NEW QUESTION # 203

What

is the effect of the "set cs vserver vserver-CS-1 -redirectURL http://www.newdomain.com/mysite/" command?

- A. All
the requests to vserver-CS-1 will be redirected to http://www.newdomain.com/mysite/.
- B. If
the vserver-CS-1 encounters high connection rate, then users will be redirected to http://www.newdomain.com/mysite/.
- C. If
the status of vserver-CS-1 is DOWN, then users will be redirected to http://www.newdomain.com/mysite/.
- D. All
the requests without url path /mysite/ will be redirected to http://www.newdomain.com/mysite/.

Answer: C

NEW QUESTION # 204

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site where mandatory profiles are being used for all users. Users need to maintain the different printer property settings that are available for their HDX sessions. The administrator has enabled the HDX Printer properties retention policy for the Site.

Which setting could the administrator use for this environment?

- A. Held in profile only if NOT saved on client
- B. Saved on the client device only
- C. Do NOT retain printer properties
- D. Retained in user profile only

Answer: D

NEW QUESTION # 205

After creating a new machine catalog using the Machine Creation Services (MCS) wizard in Citrix Studio, a Citrix Administrator determines that Windows activation fails for all new machines in that catalog.

Which two conditions can cause this to happen? (Choose two.)

- A. The version of Windows installed is Windows Server 2012 R2.
- B. The Microsoft License Server is unreachable.
- C. The base image rearm count has been exceeded.
- D. The version of Windows installed uses Multiple Activation Key (MAK) licensing.

Answer: B,D

NEW QUESTION # 206

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site where mandatory profiles are being used for all users. Users need to maintain the different printer property settings that are available for their HDX sessions. The administrator has enabled the HDX Printer properties retention policy for the Site.

Which setting could the administrator use for this environment?

- A. Held in profile only if NOT saved on client
- B. Saved on the client device only
- C. Do NOT retain printer properties
- D. Retained in user profile only

Answer: D

Explanation:

According to the Citrix Virtual Apps and Desktops 7 Deployment and Administration guide1, the HDX Printer properties retention policy has four possible settings:

Held in profile only if NOT saved on client: This is the default setting. The printer properties are held in the user profile only if they have not been saved on the user device.

Do NOT retain printer properties: The printer properties are not retained at all. The user must configure them for each session.

Saved on the client device only: The printer properties are saved on the user device only. The user profile does not store them.

Retained in user profile only: The printer properties are retained in the user profile only. The user device does not store them.

In this scenario, the administrator wants the users to maintain the different printer property settings for their HDX sessions. Since the users are using mandatory profiles, which are read-only and do not save any changes, the administrator should use the Retained in user profile only setting. This way, the printer properties are stored in the user profile and applied to the HDX sessions. The user device does not need to save them. This setting is suitable for environments where mandatory profiles are being used.

NEW QUESTION # 207

.....

Our 1Y0-204 study guide has three formats which can meet your different needs: PDF, software and online. If you choose the PDF version, you can download our study material and print it for studying everywhere.
