

The Nutanix NCP-EUC Web-Based Practice Exam

DOWNLOAD the newest Dumpexams NCP-EUC PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1zVx37LR1JedsV47Ai73qrjIETI92dIYq>

In order to serve you better, we have a complete system for you if you choose us. We have free demo for NCP-EUC training materials for you to have a try. If you have decided to buy NCP-EUC exam dumps of us, just add them to your cart, and pay for it, our system will send the downloading link and password to you within ten minutes, and if you don't receive, just contact us, we will solve this problem for you as quickly as possible. For NCP-EUC Training Materials, we also have after-service, if you have questions about the exam dumps, you can contact us by email.

Our product provides the demo thus you can have a full understanding of our NCP-EUC prep torrent. You can visit the pages of the product and then know the version of the product, the characteristics and merits of the NCP-EUC test braindumps, the price of the product and the discount. There are also the introduction of the details and the guarantee of our NCP-EUC prep torrent for you to read. You can also know how to contact us and what other client's evaluations about our NCP-EUC test braindumps. You will pass the NCP-EUC exam as our NCP-EUC study guide has a pass rate of 99% to 100%.

NCP-EUC Accurate Answers & Original NCP-EUC Questions

According to the years of the test data analysis, we are very confident that almost all customers using our products passed the exam, and in o the NCP-EUC study materials, with the help of their extremely easily passed the exam and obtained qualification certificate. We firmly believe that you can do it! Therefore, the choice of the NCP-EUC Study Materials is to choose a guarantee, which can give you the opportunity to get a promotion and a raise in the future, even create conditions for your future life.

Nutanix Certified Professional - End-User Computing (NCP-EUC) Certification Exam is an important certification for IT professionals who work with Nutanix EUC solutions. NCP-EUC Exam Tests candidates' knowledge of Nutanix EUC solutions, including desktop virtualization, application virtualization, and user profile management. It is a comprehensive exam that requires candidates to have a deep understanding of Nutanix EUC solutions and provides a competitive advantage in the job market.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which feature can be utilized to ensure that a container always has enough space to accommodate a specific- sized workload?

- A. Linked Clones
- B. Thick Provisioning
- C. Capacity Reservation
- D. A Storage Pool

Answer: C

Explanation:

In Nutanix storage architecture, Capacity Reservation (also known as "Reserved Capacity") is the feature designed to guarantee space at the container level.

Nutanix documentation states: "To ensure that there is space available for a storage container, you can enable capacity reservation. Capacity reservation ensures that a storage container has a minimum allocated capacity, preventing other storage containers from using that reserved space." This effectively isolates the required storage amount from the shared Storage Pool, ensuring the specific workload housed in that container always has the physical capacity it requires, regardless of the consumption by other containers in the pool.

NEW QUESTION # 54

An administrator has deployed Citrix Virtual Apps and Desktops on a Nutanix dedicated VDI cluster.

What is the delivery method in use, based on the curator reports shown in the exhibit?

- A. Linked Clones
- B. Citrix Provisioning
- C. Citrix MCS
- D. Full Clones

Answer: C

Explanation:

the delivery method in use is Citrix MCS. Citrix Machine Creation Services (MCS) is a technology that creates and manages virtual machines from a master image. MCS uses Nutanix storage efficiency features such as deduplication and shadow clones to reduce storage consumption and improve performance. The exhibit shows that the VDI cluster has a high deduplication ratio (7.5x) and a low physical space usage (1.2 TB) compared to the logical space usage (9.1 TB), which indicates that MCS is in use.

NEW QUESTION # 55

An administrator needs to add two new nodes to an existing Nutanix cluster. In addition to the default virtual switch vs0, the cluster also has two additional vSwitches defined: vs1 and vs2.

What step does the administrator need to take prior to expanding the cluster?

- A. Ensure AOS and AHV on the new nodes match the cluster versions.
- B. Ensure the physical NICs in the existing and new nodes are operating at the same speed.
- C. Configure bridge br1 and br2 on the new nodes.
- D. Disable the virtual-switch feature on the cluster.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to the Nutanix AHV Administration Guide and Cluster Expansion prerequisites for environments with non-default virtual switches:

* Manual Bridge Configuration: When a cluster has multiple virtual switches (e.g., vs1, vs2) configured, these correspond to specific OVS bridges (e.g., br1, br2) on the AHV hosts. Before adding new nodes to such a cluster, the administrator must manually configure these additional bridges on the new nodes to match the existing cluster configuration.

* Consistency Requirement: The documentation states that virtual bridges used for a virtual switch (VS) on all nodes must have the same specification (name, MTU, uplink bond type). If vs1 is mapped to br1 on existing nodes, it must be mapped to br1 on the new nodes before they are added to the cluster.

* Expansion Failure/Warning: Failure to configure these bridges prior to expansion can result in the new nodes being unable to join the configured networks properly or the expansion process failing checks related to network uniformity.

NEW QUESTION # 56

An administrator needs to configure a license server to be accessible by Frame desktops.

Which server should the administrator configure?

- A. Sandbox
- B. Utility Server

- C. EC2 VM Instance
- D. Azure VM Instance

Answer: B

Explanation:

Frame is a cloud-based desktop-as-a-service platform that allows users to access Windows applications and desktops from any device¹. A license server is a server that hosts a network licensing manager for software that requires licenses to run². Frame supports using a utility server as a license server for Frame desktops¹. A utility server is a stand-alone, general purpose Windows server that can be configured and managed from the Frame dashboard¹.
<https://docs.frame.nutanix.com/platform/admin/utility-servers/>

NEW QUESTION # 57

An administrator is tasked with setting up an integration between Nutanix and Citrix PVS. After installing the Nutanix AHV plug-in for PVS, the administrator is unable to use the integration in Citrix PVS.

What step must the administrator take to resolve the issue?

- A. Restart the Citrix Remote Broker Provider service.
- **B. Restart the Citrix Remote HCL Server service.**
- C. Install the MCS AHV plug-in on all brokers.
- D. Install the PVS AHV plug-in on all brokers.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to the installation guide for the Nutanix AHV Plug-in for Citrix:

* Plugin Registration: The Nutanix AHV plug-in functions as a Hardware Compatibility Layer (HCL) plugin within the Citrix architecture. This allows the Citrix Provisioning (PVS) Streamed VM Setup Wizard to communicate with the AHV hypervisor.

* Service Restart: After installing the plug-in on the PVS Console machine (or the DDC where the wizard is being run), the administrator must restart the specific Citrix services that load these HCL plugins. The Citrix Remote HCL Server service (often associated with the proxying of hypervisor calls in PVS/DDC environments) must be restarted to register the new Nutanix connection type.

* Resolution: Without restarting this service, the PVS wizard cannot enumerate the Nutanix AHV connection or resources, rendering the integration unusable until the service reload picks up the new plugin dlls.

NEW QUESTION # 58

.....

You get a specific amount of time per day to study, you have a job, need to go to the office daily, and take time to relax from the hectic work schedule. So, planning a long study schedule is not possible. Some people study while traveling to the office, some prefer to check the office breaks and some even take it to late-night study especially when they are left with little time to prepare Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam NCP-EUC for certification exam. For this reason, we want to make your journey smooth by providing you with smart tips to make the most out of your Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam NCP-EUC study material for the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam NCP-EUC certification programs and clear it in one go.
