We never avoid our responsibility of offering help for exam candidates like you, so choosing our C\_TS4FI\_2023 practice dumps means you choose success. Moreover, without the needs of waiting, you can download the C\_TS4FI\_2023 Study Guide after paying for it immediately. And we have patient and enthusiastic staff offering help on our C\_TS4FI\_2023 learning prep.

## SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Financial Accounting Sample Questions (Q68-Q73):

### NEW QUESTION # 68

How are pages assigned to users on the SAP Fiori Launchpad?

- A. Via spaces assigned to business roles which are assigned to users
- B. Directly to business roles which are assigned to users
- C. Via sections assigned to business roles which are assigned to users
- D. Via groups assigned to business roles which are assigned to users

**Answer: A**

Explanation:

In SAP Fiori, the SAP Fiori Launchpad is the central entry point for users to access applications (apps) and content. The assignment of pages to users is managed through a hierarchical structure that includes spaces, pages, and business roles. Let's analyze each option to determine the correct answer.

Explanation of Each Option:

D. Via spaces assigned to business roles which are assigned to users

\* Correct : In the latest SAP Fiori design, spaces act as containers for organizing content and are assigned to business roles. Business roles, in turn, are assigned to users. Each space contains one or more pages, which are collections of apps and other content tailored to specific tasks or responsibilities. This ensures that users see only the content relevant to their roles.

\* Reference : According to SAP documentation, spaces are the top-level organizational unit in the SAP Fiori Launchpad, and they are linked to business roles to control user access to pages and apps.

A. Via sections assigned to business roles which are assigned to users

\* Incorrect : While sections are part of the older SAP Fiori design (e.g., groups and tiles), they are not used in the current design based on spaces and pages. Sections were part of the group-based layout, which has been replaced by the more modern and flexible space-based layout.

\* Reference : The concept of sections is outdated and no longer applies to the current SAP Fiori Launchpad architecture.

B. Directly to business roles which are assigned to users

\* Incorrect : Pages are not directly assigned to business roles. Instead, they are part of spaces, which are assigned to business roles. This hierarchical structure ensures better organization and flexibility in managing content for different roles.

\* Reference : Pages are nested within spaces, and spaces are assigned to business roles, not pages directly.

C. Via groups assigned to business roles which are assigned to users

\* Incorrect : The concept of groups was part of the older SAP Fiori design, where apps were organized into groups. However, this approach has been replaced by the space-page model in the latest SAP Fiori Launchpad design. Groups are no longer used to organize content in the current framework.

\* Reference : The group-based design is obsolete and has been replaced by spaces and pages.

Key References to SAP Documentation:

\* SAP Fiori Launchpad Configuration Guide : Explains the space-page model and how spaces are assigned to business roles.

\* SAP Help Portal - SAP Fiori Launchpad : Provides detailed guidance on organizing content using spaces and pages.

\* Business Roles in SAP S/4HANA : Describes how business roles are used to assign access to spaces and pages in the SAP Fiori Launchpad.

\* Transition from Groups to Spaces : Highlights the shift from the older group-based design to the modern space-page design in SAP Fiori.

### NEW QUESTION # 69

Which of the following currency types can be defined for a specific ledger? Note: There are 3 correct answers to this question.
