So do not hesitate to buy our ITIL-4-Foundation prep guide.

ITIL 4 Foundation Exam Sample Questions (Q54-Q59):

NEW QUESTION # 54

A good way to apply the ITIL guiding principle 'focus on value' is to:

- A. Understand the whole, but do something
- B. Do less tasks but in a better way with higher quality
- C. Understand why services are used by service consumers
- D. Be aware of system complexity

Answer: C

Explanation:

The ITIL guiding principle 'focus on value' states that everything an organization does should link back, directly or indirectly, to value for itself, its customers, and other stakeholders¹. A good way to apply this principle is to understand why services are used by service consumers, what outcomes they enable, and how they contribute to value creation². This helps to align the service provider's activities and resources with the needs and preferences of the service consumers³. NEW QUESTION # 55

In which situation will incident management USUALLY use a separate process?

- A. For low impact incidents
- **B. For information security incidents**
- C. Where the cause must be diagnosed
- D. Where no target resolution time exists

Answer: B

NEW QUESTION # 56

Which is an objective of the design coordination process?

- A. To gather and document new service level requirements from the customer
- B. To document the initial structure and relationship between services and customers
- C. To assess and evaluate all changes and their impact on service designs
- **D. To produce service design packages and ensure they are handed over to service transition**

Answer: D

NEW QUESTION # 57

Which of the following is included in the purpose of the 'continual improvement' practice?

- A. The establishment of links between the organization and its stakeholders at strategic and tactical levels
- B. The reduction of the likelihood and impact of incidents
- C. The restoration of normal service operation as quickly as possible
- **D. The alignment of the organization's practices and services with changing business needs**

Answer: D

Explanation:

Continual improvement encompasses all elements of the ITIL SVS. It involves aligning an organization's practices and services with changing business needs, through the ongoing assessment and improvement of each element involved in the management of products and services. Continual improvement applies to the SVS in its entirety, as well as to all of the organization's products, services, service components, and relationships, and is the responsibility of every individual involved in service management.

NEW QUESTION # 58

What is the definition of "service management"?

- A. A formal description of one or more services, designed to address the needs of a target consumer group
- B. A result for a stakeholder enabled by one or more outputs
- C. Join activities performed by a service provider and a service consumer to ensure continual value co-creation
- **D. A set of specialized organizational capabilities for enabling value for customers in the form of services.**

Answer: D

Explanation:

Service management is a set of specialized organizational capabilities for enabling value for customers in the form of services. These

capabilities include tangible things like capital, people, and equipment, and can also include intangible things like knowledge, management and skills. These capabilities can also include intangible things, like knowledge, management, and skills.
