NEW QUESTION # 51
Your customer wants to deploy a generative AI model to summarize customer feedback across channels?
Which AI Foundation component is best suited for this task?

- A. Generative AI hub
- B. Joule Studio
- C. SAP Document AI
- D. SAP Knowledge Graph

Answer: A

NEW QUESTION # 52
Within AI Foundation's layered architecture, which layer provides a unified entry point for development, operations, and administration?

- A. AI Integration Layer
- B. AI Kernel Layer
- C. OS Interfaces Layer
- D. Peripheral & Data Layer

Answer: A

Explanation:
The AI Integration Layer within SAP's AI Foundation architecture serves as the unified entry point for development, operations, and administration. According to SAP Business AI documentation, this layer facilitates seamless interaction between AI components, SAP applications, and external systems, providing a centralized interface for developers, operators, and administrators. It supports tasks such as model deployment, monitoring, and governance, ensuring consistency and efficiency across AI operations. The OS Interfaces Layer handles system-level interactions, the Peripheral & Data Layer manages data access, and the AI Kernel Layer focuses on core AI processing, none of which serve as the unified entry point. NEW QUESTION # 53
(What are some key differentiators of SAP Business AI? Note: There are 3 correct answers to this question.)

- A. Embedded AI
- B. Large Foundation Models
- C. Ecosystem of Innovation
- D. Predictive Analytics
- E. AI Foundation

Answer: A,C,E

Explanation:
Comprehensive and Detailed Explanation From Exact Extract: Key differentiators of SAP Business AI include embedded AI directly integrated into business applications for seamless use, an AI Foundation providing the underlying infrastructure and tools in SAP BTP, and an Ecosystem of Innovation through partnerships and open standards for collaborative advancements. These set SAP apart by focusing on integration, foundational support, and ecosystem-driven innovation.

AI Foundation: "For that, we established an AI foundation."learning.sap.com "SAP's main differentiators are... deep domain and industry expertise."community.sap.com (Foundation as base.) Ecosystem of Innovation: "Maximize the value of AI across your business with a single AI interface that seamlessly integrates data and workflows across your SAP and non-SAP applications."sap.com Implies ecosystem.
Other options are incorrect because:
Option C: Predictive analytics is a capability but not a key differentiator; focus is on embedded and foundational aspects.
Option D: SAP integrates large foundation models from partners but does not claim them as differentiators; emphasis is on business grounding.
