

Oracle Certification 1Z0-182 exam pdf

2025 Latest Exam4Free 1Z0-182 PDF Dumps and 1Z0-182 Exam Engine Free Share: https://drive.google.com/open?id=14kDJRU2YnLDByMB_nw9KjSbB8qZQ7znt

Many candidates do not have actual combat experience, for the qualification examination is the first time to attend, they always feel aimless and worried about the 1Z0-182 exam very much. But we can help all of these candidates on 1Z0-182 study questions. Numerous grateful feedbacks from our loyal customers proved that we are the most popular vendor in this field to offer our 1Z0-182 preparation questions. You can totally rely on us.

The mission of Exam4Free is to make the valid and high quality Oracle test pdf to help you advance your skills and knowledge and get the 1Z0-182 exam certification successfully. When you visit our product page, you will find the detail information about 1Z0-182 Practice Test. You can choose the version according to your actual needs. 1Z0-182 free demo is available for free downloading, and you can do your decision according to the assessment. 100% pass by our 1Z0-182 training pdf is our guarantee.

1Z0-182 Valid Test Questions - Free PDF First-grade Oracle Latest 1Z0-182 Test Notes

Exam4Free 1Z0-182 products are honored by thousands, considerably recognized across the industry. Successful candidates preferably suggest our products as they provide the best possible returns for your invested money. Our professionals have devoted themselves to deliver the required level of efficiency for our customers. Our well-repute in industry highlights our tremendous success record and makes us an incomparable choice for 1Z0-182 Exams preparation. 100% guaranteed success for all 1Z0-182 exams is offered at Exam4Free, marks key difference with competing brands. Your investment with Exam4Free never takes any down turn as we owe the whole responsibility for any kind of loss that occurs through your failure.

Oracle 1Z0-182 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Automated Maintenance: This section measures the skills of Database Administrators in describing automated maintenance tasks within Oracle databases. It focuses on applying automated features to streamline routine maintenance activities.
Topic 2	<ul style="list-style-type: none"> Introduction to Auditing: This domain tests the abilities of Compliance Specialists in implementing database auditing practices. It includes creating, modifying, and maintaining auditing policies while applying value-based auditing techniques like Fine-Grained Auditing (FGA).
Topic 3	<ul style="list-style-type: none"> Displaying Creating and Managing PDBs: This section assesses the knowledge of Cloud Database Architects in creating pluggable databases (PDBs) from seeds or other techniques. It also covers modifying PDB modes and attributes to meet specific application requirements.
Topic 4	<ul style="list-style-type: none"> Managing Users, Roles, and Privileges: This domain evaluates the expertise of Security Administrators in implementing user security measures. It focuses on creating and managing users, roles, and privileges to ensure secure access to Oracle databases.
Topic 5	<ul style="list-style-type: none"> Describe Managing Database Instances: This section tests the knowledge of Database Administrators in performing essential tasks for managing database instances. It includes starting and shutting down databases, utilizing dynamic performance views, managing initialization parameter files, and using the Automatic Diagnostic Repository (ADR) for troubleshooting.
Topic 6	<ul style="list-style-type: none"> Managing Storage: This section tests the knowledge of Storage Engineers in managing storage features such as resumable space allocation, segment space-saving, and block space management. It also includes defining segment characteristics to optimize storage utilization.
Topic 7	<ul style="list-style-type: none"> Configuring Oracle Net Services: This section measures the skills of Network Administrators and Database Administrators in configuring Oracle Net Services. It includes identifying administration components, describing connection methods, and ensuring seamless communication between clients and databases.
Topic 8	<ul style="list-style-type: none"> Employ Oracle-Supplied Database Tools: This section evaluates the abilities of Database Engineers and Support Specialists in identifying and using Oracle-supplied tools for managing databases. It focuses on leveraging tools to monitor, troubleshoot, and optimize database performance effectively.
Topic 9	<ul style="list-style-type: none"> Managing Undo: This domain measures the skills of Database Administrators in using undo data effectively. It compares undo data with redo data and explains temporary undo usage for efficient transaction management.

Oracle Database 23ai Administration Associate Sample Questions (Q23-Q28):

NEW QUESTION # 23

You are going to perform a hot remote clone of PDB1 from CDB1 as TESTPDB in CDB2. Which of the following is a necessary prerequisite for the hot remote clone?

- A. Both CDBs need to be in local undo mode.
- B. TESTPDB must be in read-only mode after the cloning process is complete.
- C. PDB1 must be in read-only mode.
- D. PDB1 must be taken offline before the cloning process begins.

Answer: C

Explanation:

C .True. Hot cloning requires the source PDB (PDB1) to be read-only to ensure consistency during the clone. Others are not prerequisites.

NEW QUESTION # 24

As the DBA, you execute this command: GRANT CREATE VIEW TO usr1 WITH ADMIN OPTION; USR1 then executes: GRANT CREATE VIEW TO usr2 WITH ADMIN OPTION; USR2 then executes: GRANT CREATE VIEW TO usr3; Which statement is true?

- A. When the DBA revokes the CREATE VIEW privilege from USR1, it is revoked from USR2 but not USR3.
- **B. When the DBA revokes the CREATE VIEW privilege from USR1, it is neither revoked from USR2 nor USR3.**
- C. USR1 can revoke the CREATE VIEW privilege from USR3.
- **D. When the DBA revokes the CREATE VIEW privilege from USR2, it is revoked from USR3.**
- E. The DBA can revoke only ADMIN OPTION from USR1.

Answer: B,D

Explanation:

- A .False. Revoking from USR1 doesn't cascade due to WITH ADMIN OPTION.
- B .True. Revoking from USR2 cascades to USR3 because USR2 granted it.
- C .False. DBA can revoke the full privilege, not just ADMIN OPTION.
- D .False. USR1 can't revoke from USR3 directly; only the grantor (USR2) can.
- E .True. WITH ADMIN OPTION breaks the revoke chain from USR1 onward.

NEW QUESTION # 25

Which two tasks can you perform using DBCA for databases?

- **A. Configure a nonstandard block size for a new database.**
- B. Enable flashback database for an existing database.
- C. Configure incremental backups for a new database.
- **D. Register a new database with an available Enterprise Manager Management server.**
- E. Change the standard block size of an existing database.

Answer: A,D

Explanation:

- A .False. Backups are configured via RMAN, not DBCA.
- B .True. DBCA allows nonstandard block sizes during DB creation.
- C .True. DBCA can register new DBs with EM.
- D .False. Block size is fixed post-creation.
- E .False. Flashback is enabled via SQL, not DBCA for existing DBs.

NEW QUESTION # 26

What are Optimizer Statistics?

- A. Optimizer Statistics are part of system performance statistics stored in AWR required for calculating SQL execution plans.
- B. Optimizer Statistics are a set of data distribution statistics collected in real time as data is inserted, deleted, or updated, which are stored in AWR and used for generating SQL execution plans.
- **C. Optimizer Statistics are table, column, index, and system statistics used for generating efficient SQL execution plans.**
- D. Optimizer Statistics are statistics about data distribution within Oracle Datafiles.

Answer: C

Explanation:

- A .False. Not real-time; collected periodically.
- B .False. Not about datafile distribution.
- C .True. Includes table, column, index stats for plan generation.
- D .False. Stored in data dictionary, not AWR.

NEW QUESTION # 27

One of your database instances was shut down normally and then started in NOMOUNT state. You then executed this command: ALTER DATABASE MOUNT; Which two of these actions are performed?

- Answer: E,F**

A .False. Data files open in OPEN.
B .False. Redo logs open in OPEN.
C .False. PFILE/SPFILE is read at NOMOUNT.
D .False. SGA is allocated at NOMOUNT.
E .True. Alert log records mount event.
F .True. Control files are read in MOUNT.
