Our PECB ISO-IEC-27001-Lead-Implementer Latest Exam sample

questions are a small part of our real products. If you think the free version is excellent, you can purchase our complete version.

To become a PECB Certified ISO/IEC 27001 Lead Implementer, candidates must demonstrate their understanding of the key concepts, principles, and requirements of ISO/IEC 27001, as well as their ability to implement and manage an ISMS effectively. PECB Certified ISO/IEC 27001 Lead Implementer Exam certification exam covers topics such as risk assessment and management, security controls, documentation management, and continual improvement of the ISMS.

PECB ISO-IEC-27001-Lead-Implementer Exam is a rigorous and comprehensive evaluation of an individual's knowledge and capabilities in implementing an ISMS. It is based on the ISO/IEC 17024 standard for certification bodies and is recognized globally as a credible and reliable certification. Passing the exam demonstrates an individual's ability to plan, implement, manage, and maintain an ISMS that meets the requirements of the ISO/IEC 27001 standard. It also demonstrates a commitment to upholding the highest standards of information security management and continuous improvement.

PECB Certified ISO/IEC 27001 Lead Implementer Exam Sample Questions (Q176-Q181):

NEW QUESTION # 176
Based on scenario 5. after migrating to cloud. Operaze's IT team changed the ISMS scope and implemented all the required modifications Is this acceptable?

- A. No, because any change in ISMS scope should be accepted by the management
- B. No, because the company has already defined the ISMS scope
- C. Yes, because the ISMS scope should be changed when there are changes to the external environment

Answer: A

NEW QUESTION # 177
Based on scenario 10. NetworkFuse did not conduct a self-evaluation of the ISMS before the audit. Is this compliant to ISO/IEC 27001?

- A. Yes, the standard does not require to conduct a self-evaluation before the audit but it is a good practice to follow
- B. Yes, the standard indicates that the auditee shall rely only on internal audit and management review reports to prepare for the certification audit
- C. No, the auditee must review the requirements of clauses 4 to 10 before the conduct of a certification audit

Answer: C

NEW QUESTION # 178
Scenario 8: SunDee is an American biopharmaceutical company, headquartered in California, the US. It specializes in developing novel human therapeutics, with a focus on cardiovascular diseases, oncology, bone health, and inflammation. The company has had an information security management system (ISMS) based on SO/IEC 27001 in place for the past two years. However, it has not monitored or measured the performance and effectiveness of its ISMS and conducted management reviews regularly Just before the recertification audit, the company decided to conduct an internal audit. It also asked most of their staff to compile the written individual reports of the past two years for their departments. This left the Production Department with less than the optimum workforce, which decreased the company's stock.
Tessa was SunDee's internal auditor. With multiple reports written by 50 different employees, the internal audit process took much longer than planned, was very inconsistent, and had no qualitative measures whatsoever Tessa concluded that SunDee must evaluate the performance of the ISMS adequately. She defined SunDee's negligence of ISMS performance evaluation as a major nonconformity, so she wrote a nonconformity report including the description of the nonconformity, the audit findings, and recommendations. Additionally, Tessa created a new plan which would enable SunDee to resolve these issues and presented it to the top management According to scenario 8, Tessa created a plan for ISMS monitoring and measurement and presented it to the top management Is this acceptable?

- A. No, Tessa should only communicate the issues found to the top management
- B. Yes, Tessa can advise the top management on improving the company's functions
- C. No, Tessa must implement all the improvements needed for issues found during the audit

Answer: B

NEW QUESTION # 179

The certification body rejected NetworkFuse's request to change the audit team leader. Is this acceptable?
Refer to scenario 10.

- A. Yes, because NetworkFuse did not give a valid reason to support their claims
- B. No, auditee's requests for the replacement of auditors must be accepted
- C. No, because an auditee cannot request the rejection of an audit team member

Answer: A

NEW QUESTION # 180

Scenario 10: NetworkFuse develops, manufactures, and sells network hardware. The company has had an operational information security management system (ISMS) based on ISO/IEC 27001 requirements and a quality management system (QMS) based on ISO 9001 for approximately two years. Recently, it has applied for a j
