최신 PMI Certification PMI-PMOCP 무료샘플문제 (Q61-Q66):

질문 # 61

During executive meetings, the leader of a recently established PMO notices that the organization's leaders are worried about falling revenues during the last quarter and are beginning to look for ways to cut costs. The PMO leader is concerned that the PMO may be cut.

What should the PMO do to mitigate this risk?

- A. Increase the PMO's value by increasing the services provided by the PMO.
- B. Demonstrate alignment with the organization by reducing the PMO headcount.
- **C. Continue to demonstrate the value of the PMO.**
- D. Improve the maturity of the PMO services.

정답: C

설명:

The most direct way to mitigate the risk of PMO cuts during cost concerns is to continually demonstrate the PMO's value to the organization and leadership. Clear communication of benefits, successes, and alignment with strategic goals solidifies the PMO's importance.

Increasing services (Option B) without strategic focus may add costs. Reducing headcount (Option C) risks reducing capacity and value. Improving maturity (Option D) is beneficial but less immediate than demonstrating value.

PMI-PMOCP Strategic Alignment stresses ongoing value communication as key to PMO sustainability.

질문 # 62

A company is undergoing transformation due to a set of recent mergers and acquisitions (M&A) transactions.

A PMO professional is responsible for the processes and methodology and is asked to suggest ways to support the transformation by integrating organizational change management practices.

Which change management strategy should the PMO professional consider first to reinforce transformation activities?

- A. Plan a timely organizational announcement and related communications to accompany all major organizational transformations.
- **B. Assess the cultural impact of the M&A transactions and develop an integration plan to bridge the gap and facilitate a new cultural shift.**
- C. Establish training on the key factors for M&A success to the PMO team.
- D. Provide organizational change management training for the project managers.

정답: B

설명:

Mergers and acquisitions significantly impact organizational culture. PMI-PMOCP Lifecycle Management recognizes assessing cultural impacts and creating integration plans as a critical early step to support successful transformation.

While training (Options A and D) and communication (Option B) are important, they should follow a thorough cultural assessment to tailor strategies effectively.

PMI emphasizes that culture is a key factor in change success, and addressing it early reduces resistance and facilitates smooth transitions.

질문 # 63

As part of a merger between two companies, a PMO professional consultant is hired to conduct an organizational project management (OPM) maturity assessment. The consultant must evaluate how well each organization manages portfolios, programs, and projects, and how their processes align with organizational objectives.

What should the PMO professional consultant do first?

- A. Evaluate how well each organization tracks project performance data to measure maturity across the portfolios.

- B. Conduct a comprehensive assessment using an established OPM maturity model to identify gaps and opportunities for improvement.
- C. Meet with the executive team to determine how project success is measured and reported at the strategic level.
- D. Interview the PMO team members to understand their challenges when adopting new tools and methodologies.

정답: B

설명:

The consultant should begin with a comprehensive maturity assessment using a recognized OPM maturity model. This holistic assessment identifies gaps, strengths, and opportunities across portfolios, programs, and projects, forming a basis for improvement planning.

Data tracking (Option B), interviewing team members (Option C), and meeting executives (Option D) are important but follow a formal assessment framework.

PMI-PMOCP Strategic Alignment stresses structured maturity assessments as foundational in organizational change.

질문 # 64

Due to a recent organizational transformation, the PMO has been excluded from strategic meetings and discussions. Although still responsible for program and project performance reporting, business representatives are now bypassing the PMO and directly approaching project managers for specific performance updates.

What actions should the PMO professional take to ensure the PMO remains valued by the organization?

- A. Redesign the PMO reports based on the type of information the project managers are providing to the business representatives.
- B. Meet with business representatives individually to understand their current needs and adjust the PMO services accordingly.
- C. Request project managers to continue following the established process of reporting to the PMO.
- D. Consult with the business representatives to determine what they would like to change in the reports they are receiving from the PMO.

정답: B

설명:

When a PMO's role is diminished due to organizational change, proactively engaging with business representatives is critical. PMI-PMOCP emphasizes meeting with key stakeholders individually to understand their evolving needs and expectations. This approach helps the PMO realign its services, rebuild trust, and demonstrate relevance, ensuring it continues to add value.

Redesigning reports (option A) or consulting about reports (option C) are tactical and may follow understanding needs but lack the personal engagement necessary for sustained value. Simply enforcing existing processes (option D) ignores the root cause of bypass behavior.

질문 # 65

The executive management team for a healthcare company is discussing the second quarter's low result in the customer satisfaction score, which is a key performance indicator (KPI). One of the executives shares concerns about wasting efforts on projects and initiatives without being able to keep up with competitors and increase the customer satisfaction score.

Which action should the PMO professional take to avoid such a situation?

- A. Ask to review the customer satisfaction metrics.
- B. Establish a customer experience department.
- C. Avoid the customer satisfaction metric analysis when assessing projects.
- D. Support the reevaluation of the strategic plan by the executives.

정답: D

설명:

To prevent misalignment of projects with strategic goals, the PMO professional should support the executive team in reevaluating the

strategic plan to ensure projects directly contribute to critical KPIs like customer satisfaction.

Avoiding metric analysis (Option A) neglects insight. Reviewing metrics (Option C) is necessary but insufficient alone. Establishing new departments (Option D) may help but is a longer-term solution.

PMI-PMOCP Strategic Alignment focuses on aligning strategy and execution to optimize business outcomes.
