

# Free PDF The Best SPLK-3002 - Valid Splunk IT Service Intelligence Certified Admin Real Test

P.S. Free 2026 Splunk SPLK-3002 dumps are available on Google Drive shared by DumpsTests: [https://drive.google.com/open?id=1ag\\_Qbii7HppwXrRsZztozYfd0J-wvkw2](https://drive.google.com/open?id=1ag_Qbii7HppwXrRsZztozYfd0J-wvkw2)

Good product and all-round service are the driving forces for a company. Our Company is always striving to develop not only our SPLK-3002 study materials, but also our service because we know they are the aces in the hole to prolong our career. Reliable service makes it easier to get oriented to the exam. If our candidates fail to pass the SPLK-3002 Exam unfortunately, you can show us the failed record, and we will give you a full refund.

Do you want to find a job that really fulfills your ambitions? That's because you haven't found an opportunity to improve your ability to lay a solid foundation for a good career. Our SPLK-3002 quiz torrent can help you get out of trouble regain confidence and embrace a better life. Our SPLK-3002 exam question can help you learn effectively and ultimately obtain the authority certification of Splunk, which will fully prove your ability and let you stand out in the labor market. We have the confidence and ability to make you finally have rich rewards. Our SPLK-3002 Learning Materials provide you with a platform of knowledge to help you achieve your wishes.

## Regualer SPLK-3002 Update & Study SPLK-3002 Plan

We are constantly updating our Splunk SPLK-3002 practice material to ensure that students receive the latest Splunk IT Service Intelligence Certified Admin (SPLK-3002) Questions based on the actual Building Splunk IT Service Intelligence Certified Admin (SPLK-3002) exam content. Moreover, we also offer up to 1 year of free updates and free demos. DumpsTests also offers a money-back guarantee (terms and conditions apply) for applicants who fail to pass the Splunk IT Service Intelligence Certified Admin (SPLK-3002) test on the first try.

## Splunk IT Service Intelligence Certified Admin Sample Questions (Q87-Q92):

### NEW QUESTION # 87

When installing ITSI to support a Distributed Search Architecture, which of the following items apply? (Choose all that apply.)

- A. Extract installer package into etc/apps directory of the cluster deployer node.
- B. Copy SA-IndexCreation to the etc/apps directory on the index cluster master node.
- C. Extract ITSI app package into etc/apps directory of search head.
- D. **Copy SA-IndexCreation to all indexers.**

**Answer: D**

Explanation:

Copy SA-IndexCreation to `$$SPLUNK_HOME/etc/apps/` on all individual indexers in your environment.

Reference:

A is the correct answer because when installing ITSI to support a distributed search architecture, you need to copy SA-IndexCreation to all indexers. SA-IndexCreation is an app that contains the definitions of the ITSI indexes, such as `itsi_summary`, `itsi_tracked_alerts`, `itsi_grouped_alerts`, etc. You need to copy this app to all indexers to ensure that they can store and search the ITSI data. B is not a correct answer because you do not need to copy SA-IndexCreation to the `etc/apps` directory on the index cluster master node. The index cluster master node does not store or search data, it only manages the replication and availability of data across the index cluster peers. C is not a correct answer because you do not need to extract the installer package into `etc/apps` directory of the cluster deployer node. The cluster deployer node is used to distribute apps and configuration updates to the search head cluster members. You need to extract the installer package into `etc/shcluster/apps` directory of the cluster deployer node instead. D is not a correct answer because you do not need to extract the ITSI app package into `etc/apps` directory of search head. You need to extract the ITSI app package into `etc/shcluster/apps` directory of the cluster deployer node and use the deployer to push the app to all search head cluster members. Reference: [Install Splunk IT Service Intelligence on a search head cluster], [Install Splunk IT Service Intelligence on an indexer cluster]

## NEW QUESTION # 88

Which deep dive swim lane type does not require writing SPL?

- A. Automatic lane.
- B. Event lane.
- C. Metric lane.
- D. KPI lane.

Answer: D

Explanation:

A KPI lane is a type of deep dive swim lane that does not require writing SPL. You can simply select a service and a KPI from a drop-down list and ITSI will automatically populate the lane with the corresponding data. You can also adjust the threshold settings and time range for the KPI lane. Reference: [KPI Lanes]

## NEW QUESTION # 89

Which of the following items describe ITSI Deep Dive capabilities? (Choose all that apply.)

- A. Comparing swim lane values for a slice of time.
- B. Examining and comparing alert levels for KPIs in a service over time.
- C. Comparing a service's notable events over a time period.
- D. Visualizing one or more Service KPIs values by time.

Answer: A,B,D

Explanation:

Reference: <https://docs.splunk.com/Documentation/ITSI/4.10.2/SI/DeepDives> A deep dive is a dashboard that allows you to analyze the historical trends and anomalies of your KPIs and metrics in ITSI. A deep dive displays a timeline of events and swim lanes of data that you can customize and filter to investigate issues and perform root cause analysis. Some of the capabilities of deep dives are:

B). Visualizing one or more service KPIs values by time. This is true because you can add KPI swim lanes to a deep dive to show the values and severity levels of one or more KPIs over time. You can also compare KPIs from different services or entities using service swapping or entity splitting.

C). Examining and comparing alert levels for KPIs in a service over time. This is true because you can add alert swim lanes to a deep dive to show the alert levels and counts for one or more KPIs over time. You can also drill down into the alert details and view the notable events associated with each alert.

D). Comparing swim lane values for a slice of time. This is true because you can use the time range selector to zoom in or out of a specific time range in a deep dive. You can also use the time brush to select a slice of time and compare the swim lane values for that time period.

The other option is not a capability of deep dives because:

A). Comparing a service's notable events over a time period. This is not true because deep dives do not display notable events, which are alerts generated by ITSI based on certain conditions or correlations. Notable events are displayed in other dashboards, such as episode review or glass tables.

References: [Overview of deep dives in ITSI], [Add swim lanes to a deep dive in ITSI]

### NEW QUESTION # 90

Which of the following are the default ports that must be configured on Splunk to use ITSI?

- A. SplunkWeb (8089), SplunkD (8088), and HTTP Collector (8000)
- B. SplunkWeb (8088), SplunkD (8089), and HTTP Collector (8000)
- **C. SplunkWeb (8000), SplunkD (8089), and HTTP Collector (8088)**
- D. SplunkWeb (8405), SplunkD (8519), and HTTP Collector (8628)

**Answer: C**

Explanation:

Reference:

C is the correct answer because ITSI uses the default ports of Splunk Enterprise for its communication and data collection. SplunkWeb uses port 8000, SplunkD uses port 8089, and HTTP Event Collector uses port 8088. These ports can be changed if needed, but they must match the configuration of Splunk Enterprise. Reference: Ports used by ITSI

### NEW QUESTION # 91

Which of the following is a characteristic of notable event groups?

- A. Notable event groups are created in the itsi\_tracked\_alerts index.
- B. Notable event groups allow users to adjust threshold settings.
- C. All of the above.
- **D. Notable event groups combine independent notable events.**

**Answer: D**

Explanation:

In Splunk IT Service Intelligence (ITSI), notable event groups are used to logically group related notable events, which enhances the manageability and analysis of events:

A).Notable event groups combine independent notable events:This characteristic allows for the aggregation of related events into a single group, making it easier for users to manage and investigate related issues. By grouping events, users can focus on the broader context of an issue rather than getting lost in the details of individual events.

While notable event groups play a critical role in organizing and managing events in ITSI, they do not inherently allow users to adjust threshold settings, which is typically handled at the KPI or service level.

Additionally, while notable event groups are utilized within the ITSI framework, the statement that they are created in the 'itsi\_tracked\_alerts' index might not fully capture the complexity of how event groups are managed and stored within the ITSI architecture.

### NEW QUESTION # 92

.....

The exam requires an enormous amount of effort and determination and dedication to get to the end goal. DumpsTests is one of the most reliable platforms that offer an accurate, reliable, and straightforward Splunk SPLK-3002 dumps to ensure the success of students on the initial try. DumpsTests offers the complete package that includes all exam dumps conforming to the syllabus for passing the Splunk IT Service Intelligence Certified Admin (SPLK-3002) exam certificate in the first try.

**Reguler SPLK-3002 Update:** <https://www.dumpstests.com/SPLK-3002-latest-test-dumps.html>

We guarantee your money safety, we will full refund to you if you pass exams with our SPLK-3002 Prep4sure materials or test review, Moreover, if you end up the cooperation between us,we have the responsibility to delete your personal information on SPLK-3002 exam prep, In the SPLK-3002 exam PDF and Testing Engine, you will be tested all the blueprints and objectives in Splunk Splunk IT Service that helps you to crack your Splunk Certification, We can resort to electronic SPLK-3002 exam materials, which is now a commonplace, and the electronic materials with the highest quality which consists of all of the key points required for the SPLK-3002 exam can really be considered as the royal road to learning.

Last but not the least, we give back your full refund if you failed the test SPLK-3002 unluckily, If fear has nothing to do with your

security program, why do so many security product vendors use it as part of the sales pitch?

## 100% Pass Quiz 2026 High Pass-Rate SPLK-3002: Valid Splunk IT Service Intelligence Certified Admin Real Test

We guarantee your money safety, we will full refund to you if you pass exams with our SPLK-3002 Prep4sure materials or test review, Moreover, if you end up the cooperation between us,we have the responsibility to delete your personal information on SPLK-3002 exam prep.

In the SPLK-3002 exam PDF and Testing Engine, you will be tested all the blueprints and objectives in Splunk Splunk IT Service that helps you to crack your Splunk Certification.

We can resort to electronic SPLK-3002 exam materials, which is now a commonplace, and the electronic materials with the highest quality which consists of all of the key points required for the SPLK-3002 exam can really be considered as the royal road to learning.

Our Exam questions have been prepared by subject Valid SPLK-3002 Real Test matter experts, after an in-depth analysis of Vendor recommended Syllabus.
