

# HPE2-B08 Test Lab Questions & HPE2-B08 Latest Exam Topics & HPE2-B08 Study Questions Files

Our HPE Private Cloud AI Solutions (HPE2-B08) PDF dumps format contains HP HPE2-B08 questions that are real and updated. You can print these HPE Private Cloud AI Solutions (HPE2-B08) questions if you prefer an off-screen study. Otherwise, you can use this HPE2-B08 PDF document from any location via your laptops, tablets, and smartphones. Time restrictions do not halt HPE Private Cloud AI Solutions (HPE2-B08) exam preparation as you can use HPE Private Cloud AI Solutions (HPE2-B08) exam dumps pdf whenever you have free time.

Learning with our HPE2-B08 learning guide is quiet a simple thing, but some problems might emerge during your process of HPE2-B08 exam materials or buying. Considering that our customers are from different countries, there is a time difference between us, but we still provide the most thoughtful online after-sale service twenty four hours a day, seven days a week, so just feel free to contact with us through email anywhere at any time. Our commitment of helping you to Pass HPE2-B08 Exam will never change. Considerate 24/7 service shows our attitudes, we always consider our candidates' benefits and we guarantee that our HPE2-B08 test questions are the most excellent path for you to pass the exam.

## Valid HPE2-B08 Exam Dumps | HPE2-B08 Exam Cram Questions

With the rapid development of the economy, the demands of society on us are getting higher and higher. If you can have HPE2-B08 certification, then you will be more competitive in society. Our HPE2-B08 study materials will help you get the according certification. Believe me, after using our HPE2-B08 Study Materials, you will improve your work efficiency. Our HPE2-B08 free training materials will make you more prominent in the labor market than others, and more opportunities will take the initiative to find you.

### HPE Private Cloud AI Solutions Sample Questions (Q69-Q74):

#### NEW QUESTION # 69

What is the primary purpose of using the "Private Cloud Smart Template" within HPE One Config Advanced (OCA) when quoting an HPE Private Cloud AI solution?

- A. To ensure a fast, easy, and validated process for generating a complete and accurate Bill of Materials (BOM) for a pre-integrated solution.
- B. To automatically generate a network diagram and rack elevation for the customer.
- C. To provide a free trial license for the VMware and NVIDIA software.
- D. To allow for complete customization of every component, including unsupported hardware.

**Answer: A**

### NEW QUESTION # 70

A customer is building an application to classify images of defective products on a manufacturing line.

Which type of neural network layer is essential for this model to automatically learn and identify visual features like edges, corners, and textures in the images?

- A. An output layer with a softmax function
- B. A dense (fully connected) layer
- C. A recurrent layer
- **D. A convolutional layer**

**Answer: D**

### NEW QUESTION # 71

A customer in the media and entertainment industry wants a solution to accelerate the creation of 3D animations and renderings. Their artists need to be able to generate complex visual AI content quickly.

The company has a mature AI practice and requires a powerful, data center-based solution.

Which HPE ProLiant server and NVIDIA GPU combination is purpose-built for these generative visual AI workloads?

- A. HPE ProLiant DL320 Gen11 server with NVIDIA L4 GPUs
- B. HPE ProLiant DL380a Gen12 server with an NVIDIA NVLink Bridge but no GPUs
- **C. HPE ProLiant DL380a Gen11 server with NVIDIA L40S GPUs**
- D. HPE ProLiant DL380a Gen11 server with CPU-only configuration

**Answer: C**

### NEW QUESTION # 72

A customer is considering the HPE Private Cloud AI solution. They need to run a moderately sized RAG application for 150 users. They do not have any fine-tuning requirements.

Why would an architect recommend a "Medium" configuration over a "Large" configuration for this customer?

- A. The Medium configuration is the only one that includes the HPE AI Essentials software.
- B. The Medium configuration has more storage capacity than the Large configuration.
- **C. The L40S GPUs in the Medium configuration are more cost-effective and power-efficient for this specific inference-heavy workload.**
- D. The Large configuration does not support Retrieval-Augmented Generation (RAG).

**Answer: C**

### NEW QUESTION # 73

A customer wants to build a configuration in One Config Advanced (OCA) for the HPE Private Cloud AI "Large - Standard" solution.

Which key components should the architect expect the Smart Template to include in the Bill of Materials (BOM)? (Choose 2.)

- A. HPE ProLiant DL380a Gen11 servers with NVIDIA L40S GPUs.
- B. 8 worker nodes.
- **C. HPE ProLiant DL380a Gen11 servers with NVIDIA H100 NVL GPUs.**
- **D. 4 worker nodes.**
- E. HPE Cray compute nodes.

**Answer: C,D**

### NEW QUESTION # 74

.....
