

# 300-610 Guide Torrent - 300-610 New Exam Braindumps

BONUS!!! Download part of Real4exams 300-610 dumps for free: <https://drive.google.com/open?id=12wTvFMSDmkWZr-Ybh0eosbzZT5J65W4I>

As for the points you may elapse or being frequently tested in the real exam, we give referent information, then involved them into our 300-610 actual exam. Our experts expertise about 300-610 training materials is unquestionable considering their long-time research and compile. I believe that no one can know the 300-610 Exam Questions better than them. And they always keep a close eye on the changes of the content and displays of the 300-610 study guide.

Cisco 300-610 exam is a challenging exam that requires a lot of preparation and dedication to pass. However, passing 300-610 exam will open up many opportunities for you in the job market. Designing Cisco Data Center Infrastructure certification is recognized globally and is highly valued by companies looking to fill positions in Cisco Data Center Infrastructure design. Therefore, if you are looking to advance your career in Cisco Data Center Infrastructure design, this certification is a must-have.

Cisco 300-610 Exam consists of 60-70 questions and the candidate is given 90 minutes to complete the exam. 300-610 exam is available in English and Japanese and can be taken at any Pearson VUE testing center. 300-610 exam fee is \$300 USD and candidates must register for the exam through the Cisco website.

## Study Your Cisco 300-610: Designing Cisco Data Center Infrastructure Exam with Well-Prepared 300-610 Guide Torrent Effectively

There are three different versions to meet customers' needs you can choose the version that is suitable for you to study. If you buy our Designing Cisco Data Center Infrastructure test torrent, you will have the opportunity to make good use of your scattered time to learn whether you are at home, in the company, at school, or at a metro station. If you choose our 300-610 study torrent, you can make the most of your free time, without using up all your time preparing for your exam. We believe that using our 300-610 Exam Prep will help customers make good use of their fragmentation time to study and improve their efficiency of learning. It will be easier for you to pass your exam and get your certification in a short time.

## Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q323-Q328):

### NEW QUESTION # 323

Refer to the exhibit.

The security team created a new security policy that requires certain types of traffic to be subject to deep packet inspection. The traffic types are

- \* internet traffic to application servers
- \* internet traffic to corporate users
- \* partner network traffic to application servers

\* partner network traffic to corporate users

Where must the next-generation firewalls be inserted to implement the new policy?

- A. one-armed insertion from the ACI border leaf duster
- B. one-armed insertion from the core switch cluster
- C. inline insertion between the edge router duster and the core switch duster
- D. inline insertion between the user network switch cluster and the core cluster

**Answer: A**

#### NEW QUESTION # 324

An engineer must design a multitenant solution using Cisco 7709 switches. The solution must support separate routing instances, separate spanning tree domains, and separate firewalls for each tenant. Which solution meets these requirements?

- A. VRF
- B. VDC
- C. vPC
- D. CFS

**Answer: B**

#### NEW QUESTION # 325

Refer to the exhibit.

Server 1 fails to connect to the storage array over the Storage Area Network (SAN) of the Cisco NDS 9000 Series Switch. The requirements are to redesign the storage network and keep these considerations in mind:

The traffic from each of the server must be redundant and isolated.

The design must tolerate hardware and software failures and upgrades of SAN fabric devices.

Which action must be taken to meet these requirements?

- A. Add an additional supervisor to the Fibre Channel switch to support nondisruptive upgrades.
- B. Place an additional Fibre Channel switch to create two physically independent storage fabrics.
- C. Enable NPV and F-Port-channel on ports that face Server 1 on the Fibre Channel switch to create redundant paths.
- D. Create a SAN port channel that faces the storage device to sustain a link failure.

**Answer: C**

#### NEW QUESTION # 326

Drag the requirements from the left onto the correct policy types on the right.

**Answer:**

Explanation:

#### NEW QUESTION # 327

Which type of encoding is used on 8-Gbps links as compared to 10-Gbps links?

- A. 8-Gbps links and 10-Gbps links use 64B/66B encoding.
- B. 8-Gbps links use 64B/66B encoding, and 10-Gbps links use 8B/10B encoding.
- C. 8-Gbps links and 10-Gbps links use 8B/10B encoding.
- D. 8-Gbps links use 8B/10B encoding, and 10-Gbps links use 64B/66B encoding.

**Answer: D**

Explanation:

1, 2, 4, and 8 Gb Fibre Channel all use 8b/10b encoding. Meaning, 8 bits of data gets encoded into 10 bits of transmitted information - the two bits are used for data integrity. Well, if the link is

8Gb, how much do we actually get to use for data - given that 2 out of every 10 bits aren't "user" data? FC link speeds are somewhat of an anomaly, given that they're actually faster than the stated link speed would suggest. Original 1Gb FC is actually 1.0625Gb/s, and each generation has kept this standard and multiplied it. 8Gb FC would be 8 1.0625, or actual bandwidth of 8.5Gb/s.  $8.5 \times .80 = 6.8$ . 6.8Gb of usable bandwidth on an 8Gb FC link.

10GE (and 10G FC, for that matter) uses 64b/66b encoding. For every 64 bits of data, only 2 bits are used for integrity checks. While theoretically this lowers the overall protection of the data, and increases the amount of data discarded in case of failure, that actual number of data units that are discarded due to failing serialization/deserialization is minuscule. For a 10Gb link using 64b/66b encoding, that leaves 96.96% of the bandwidth for user data, or 9.7Gb/s.

## NEW QUESTION # 328

.....

In a knowledge-based job market, learning is your quickest pathway, your best investment. Knowledge is wealth. Modern society needs solid foundation, broad knowledge, and comprehensive quality of compound talents. Our 300-610 certification materials can help you transfer into a versatile talent. Many job seekers have successfully realized financial freedom with the assistance of our 300-610 test training. All your dreams will be fully realized after you have obtained the 300-610 certificate. Finding a good paying job is available for you. Good chances are few. Please follow your heart.
