JUNIPER JN0-253 STUDY GUIDE

P.S. Free 2026 Juniper JN0-253 dumps are available on Google Drive shared by PassReview: https://drive.google.com/open?id=1fz78Tg3116ZSN_YJzcPa1KBq_zaz556T

In order to meet the needs of all people, the experts of our company designed such a JN0-253 guide torrent that can help you pass your exam successfully. Having our study materials, it will be very easy for you to get the certification in a short time. If you try purchase our study materials, you will find our JN0-253 question torrent will be very useful for you. We are confident that you will be attracted to our JN0-253 guide question.

Juniper JN0-253 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Juniper Mist Monitoring and Analytics: This domain focuses on monitoring tools including service-level expectations, packet captures, AI-driven insights, automated alerts, and audit logs for comprehensive network visibility.
Topic 2	<ul style="list-style-type: none">Juniper Mist Configuration Basics: This domain addresses initial setup including user accounts, device onboarding, organizational structures, subscription licensing, certificate management, and automated provisioning with labels and policies.
Topic 3	<ul style="list-style-type: none">Juniper Mist Cloud Operations: This domain covers three API types (RESTful, WebSocket, Webhook) for programmatic integration, plus support resources including ticketing systems and documentation.

- **Juniper Mist Cloud Fundamentals:** This domain covers Juniper's cloud-native platform architecture, focusing on AI and machine learning capabilities for intelligent network management and real-world deployment scenarios.

Test JN0-253 Voucher & JN0-253 Related Certifications

Juniper certification is very helpful, especially the JN0-253 which is recognized as a valid qualification in this industry. So far, JN0-253 free download pdf has been the popular study material many candidates prefer. JN0-253 questions & answers can assist you to make a detail study plan with the comprehensive and detail knowledge. Besides, we have money refund policy to ensure your interest in case of your failure in JN0-253 Actual Test. Additional, if you have any needs and questions about the Juniper test dump, our 24/7 will always be here to answer you.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q67-Q72):

NEW QUESTION # 67

Your organization has a Marvis subscription. You have an issue with an access point (AP) that does not power on. You decide to open a support ticket.

In this scenario, what does Marvis do while you are filling in the details on the New Ticket screen?

- A. Marvis creates the support tickets.
- **B. Marvis provides possible solutions to AP power problems from the Juniper Mist documentation.**
- C. Marvis provides links to Internet resources about AP power problems.
- D. Marvis sends an e-mail to support@juniper.net on your behalf.

Answer: B

Explanation:

When an administrator begins to open a support ticket within the Juniper Mist portal, the Marvis Virtual Network Assistant proactively assists by presenting relevant, AI-driven recommendations and documentation.

According to the Juniper Mist Marvis Virtual Network Assistant Guide, this process is described as:

"While an administrator creates a support case, Marvis automatically searches the Mist knowledge base and presents probable causes and recommended solutions based on the detected issue type." If the issue involves an AP that does not power on, Marvis retrieves contextual data such as PoE status, switch port state, and recent telemetry logs, then provides automated guidance—for example, checking PoE configurations or cable connectivity.

Thus, while the administrator fills in the "New Ticket" details, Marvis provides potential solutions directly from Juniper Mist's documentation, potentially resolving the issue before a support case is even submitted.

The correct answer is D. Marvis provides possible solutions to AP power problems from the Juniper Mist documentation.

NEW QUESTION # 68

A user has reported a network outage. After locating the user, you find that the switch interface facing the user is down but there is no alert in the Mist UI. You want to ensure that in the future, you receive an alert when a switch interface is down. You have already verified that the Critical Switch Port Down alarm is configured and enabled on the Alerts Configuration page.

In this scenario, which action in the Mist UI will satisfy the requirement?

- A. Enable the Critical Switch Port Up alarm on the Alerts Configuration page.
- **B. Navigate to the switch in the Mist UI and modify the Port Configuration to enable the Up/Down Port Alerts setting for the interface.**
- C. Disable the Critical Switch Port Down alarm on the Alerts Configuration page.
- D. Navigate to the switch in the Mist UI and modify the Port Profile configuration to enable Persistent (Sticky) MAC Learning for the Port Profile.

Answer: B

Explanation:

To ensure that you receive alerts when a switch interface goes down, you need to enable the Up/Down Port Alerts setting for the specific interface. This setting can be configured by navigating to the switch within the Mist UI and modifying the port configuration. Enabling this setting ensures that any changes in the port status, such as going down, will trigger an alert. This is critical for proactive network monitoring and to promptly address any connectivity issues.

NEW QUESTION # 69

Click the Exhibit button. The exhibit displays the connection flow for an API interaction sequence. Which API type is displayed?

- A. SOAP
- B. WebSocket
- C. Webhook
- D. RESTful

Answer: C

Explanation:

The diagram displays the concept of a webhook interaction.

The client sends an initial request to the server (Step 1: Request/Response).

After that, the server asynchronously sends events or updates to the client (Steps 2 and 3: Event notifications), without requiring the client to poll for updates continuously.

This asynchronous "push" behavior is characteristic of webhooks, where the server pushes updates to the client.

NEW QUESTION # 70

What is the maximum number of nodes supported in a Mist Edge high availability cluster?

- A. two nodes
- B. unlimited nodes
- C. ten nodes
- D. three nodes

Answer: A

Explanation:

A Mist Edge high availability cluster supports a maximum of two nodes. This allows for redundancy and failover in case one of the nodes goes down.

NEW QUESTION # 71

What are two components of WiFi Management and Assurance? (Choose two.)

- A. Marvis Actions
- B. Radio Resource Management
- C. wayfinding
- D. Dynamic Packet Capture

Answer: B,D

Explanation:

Dynamic Packet Capture and Radio Resource Management (RRM) are two key components of WiFi Management and Assurance in Juniper Mist. According to official documentation: "Dynamic packet capture allows capturing wireless packets between clients and an access point to diagnose root-cause wireless issues.

For example, when a major issue is detected, such as an authorization failure, packet captures facilitate quick troubleshooting and root-cause analysis." RRM, driven by Mist's AI, proactively analyzes network conditions and client experiences to automatically adjust channel and power settings for optimal performance: "AI- driven RRM uses data science and cumulative SLE performance to learn and optimize radio settings, helping RF planning to continue to improve and adapt in the changing environments..." Marvis Actions is an AI-powered troubleshooting feature, but it is a separate component enabled by the Marvis subscription, not by base WiFi Management and Assurance. Wayfinding is part of the vBLE Engagement or location services.

NEW QUESTION # 72

.....

If you prefer to prepare for your exam on paper, then our JN0-253 exam materials will be your best choice. JN0-253 PDF version is convenient to read and printable, and you can take them with you, and you can practice them anywhere and anyplace. Besides, free demo for JN0-253 PDF version is available, and you can try before buying. We are pass guarantee and money back guarantee and if you fail to pass the exam. You can receive the downloading link and password for JN0-253 Training Materials within ten minutes for JN0-253 exam materials, if you don't receive, you can contact with us, and we will solve the problem for you.
