PMI-PMOCP퍼펙트 덤프데모 최신 시험 기출문제

ExamPassdump의 PMI 인증 PMI-PMOCP 덤프의 인지도는 아주 높습니다. 인지도 높은 원인은 PMI 인증 PMI-PMOCP 덤프의 시험적중율이 높고 가격이 친근하고 구매후 서비스가 끝내주기 때문입니다. ExamPassdump의 PMI 인증 PMI-PMOCP 덤프로 PMI 인증 PMI-PMOCP 시험에 도전해보세요.

최신 PMI Certification PMI-PMOCP 무료 샘플문제 (Q111-Q116):

질문 # 111

The PMO at an expanding healthcare organization has been tasked with enhancing the organization's project management practices to achieve higher efficiency and better outcomes. To achieve this, the first step is to perform a gap analysis to evaluate the current state of project management maturity. This analysis will help PMO understand the existing capabilities, identify gaps compared to industry standards, and highlight areas needing improvement. Based on the results, the aim is to create a targeted improvement plan to elevate the organization's project management maturity level.

What is the primary purpose of conducting a gap analysis in the context of evaluating and progressing organizational project management capability?

- A. To reassign project managers based on their individual skill sets, maturity, and performance levels.
- B. To benchmark project performance and maturity levels against other organizations in the same industry.
- C. To identify gaps between current project management practices and desired maturity levels, and develop targeted improvement plans.
- D. To justify the need for additional project management software tools that conduct gap analysis and maturity levels.

정답: C

설명:

Gap analysis is a foundational strategic alignment tool within PMO practice. According to the PMI-PMOCP framework, the purpose of gap analysis is to compare the organization's current project management maturity and capabilities against desired or industry-standard maturity models. This comparison identifies specific deficiencies or gaps in processes, skills, tools, or governance. The output of the gap analysis informs a targeted improvement plan designed to address these gaps effectively, thereby progressing the organization's maturity in a structured and measurable manner. This aligns project management capabilities with organizational strategy and goals, ensuring the PMO delivers greater value and effectiveness.

The exercise is not primarily focused on acquiring new software (option A), benchmarking (option C), or reassigning personnel (option D), although these may be byproducts or related activities. The core intent is the identification of improvement areas to create a roadmap for advancing project management maturity, which leads to better project outcomes and strategic alignment.

질문 # 112

A PMO professional for an engineering company conducted an assessment to collect the benefits expectations of PMO stakeholders. With their input, several services have been defined.

What should the PMO professional do to maximize the chances of success in rolling out these services to PMO customers?

- A. Apply a phased approach for rolling out the PMO service offerings with metrics to monitor the progress.
- B. Develop detailed contingency plans for potential risks identified in later phases of the implementation.
- **C. Prioritize quick wins in the initial phases of the implementation to demonstrate early success.**
- D. Engage with PMO stakeholders to collect further input and get a deeper understanding of their requirements.

정답: C

설명:

Prioritizing quick wins early in service rollout builds momentum, gains stakeholder confidence, and demonstrates tangible benefits that help sustain support for further implementation.

While contingency planning (Option B) and phased approaches with metrics (Option C) are valuable, early visible successes are critical. Further stakeholder engagement (Option D) is important but should follow initial implementation to maintain focus.

PMI-PMOCP Lifecycle Management recommends quick wins as a strategy to accelerate adoption.

질문 # 113

The PMO established an online community for sharing best practices 2 years ago. The community has grown over time and the PMO is considering increasing the services provided to include some in-person events based on customer feedback. The content for the events has been fully designed with special attention to new trends in the market and concrete applications within the performing organization.

What should the PMO lead do to onboard this new service?

- A. Share the details of the in-person events in the next executive leadership meeting.
- B. Call for volunteers to help gather feedback regarding the future in-person events.
- **C. Create a detailed communications management plan to introduce the in-person events.**
- D. Discuss the additional content for the in-person events with the project manager.

정답: C

설명:

Introducing a new PMO service requires a detailed communications management plan to ensure that all stakeholders are informed, engaged, and prepared for the change. PMI-PMOCP outlines the importance of formal communication planning to manage expectations, promote the new service, and facilitate successful adoption.

While discussions (option A) and feedback collection (option B) support content quality, they do not address stakeholder awareness and acceptance. Sharing details only at executive meetings (option D) limits the communication reach. A structured plan ensures consistent, clear messaging to all relevant parties.

질문 # 114

A PMO team member with limited experience as a project manager was hired 2 years ago. The PMO team member has been identified as being talented in their role. Currently, the PMO team member is playing a key role in a strategic program and is facing challenges in specific areas such as leadership and stress management.

What steps should the PMO professional take to develop the competencies of the PMO team member?

- A. Provide personalized coaching to the PMO team member.

- B. Enroll the PMO team member in a course focused on facilitation skills.
- C. Require the PMO team member to complete a project management training program.
- D. Arrange for the PMO team member to shadow a manager recognized for strong leadership abilities.

정답: D

설명:

Mentorship and shadowing experienced leaders provide hands-on learning and exposure to practical leadership behaviors. PMI-PMOCP highlights that experiential learning through observation and guidance is effective for developing competencies like leadership and stress management.

Training courses (option A or C) and coaching (option D) support development but shadowing offers direct, contextual experience beneficial for leadership growth.

Reference: PMI-PMOCP Study Guide, Chapter on Human Capital Management and Competency Development.

질문 # 115

An enterprise PMO (EPMO) in a large telecommunications company is overwhelmed with service requests from various departments. With limited resources, the EPMO cannot serve all customers and meet their expectations in the short term. Which action should the PMO professional take to ensure efficient delivery?

- A. Allocate PMO resources to incoming requests based on their experience.
- B. Escalate the issue to the executive team and request additional resources.
- C. Educate customers on service-level agreements (SLAs) for each service.
- D. Prioritize and assign service requests based on their strategic impact.

정답: D

설명:

The PMI-PMOCP Lifecycle Management domain guides PMOs to prioritize resources and services based on strategic impact, ensuring that limited capacity is allocated to initiatives that deliver the highest organizational value.

Escalation (Option A) may be necessary eventually but is not the immediate corrective action. Allocating resources by experience (Option B) ignores strategic prioritization. Educating customers on SLAs (Option D) is useful but secondary to prioritization decisions.

This prioritization approach helps the EPMO maximize impact, manage expectations, and optimize service delivery under constraints.
