**Answer:**

Explanation:

Explanation:

[https://meraki.cisco.com/lib/pdf/meraki\\_whitepaper\\_captive\\_portal.pdf](https://meraki.cisco.com/lib/pdf/meraki_whitepaper_captive_portal.pdf)

### NEW QUESTION # 176

A developer creates a Git repository to keep the progress for the code. The repository has a feature branch and a development branch. Before the application is delivered, the two branches must be merged. Which set of commands must be run to integrate the feature branch into the development branch?

- A. git checkout development  
git merge feature
- B. git checkout main  
git merge feature
- C. git checkout main  
git clone feature development
- D. git checkout feature  
git push feature development

**Answer: A**

Explanation:

To merge the feature branch into the development branch, you must first check out the development branch and then merge the feature branch into it using git merge feature.

### NEW QUESTION # 177

Fill in the blank to complete the statement.
