 tunnel mode gre multipoint
 tunnel key 100
```

A network engineer is adding a new spoke router into an existing DMVPN Phase 3 tunnel with a hub router to provide secure communication between sites. Which additional configuration must the engineer apply to enable the tunnel to come up?

- Option A : ip nhrp registration no-unique
- Option B : ip nhrp server-only non-caching
- Option C : ip nhrp responder tunnel
- Option D : ip nhrpnhs 172.23.5.1

Correct Answer: D

QUESTION: 39

Topic 3 Exam Pool C

What does the MP-BGP OPEN message contain?

- Option A : MPLS labels and the IP address of the router that receives the message
- Option B : the version number and the AS number to which the router belongs
- Option C : IP routing information and the AS number to which the router belongs

In fact, purchasing our 300-410 Actual Test means you have been half success. Good decision is of great significance if you want to pass the 300-410 exam for the first time. That is to say, if you decide to choose our study materials, you will pass your exam at your first attempt. Not only that, we also provide all candidates with free demo to check our product, it is believed that our free demo will completely conquer you after trying.

BraindumpStudy customizable practice exams (desktop and web-based) help students know and overcome their mistakes. The customizable Cisco 300-410 practice test means that the users can set the Questions and time according to their needs so that they can feel the real-based exam scenario and learn to handle the pressure. The updated pattern of Cisco 300-410 Practice Test ensures that customers don't face any real issues while preparing for the test.

## 100% Pass 2026 Perfect Cisco 300-410: Reliable Implementing Cisco Enterprise Advanced Routing and Services Exam Vce

We are popular not only because we own the special and well-designed 300-410 exam materials but also for we can provide you with well-rounded services beyond your imagination. At the very beginning, we have an authoritative production team and our 300-

410 study guide is revised by hundreds of experts, which means that you can receive a tailor-made 300-410 Study Material according to the changes in the syllabus and the latest development in theory and breakthroughs. Without doubt, our 300-410 practice torrent keep up with the latest information.

Cisco 300-410 is a certification exam that is designed to test a candidate's knowledge and skills in implementing advanced routing and services in an enterprise network. 300-410 exam is aimed at network professionals who have experience in implementing and managing Cisco solutions in a complex network environment. Implementing Cisco Enterprise Advanced Routing and Services certification exam is part of the Cisco Certified Network Professional (CCNP) Enterprise certification track.

Cisco 300-410 Exam covers a wide range of advanced topics related to routing and services in an enterprise network. 300-410 exam tests a candidate's knowledge and skills in configuring, implementing, and troubleshooting advanced routing protocols such as OSPF, EIGRP, BGP, and PBR. 300-410 exam also covers advanced services such as QoS, NAT, VPN, and DMVPN. Candidates are required to have a deep understanding of these topics to pass the exam.

## Cisco Implementing Cisco Enterprise Advanced Routing and Services Sample Questions (Q352-Q357):

### NEW QUESTION # 352

Refer to the exhibit.

An engineer configured SNMP communities on the Core\_SW1, but the SNMP server cannot obtain information from Core\_SW1. Which configuration resolves this issue?

- A. `snmp-server group NETVIEW v2c priv read NETVIEW access 20`
- B. `access-list 20 permit 10.221.10.11`
- C. `snmp-server group NETADMIN v3 priv read NETVIEW write NETADMIN access 22`
- D. `access-list 20 permit 10.221.10.12`

**Answer: B**

### NEW QUESTION # 353

Refer to the exhibit. A prefix list is created to filter routes inbound to an EIGRP process except for network 10 prefixes. After the prefix list is applied no network 10 prefixes are visible in the routing table from EIGRP.

Which configuration resolves the issue?

- A. `ip prefix-list EIGRP seq 20 permit 10.0.0.0/8 ge 9 ip prefix-list EIGRP seq 10 permit 0.0.0.0/0 le 32`
- B. `ip prefix-list EIGRP seq 10 permit 0.0.0.0/0 le 32`
- C. `ip prefix-list EIGRP seq 5 permit 10.0.0.0/8 ge 9 no ip prefix-list EIGRP seq 20 permit 10.0.0.0/8`
- D. `ip prefix-list EIGRP seq 20 permit 10.0.0.0/8 ge 9.`

**Answer: C**

Explanation:

A prefix-list is an ordered list. "permit 10.0.0.0/8" needs to come before "deny 0.0.0.0/0 le 32" (deny everything), otherwise the "10" network is matched by the deny statement and thus, it gets to be filtered. "sequence 5" places the "permit 10.0.0.0/8" before "deny 0.0.0.0/0 le 32".

### NEW QUESTION # 354

What does IPv6 Source Guard utilize to determine if IPv6 source addresses should be forwarded?

- A. ACE
- B. DHCP
- C. ACLS
- D. Binding Table

**Answer: D**

Explanation:

Explanation

### NEW QUESTION # 355

Drag and drop the DHCP messages from the left onto the correct uses on the right.

**Answer:**

Explanation:

Reference:

**DHCPINFORM:** If a client has obtained a network address through some other means or has a manually configured IP address, a client workstation may use a DHCPINFORM request message to obtain other local configuration parameters, such as the domain name and Domain Name Servers (DNSs). DHCP servers receiving a DHCPINFORM message construct a DHCPACK message with any local configuration parameters appropriate for the client without allocating a new IP address. This DHCPACK will be sent unicast to the client.

**DHCNPAK:** If the selected server is unable to satisfy the DHCPREQUEST message, the DHCP server will respond with a DHCNPAK message. When the client receives a DHCNPAK message, or does not receive a response to a DHCPREQUEST message, the client restarts the configuration process by going into the Requesting state. The client will retransmit the DHCPREQUEST at least four times within 60 seconds before restarting the Initializing state.

**DHCPACK:** After the DHCP server receives the DHCPREQUEST, it acknowledges the request with a DHCPACK message, thus completing the initialization process.

**DHCPDECLINE:** The client receives the DHCPACK and will optionally perform a final check on the parameters. The client performs this procedure by sending Address Resolution Protocol (ARP) requests for the IP address provided in the DHCPACK. If the client detects that the address is already in use by receiving a reply to the ARP request, the client will send a DHCPDECLINE message to the server and restart the configuration process by going into the Requesting state.

### NEW QUESTION # 356

Refer to the exhibit.

AS65510 iBGP is configured for directly connected neighbors. R4 cannot ping or traceroute network 192.168.100.0/24 Which action resolves this issue?

- A. Configure R4 as a route reflector server and configure R1 as a route reflector client
- B. Configure R1 as a route reflector server and configure R2 and R3 as route reflector clients
- **C. Configure R1 as a route reflector server and configure R4 as a route reflector client**
- D. Configure R4 as a route reflector server and configure R2 and R3 as route reflector clients.

**Answer: C**

Explanation:

Explanation

A route received from one iBGP peer will NOT be advertised to another iBGP peer. Therefore R4 could not receive advertisement for network 192.168.100.0/24. We can overcome this BGP limitation by configuring R1 as a route reflector server and R4 as a route reflector client so that R1 sends advertisements for R4.

### NEW QUESTION # 357

.....

We have to admit that the exam of gaining the 300-410 certification is not easy for a lot of people, especial these people who have no enough time. If you also look forward to change your present boring life, maybe trying your best to have the 300-410 certification is a good choice for you. Now it is time for you to take an exam for getting the certification. If you have any worry about the 300-410 Exam, do not worry, we are glad to help you. Because the 300-410 study materials from our company are very useful for you to pass the exam and get the certification.
