## Free PDF Quiz Cisco 350-801 Marvelous New Braindumps Book

Perhaps it was because of the work that there was not enough time to learn, or because the lack of the right method of learning led to a lot of time still failing to pass the 350-801 examination. Whether you are the first or the second or even more taking Cisco examination, our 350-801 Exam Prep not only can help you to save much time and energy but also can help you pass the exam. In

the other words, passing the exam once will no longer be a dream.

Passing the Cisco 350-801 Exam is a significant milestone for professionals who want to demonstrate their proficiency in implementing and operating Cisco collaboration core technologies. It validates their knowledge and skills in the latest industry practices and technologies, which is essential for advancing their career in the field of collaboration technologies. With the CCNP Collaboration certification, professionals can showcase their expertise to potential employers and clients, thereby increasing their job opportunities and earning potential.

## What Are Exam Details?

The Cisco 350-801 exam has a duration of two hours during which the candidates will need to demonstrate that they have the necessary knowledge and skills to answer all questions correctly. The vendor doesn't give details on the minimum passing score that the exam-takers should obtain or about the test structure. On the other hand, this is a clear sign that the exam is quite difficult and the candidates will need to be prepared to answer variously-formatted questions. When it comes to the prerequisites that the candidates need to follow for this exam, the vendor mentions that the candidates should know how to manage different terms related to computer networking. For example, they should have previously worked with WANs or LANs. Also, they should know how to manage digital interfaces at a basic level. Topics like Voice over IP or Public Switched Telephone Networks should be familiar for the candidates. Finally, the vendor requires the exam-takers to be aware of how to work with data networks or converged voice features in addition to deploying the Cisco Unified Communications Manager features.

## Cisco Implementing and Operating Cisco Collaboration Core Technologies Sample Questions (Q136-Q141):

### NEW QUESTION # 136

What is the purpose of the HTTPS protocol when using Mobile and Remote Access registrations?

- A. It encrypts a Mobile and Remote Access connection over a public network.
- B. It provides content sharing to remote devices.
- **C. It provides provisioning services to remote devices.**
- D. It provides presence information to remote devices.

**Answer: C**

### NEW QUESTION # 137

What should be used to detect common issues on a Cisco IOS XE-based Local Gateway and generate an email?

- A. Real-Time Monitoring Tool
- B. syslog
- **C. diagnostic signatures**
- D. SNMP

**Answer: C**

Explanation:

Diagnostic signatures are a feature that proactively detects commonly observed issues in the IOS XE-based Local Gateway and generates email, syslog, or terminal message notification of the event. You can also install the diagnostic signatures to automate diagnostics data collection and transfer collected data to the Cisco TAC case to accelerate resolution time.

### NEW QUESTION # 138

An administrator is integrating a Cisco Unity Express module to a Cisco UCME system. A test call is placed to the Cisco Unity Express pilot number, but the administrator receives a busy signal. The dial-peer is configured as follows:

How is this issue resolved?

- A. The dial-peer needs to be reconfigured to support vad.
- **B. The dial-peer needs to be reconfigured to support the G.711 voice codec.**
- C. The dial-peer needs to be reconfigured to support H.323 instead of SIP.
- D. The destination pattern needs to be changed to match the dialed number of 4100.

**Answer: B**

### NEW QUESTION # 139

An end user at a remote site is trying to initiate an Ad Hoc conference call to an end user at the main site. The conference receives an error message on the phone: Cannot complete conference call. What is the cause of the issue?

- A. The remote phone does not have the conference feature assigned.
- **B. The transcoder resource is missing.**
- C. A Media Termination Point is missing.
- D. A software conference bridge is not assigned.

**Answer: B**

### NEW QUESTION # 140

What is the importance of locations when using location-based CAC within Cisco UCM?

- A. They define the minimum bandwidth of the codec that is used for a call.
- B. They define the maximum bandwidth of the codec that is used for a call.
- C. They define the amount of available bandwidth for the link.
- D. They define the geographic regions to which resources are assigned.

**Answer: C**
