Microsoft Power Platform Fundamentals Sample Questions (Q285-Q290):

NEW QUESTION # 285

A company provides on-site architectural consulting services to residential and business customers. The company wants to implement a simple alert system where a consultant can press a button on their mobile device to send the user's location to the company as a text notification.

You need to build a button flow that sends the notification.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:
