio Business Transformation Suite and focuses on analyzing SAP business processes using live system data. It automatically identifies inefficiencies, bottlenecks, and opportunities for process improvement across SAP ERP and S/4HANA systems.

"SAP Signavio Process Insights analyzes SAP system data to identify process performance issues, weaknesses, and areas for improvement while providing recommendations for optimization." Reference:

It provides actionable process metrics, benchmarks against best practices, and suggestions for transformation initiatives.

"The solution offers automated process analysis and best-practice-based insights to help organizations achieve continuous improvement and business excellence." Incorrect Options:

A: Process mining is a function of SAP Signavio Process Intelligence, not Process Insights.

C: Process modeling is handled by SAP Signavio Process Manager.

D: "Single source of truth" is best represented by SAP Signavio Collaboration Hub.

Verified Correct answer: B: It analyses SAP processes to identify process weaknesses and

NEW QUESTION # 13

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To implement advanced hardware solutions
- B. To reduce digital friction and guide users through complex software
- C. To automate recruitment processes
- D. To manage payroll systems efficiently

Answer: B

Explanation:

The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with

digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently. "The primary purpose of WalkMe's Digital Adoption Platform is to reduce digital friction and guide users through complex software environments using AI-powered, context-aware assistance." Reference:

The platform enhances employee productivity, adoption success, and process efficiency across SAP and third-party applications by simplifying navigation and ensuring process compliance.

"WalkMe DAP provides contextual guidance directly within applications, enabling users to execute digital workflows with minimal errors or training." Incorrect Options:

A: WalkMe is software-based, not a hardware solution.

B: Recruitment automation is part of SAP SuccessFactors, not WalkMe.

D: Payroll management is unrelated to WalkMe's purpose.

Verified Correct answer: C: To reduce digital friction and guide users through complex software.

NEW QUESTION # 14

Which key solution of SAP Signavio helps in collaborative process mining?

- A. SAP Signavio Process Manager
- B. SAP Signavio Value Accelerator
- C. SAP Signavio Process Intelligence
- D. SAP Signavio Process Collaboration Hub

Answer: C

Explanation:

SAP Signavio Process Intelligence is the dedicated process mining and analysis component of the SAP Signavio Business Transformation Suite. It enables organizations to discover, analyze, and improve business processes collaboratively using real data. "SAP Signavio Process Intelligence connects to system data, reconstructs end-to-end processes, and enables collaborative process mining and analysis to uncover inefficiencies and improvement opportunities." Reference:

The term collaborative process mining refers to enabling multiple stakeholders to analyze, discuss, and align process improvements based on shared process insights - a feature central to Process Intelligence.

"Process Intelligence integrates with the Process Collaboration Hub to allow joint analysis and process improvement discussions."

Option A (Collaboration Hub) is a supporting platform for sharing process models and insights, but it does not perform mining itself.

Option C (Process Manager) focuses on process modeling and design, not mining.

Option D (Value Accelerator) refers to predefined process frameworks and KPIs used for benchmarking, not mining.

Therefore, the correct and verified answer based on SAP's BTM documentation and the official Signavio solution portfolio is B:

SAP Signavio Process Intelligence.

NEW QUESTION # 15

.....

We believe that the best brands are those that go beyond expectations. They don't just do the job – they go deeper and become the fabric of our lives. Therefore, as the famous brand, even though we have been very successful we have never satisfied with the status quo, and always be willing to constantly update the contents of our C-BCBTM-2509 Exam Torrent.
