Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q102-Q107):

NEW QUESTION # 102

Your organization has a requirement to create and apply a new theme for the application user interface. Which option allows you to achieve this requirement?

- **A. Appearance Page**
- B. User Interface Text
- C. Setup and Maintenance Work Area
- D. Structure Page

Answer: A

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. Reference:

NEW QUESTION # 103

You are managing a project based on a Waterfall model. You define a project and a project plan in Oracle Project Portfolio Management with tasks and subtasks applicable to each of the phases of the project:

Initiation, Discovery, Design, Build, Test, and Deploy. As a project manager, you want to define deliverables for your project requirements that are elucidated during the Discovery phase of your project. You now want to understand how the inheritance between requirements, tasks, and deliverables works. Identify the two correct statements in this respect. (Choose two.)

- **A. You associate a deliverable with a task, independent of associating a requirement with a task.**
- B. A deliverable associated with a requirement is automatically associated with the tasks created for that requirement.
- **C. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement.**
- D. The association of a deliverable with a task is dependent on associating a requirement with a task.

Answer: A,C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapem/define-project-deliverables.html#OAPEM1122079> Associate deliverables with one or many tasks or requirements at any level. Associate existing deliverables to tasks or requirements or create deliverables directly for tasks or requirements. You can delete a deliverable in New status if it is not associated with tasks or requirements.

Can deliverables for projects and tasks be inherited from associated requirements?

No. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement.

You associate a deliverable with a task, independent of associating a requirement with a task.

NEW QUESTION # 104

Your client organization has recently undergone a restructuring exercise that has resulted in the creation of new jobs. The Resource Breakdown Structure (RBS) was previously created with existing jobs, and now the new jobs have been added to the existing Resource Breakdown Structure.

Identify the correct statement about the RBS and new resources. (Choose the best answer.)

- A. If the "Allow resource changes at project level" option is set to No, the new resources and resource formats that are added to a Planning Resource Breakdown Structure for one project are not available for other projects.
- B. If the "Allow resource changes at project level" option is enabled for the RBS, the new resources added at project level are automatically reflected in the RBS.
- **C. If the "Allow resource changes at project level" option is set to No for the RBS, then the resources added to the Planning Resource Breakdown Structure are automatically available for use on the projects.**
- D. If the "Allow resource changes at project level" option is set to Yes for the RBS, the new resources are available automatically at project level.

Answer: C

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfm/implementing-project-financial-management-applications.htm#FAPFM969761>

Topic - Entering Planning Resource Breakdown Structure Details

* Click Navigator > Setup and Maintenance, and search for the Manage Planning and Billing Resource Breakdown Structures task.

* Click the Manage Planning and Billing Resource Breakdown Structures link.

Use the Manage Planning and Billing Resource Breakdown Structures page to create new planning resource breakdown structures and to review existing planning and billing resource breakdown structures.

* Click the Create icon in the Planning Resource Breakdown Structures section.

* Use the Create Planning Resource Breakdown Structure: Basic Information page to provide basic resource breakdown structure information including the name, active dates, and project unit.

* Enter a planning resource breakdown structure name and select a date from which the resource breakdown structure is available for use.

* Optionally, provide a description and a date to which the planning resource breakdown structure is available for use.

* Select a project unit. Only projects created for the selected project unit can use this planning resource breakdown structure.

* If you want to allow project managers to add planning resources at the project level, then select the Allow resource changes at project level check box.

Tip: Changes at the project level don't move back to the parent planning resource breakdown structure.

Deselect this option to ensure all project using the planning resource breakdown structure use the same resources.

* Optionally, select a Job Set as a source of jobs for creating planning resources on your planning resource breakdown structure.

* Click Save.
