2026 AZ-500 Latest Exam Registration | Efficient AZ-500 100% Free Dump

TrainingQuiz is committed to offering the real and valid Microsoft Azure Security Technologies AZ-500 exam questions in three easy-to-use and compatible formats. These formats are Microsoft PDF Questions files, desktop practice test software, and web-based AZ-500 practice test software. All these three AZ-500 exam dumps formats contain the real and updated AZ-500 Practice Test questions and are verified by qualified AZ-500 exam experts. So you do not need to get worried about it choose the right TrainingQuiz AZ-500 exam questions formats and start this journey without wasting further time.

Microsoft Azure Security Technologies Sample Questions (Q91-Q96):

NEW QUESTION # 91

You have an Azure Active Directory (Azure AD) tenant named contoso.com that contains the users shown in the following table.

Name	Member of	Mobile phone	Multi-factor authentication (MFA) status
User1	Group1	123 555 7890	Disabled
User2	Group1, Group2	None	Enabled
User3	Group1, Microsoft	123 555 7891	Required

You create and enforce an Azure AD Identity Protection user risk policy that has the following settings:

Assignment: Include Group1, Exclude Group2

Conditions: Sign-in risk of Medium and above

Access: Allow access, Require password change

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
If User1 signs in from an unfamiliar location, he must change his password.	<input type="radio"/>	<input type="radio"/>
If User2 signs in from an anonymous IP address, she must change her password.	<input type="radio"/>	<input type="radio"/>
If User3 signs in from a computer containing malware that is communicating with known bot servers, he must change his password.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statements	Yes	No
If User1 signs in from an unfamiliar location, he must change his password.	<input checked="" type="radio"/>	<input type="radio"/>
If User2 signs in from an anonymous IP address, she must change her password.	<input checked="" type="radio"/>	<input type="radio"/>
If User3 signs in from a computer containing malware that is communicating with known bot servers, he must change his password.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Statements	Yes	No
If User1 signs in from an unfamiliar location, he must change his password.	<input type="radio"/>	<input type="radio"/>
If User2 signs in from an anonymous IP address, she must change her password.	<input type="radio"/>	<input type="radio"/>
If User3 signs in from a computer containing malware that is communicating with known bot servers, he must change his password.	<input type="radio"/>	<input type="radio"/>

Box 1: Yes

User1 is member of Group1. Sign in from unfamiliar location is risk level Medium.

Box 2: Yes

User2 is member of Group1. Sign in from anonymous IP address is risk level Medium.

Box 3: No

Sign-ins from IP addresses with suspicious activity is low.

Note:

Sign-in Activity	Risk Level
Users with leaked credentials	High
Sign-ins from anonymous IP addresses	Medium
Impossible travel to atypical locations	Medium
Sign-ins from infected devices	Medium
Sign-ins from IP addresses with suspicious activity	Low
Sign-ins from unfamiliar locations	Medium

Azure AD Identity protection can detect six types of suspicious sign-in activities:

Users with leaked credentials

Sign-ins from anonymous IP addresses

Impossible travel to atypical locations

Sign-ins from infected devices

Sign-ins from IP addresses with suspicious activity

Sign-ins from unfamiliar locations

These six types of events are categorized in to 3 levels of risks - High, Medium & Low:

NEW QUESTION # 92

You have an Azure subscription named Subscription1 that contains the resources shown in the following table.

Name	Type	Description
EventHub1	Azure Event Hubs	Not applicable
Adf1	Azure Data Factory	Not applicable
NVA1	Network virtual appliance (NVA)	The NVA sends security event messages in the Common Event Format (CEF).

You have an Azure subscription named Subscription2 that contains the following resources:

* An Azure Sentinel workspace

* An Azure Event Grid instance

You need to ingest the CEF messages from the NVAs to Azure Sentinel.

NOTE: Each correct selection is worth one point.

Answer Area

Subscription1:

- An Azure Log Analytics agent on a Linux virtual machine
- A Data Factory pipeline
- An Event Hubs namespace

Subscription2:

- An Azure Service Bus queue

Subscription2:

- A new Azure Log Analytics workspace
- A new Azure Sentinel data connector
- A new Azure Sentinel playbook
- A new Event Grid resource provider

Answer:

Explanation:

NEW QUESTION # 93

You have an Azure Active Directory (Azure AD) tenant that contains the users shown in the following table.

Name	Member of	Multi-factor authentication (MFA) status
User1	Group1, Group2	Enabled
User2	Group1	Disabled
User3	Group1	Disabled

You create and enforce an Azure AD Identity Protection sign-in risk policy that has the following settings:

- * Assignments: Include Group1, exclude Group2
- * Conditions: Sign-in risk level: Medium and above
- * Access Allow access, Require multi-factor authentication

You need to identify what occurs when the users sign in to Azure AD.

What should you identify for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

When User1 signs in from an anonymous IP address, the user will:

When User2 signs in from an unfamiliar location, the user will:

When User3 signs in from an infected device, the user will:

Be blocked

Be prompted for MFA

Sign in by using a username and password only

Be blocked

Be prompted for MFA

Sign in by using a username and password only

Be blocked

Be prompted for MFA

Sign in by using a username and password only

Answer:

Explanation:

When User1 signs in from an anonymous IP address, the user will:

When User2 signs in from an unfamiliar location, the user will:

When User3 signs in from an infected device, the user will:

Be blocked

Be prompted for MFA

Sign in by using a username and password only

Be blocked

Be prompted for MFA

Sign in by using a username and password only

Be blocked

Be prompted for MFA

Sign in by using a username and password only

NEW QUESTION # 94

You have an Azure subscription named Sub1. Sub1 contains a virtual network named VNet1 that contains one subnet named Subnet1.

You create a service endpoint for Subnet1.

Subnet1 contains an Azure virtual machine named VM1 that runs Ubuntu Server 18.04.

You need to deploy Docker containers to VM1. The containers must be able to access Azure Storage resources and Azure SQL databases by using the service endpoint.

- A. Edit the docker-compose.yml file.
- **B. Install the container network interface (CNI) plug-in.**
- C. Create an application security group and a network security group (NSG).

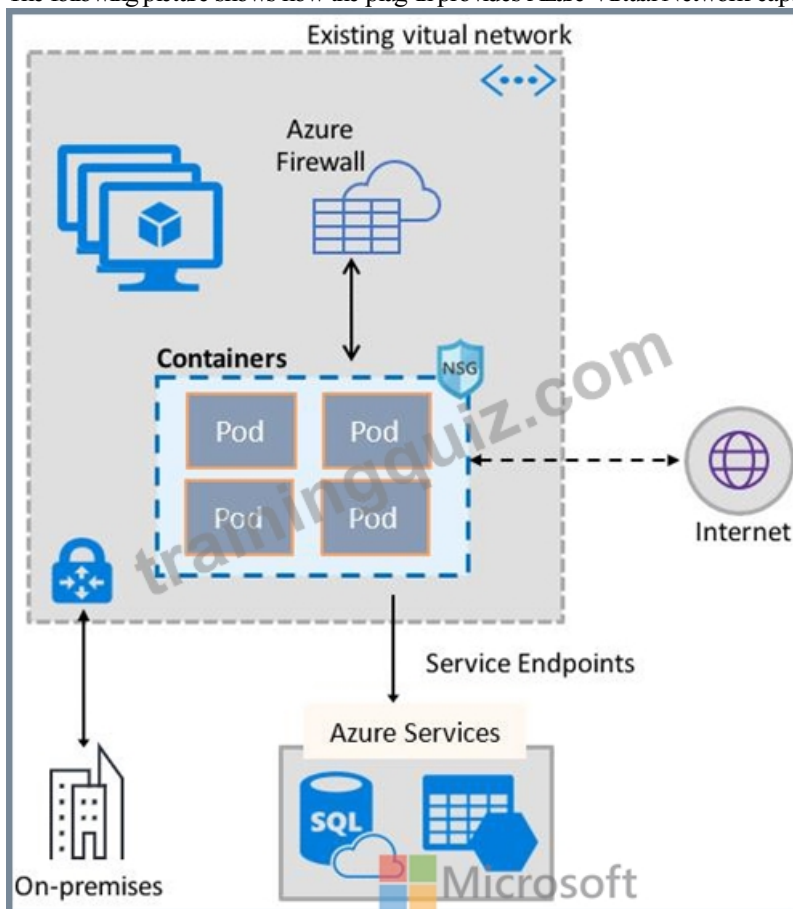

Answer: B

Explanation:

The Azure Virtual Network container network interface (CNI) plug-in installs in an Azure Virtual Machine. The plug-in supports both Linux and Windows platform.

The plug-in assigns IP addresses from a virtual network to containers brought up in the virtual machine, attaching them to the virtual network, and connecting them directly to other containers and virtual network resources. The plug-in doesn't rely on overlay networks, or routes, for connectivity, and provides the same performance as virtual machines.

The following picture shows how the plug-in provides Azure Virtual Network capabilities to Pods:

Reference:

<https://docs.microsoft.com/en-us/azure/virtual-network/container-networking-overview>

NEW QUESTION # 95

You network contains an on-premises Active Directory domain that syncs to an Azure Active Directory (Azure AD) tenant. The tenant contains the users shown in the following table.

Name	Source
User1	Azure AD
User2	Azure AD
User3	On-premises Active Directory

The tenant contains the groups shown in the following table.

Name	Members
Group1	User1, User2, User3
Group2	User2

You configure a multi-factor authentication (MFA) registration policy that and the following settings:

* Assignments:

* Include: Group1

* Exclude Group2

Controls: Require Azure MFA registration

Enforce Policy: On

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statements	Yes	No
User1 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>
User2 must configure MFA during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>
User3 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statements	Yes	No
User1 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input checked="" type="radio"/>	<input type="radio"/>
User2 must configure MFA during the user's next Azure AD authentication.	<input type="radio"/>	<input checked="" type="radio"/>
User3 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation

Statements	Yes	No
User1 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>
User2 must configure MFA during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>
User3 will be prompted to configure MFA registration during the user's next Azure AD authentication.	<input type="radio"/>	<input type="radio"/>

NEW QUESTION # 96

.....

The team of experts hired by AZ-500 exam torrent constantly updates and supplements the contents of our study materials according to the latest syllabus and the latest industry research results, and compiles the latest simulation exam question based on the research results of examination trends. We also have dedicated staffs to maintain updating AZ-500 Practice Test every day, and you can be sure that compared to other test materials on the market, AZ-500 quiz guide is the most advanced.
