All these three types of SC-400 practice materials win great support around the world and all popular according to their availability of goods, prices and other term you can think of.

Microsoft Information Protection Administrator Sample Questions (Q23-Q28):

NEW QUESTION # 23

You plan to implement a sensitive information type based on a trainable classifier. The sensitive information type will identify employment contracts.

You need to copy the required files to Microsoft SharePoint Online folders to train the classifier.

What should you use to seed content and test the classifier? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Seed content:

- Only files that are poor examples of employment contracts.
- Only files that are good examples of employment contracts.
- Files that are a mix of good and poor examples of employment contracts.
- A file that contains the metadata of the employment contracts in the CSV format.
- A file that contains the metadata of the employment contracts in the JSON format.

Testing the classifier:

- Only files that are poor examples of employment contracts.
- Only files that are good examples of employment contracts.
- Files that are a mix of good and poor examples of employment contracts.
- A file that contains the metadata of the employment contracts in the CSV format.
- A file that contains the metadata of the employment contracts in the JSON format.
