NEW QUESTION # 87

The CCII program and manual should be viewed as a living document and learning environment.

- A. True
- B. False

Answer: A

Explanation:

The Certified Cyber Intelligence Investigator (CCII) program manual is designed to be a living document, meaning it is continuously updated to accommodate new threats, methodologies, and best practices in cyber intelligence investigations. This approach ensures that professionals remain equipped with the latest knowledge and strategies to combat evolving cyber threats.

NEW QUESTION # 88

A virus is a program that attaches itself to a program or file. This allows it to spread across networks and cause damage to software and hardware.

- A. True
- B. False

Answer: A

Explanation:

A computer virus is malicious software (malware) that replicates itself by attaching to legitimate programs or files. Once activated, viruses can:

Corrupt or delete files.

Spread across networks, infecting multiple systems.

Cause performance issues or even render a system inoperable.

Unlike worms, which can spread independently, viruses require human action (e.g., opening an infected file or running an executable).

NEW QUESTION # 89

A legal factor of computer-generated evidence is that it is considered hearsay.

- A. True
- B. False

Answer: A

Explanation:

Computer-generated evidence, such as log files, metadata, and automated reports, is often classified as hearsay because it lacks a human declarant. However, exceptions exist under:

Business records exception- If logs are kept in the regular course of business.

Public records exception- If data is collected by government agencies.

Forensic investigators use hash verification and timestamp validation to ensure evidence reliability.
