#### NEW QUESTION # 31

Which is a typical core activity within configuration management?

- A. Risk management
- B. Quality assurance
- C. Verification and audit
- D. Progress reporting

**Answer: C**

#### NEW QUESTION # 32

Which describes a time-driven control?

- A. The expected dates for planned checks of specialist products included in a stage plan
- B. The expected frequency of progress reports specified in a work package
- C. The planned exception assessment meeting to authorize a requested exception plan
- D. The dates for the project's end stage assessment included in the project plan

**Answer: B**

Explanation:

A time-driven control is defined as a monitoring system that is based on a fixed time interval, such as weekly or monthly progress reports. The expected frequency of progress reports specified in a work package represents a time-driven control, where updates are required at predefined intervals irrespective of the state of the project at those times.
