tests, our experts all are never satisfied with the current results because they know the truth that only through steady progress can our ANVE Preparation materials win a place in the field of exam question making forever. Therefore, buying our ANVE actual study guide will surprise you with high grades.

## Axis Network Video Exam Sample Questions (Q175-Q180):

### NEW QUESTION # 175

What is causing the issue in the image to the right?

- A. Wrong WDR settings
- B. Too short exposure time
- C. Stuck IR-cut filter
- D. Too long exposure time

**Answer: C**

Explanation:

"If the IR-cut filter is stuck or not functioning properly, it can cause a color cast or unnatural tint in the image during daylight, similar to what is shown in the right image."

- Axis Communications Academy, Network Video Fundamentals, 2022

"A stuck IR-cut filter often causes an unnatural magenta or pinkish hue in daylight scenes."

- Axis Technical Note: IR-cut Filter Issues

References:

Axis Communications Academy, Network Video Fundamentals, 2022 (p. 25)

Axis Technical Note: IR-cut Filter

### NEW QUESTION # 176

Accelerometers are required for which feature?

- A. Sound detection
- B. Shock detection
- C. Motion detection
- D. Speed detection

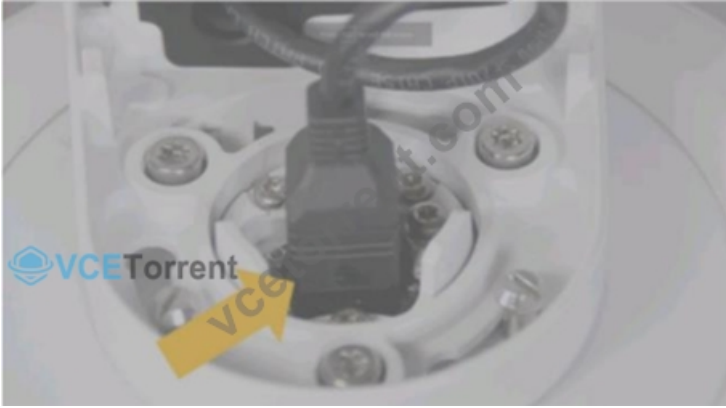

**Answer: B**

Explanation:

Accelerometers are used in Axis cameras primarily for shock detection. They detect sudden movements or impacts that might indicate tampering or vandalism. When a shock is detected, the camera can trigger alerts or initiate protective actions to safeguard the device and maintain surveillance integrity. Axis technical specifications detail the use of accelerometers in various models for enhanced security through shock detection.

### NEW QUESTION # 177

For an outdoor camera, what is the potential consequence of not using this connector?

- A. IR and heaters won't work
- B. jSlow PTZ control
- C. yWater ingress
- D. Reduced bandwidth

**Answer: C**

Explanation:

For outdoor cameras, not using the proper connectors, such as weatherproof or waterproof connectors, can lead to water ingress. This can damage the camera's internal components, leading to malfunctions or complete failure of the device. Axis outdoor cameras are designed with specific connectors to ensure they are sealed against environmental factors like moisture, dust, and temperature extremes. According to Axis installation guides, ensuring the correct connectors are used is crucial for maintaining the camera's IP rating and long-term reliability.

#### NEW QUESTION # 178

A VPN

- A. Creates a secure tunnel through the network, where your information travels encrypted.
- B. Is required to enable viewing network surveillance video on mobile devices.
- C. Is a network specially optimized to handle video data packets.
- D. Translates domain names to IP addresses, according to the IPv4 standard.

**Answer: A**

Explanation:

A VPN (Virtual Private Network) creates a secure tunnel through the network where your information travels encrypted. This means that data transmitted over the VPN is protected from eavesdropping and unauthorized access. It is not specifically optimized for video data packets nor does it translate domain names to IP addresses. Therefore, the correct answer is C. For more detailed information, refer to Axis Communications' guidelines on secure remote access and VPN usage.

#### NEW QUESTION # 179

View areas enable multiview streaming, which means that users can

- A. stream optically zoomed views and normal views simultaneously.
- B. stream multiple video streams from several cameras simultaneously.
- C. stream multiple views, which are cropped from the full view, simultaneously, stream the same video stream to multiple viewers simultaneously.

**Answer: A**

Explanation:

View areas enable multiview streaming by allowing users to stream different parts of the camera's field of view simultaneously. This includes the ability to stream both optically zoomed-in views and the full, normal views at the same time. This feature enhances monitoring flexibility and situational awareness by providing multiple perspectives from a single camera feed. Axis documentation on multiview streaming explains how view areas can be configured to deliver both zoomed and wide-angle views concurrently,

facilitating comprehensive surveillance.

## NEW QUESTION # 180

.....

If you want to buy our ANVE study guide in a preferential price, that's completely possible. In order to give back to the society, our company will prepare a number of coupons on our official website. Once you enter into our websites, the coupons will be very conspicuous. Remember to write down your accounts and click the coupon. When you pay for our ANVE Training Material, the coupon will save you lots of money. The number of our free coupon is limited. So you should click our website frequently. What's more, our coupon has an expiry date. You must use it before the deadline day. What are you waiting for? Come to buy our ANVE practice test in a cheap price.
