Our D-DS-FN-23 practice materials enjoy a very high reputation worldwide. This is not only because our practical materials are affordable, but more importantly, our D-DS-FN-23 practice materials are carefully crafted after years of hard work and the quality is trustworthy. If you are still anxious about getting a certificate, why not try our D-DS-FN-23 practice materials? If you have any questions about our practical materials, you can ask our staff who will give you help.

EMC Dell Data Science Foundations Sample Questions (Q33-Q38):

NEW QUESTION # 33

Based on the graphic, what should be done to begin addressing chart junk?

- A. Remove the legend
- B. Reduce the font size in the axis
- **C. Remove the vertical gridlines**

Answer: C

NEW QUESTION # 34

You have been assigned to do a study of the daily revenue effect of apricing model of online transactions.

When have you completed the analytics lifecycle?

- A. You have presented the results of the model to both the internal analytics team and the business owner of the project.
- B. You have a completely developed model, and the results have shown statistically acceptable results.
- **C. You have written documentation, and the code has been handed off to the Data Base Administrator and business operations.**
- D. You have a completely developed model based on both a sample of the data and the entire set of data available.

Answer: C

NEW QUESTION # 35

What is a benefit of Spark in-memory data processing as opposed to using MapReduce?

- A. Supports processing unstructured data, which MapReduce does not allow
- **B. Avoids writing intermediate data to disk, which speeds up processing**
- C. Allows parallel processing, which MapReduce does not support
- D. Removes the need to use disks at all, which reduces cost

Answer: B

Explanation:

Spark's in-memory data processing avoids the need to write intermediate data to disk, which significantly speeds up processing compared to MapReduce, which writes intermediate data to disk after each operation. This makes Spark much faster for iterative tasks.

NEW QUESTION # 36

What converts SQL-like commands into either Tez, Spark, or MapReduce jobs that are submitted to the Hadoop cluster?

- A. Hive
- B. Mahout
- C. Pig
- D. HBase

Answer: A

Explanation:

Hive converts SQL-like commands into execution plans that run as Tez, Spark, or MapReduce jobs on a Hadoop cluster, enabling users to query large datasets using a familiar query language.

NEW QUESTION # 37

Your colleague, who is new to Hadoop, approaches you with a question. They want to know how best to access their data. This colleague has a strong background in data flow languages and programming.

Which query interface would you recommend?

- A. Pig
- B. Howl
- C. Hive
- D. HBase

Answer: A**NEW QUESTION # 38**

.....

There are a lot of experts and professors in our company in the field. In order to meet the demands of all people, these excellent experts and professors from our company have been working day and night. They tried their best to design the best D-DS-FN-23 certification training materials from our company for all people. By our study materials, all people can prepare for their D-DS-FN-23 Exam in the more efficient method. We can guarantee that our D-DS-FN-23 study materials will be suitable for all people and meet the demands of all people, including students, workers and housewives and so on.
