Passing NSE6_SDW_AD-7.6 Certification Exam is not an easy task? Choosing TopExamCollection NSE6_SDW_AD-7.6 exam training materials, passing NSE6_SDW_AD-7.6 exam is quite possible. TopExamCollection's NSE6_SDW_AD-7.6 exam training materials is the highly certified IT professionals' collection of experience and innovation results in this field, and have absolute authority. You won't regret to choose TopExamCollection.

Fortinet NSE6_SDW_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Centralized management: This domain focuses on deploying and managing SD-WAN using FortiManager for centralized control. It includes implementing branch configuration deployment and using SD-WAN Manager with overlay orchestration to simplify large-scale network management.
Topic 2	<ul style="list-style-type: none">Advanced IPsec: This section covers the deployment of advanced IPsec configurations within SD-WAN environments. It includes implementing hub-and-spoke IPsec topologies, configuring ADVPN, and supporting multihub, multiregion, and large-scale secure SD-WAN deployments.
Topic 3	<ul style="list-style-type: none">SD-WAN setup: This domain covers how to deploy an enterprise SD-WAN environment by designing SD-WAN members and zones and configuring them for efficient traffic management. It also focuses on implementing Performance SLAs to monitor link quality and ensure applications use the best available path.
Topic 4	<ul style="list-style-type: none">SD-WAN troubleshooting: This domain explains how to diagnose and resolve issues related to SD-WAN operation. It includes troubleshooting SD-WAN rules, session behavior, routing problems, and ADVPN connectivity to maintain reliable network performance.

- **Rules and routing:** This section explains how to design and apply SD-WAN rules to control traffic steering across multiple WAN links. It also includes configuring SD-WAN routing to ensure proper path selection and connectivity between networks.

NSE6_SDW_AD-7.6 Valid Test Braindumps - Answers NSE6_SDW_AD-7.6 Free

Free demo is available if you purchase NSE6_SDW_AD-7.6 exam dumps from us, so that you can have a better understanding of what you are going to buy. If you are satisfied with the free demo and want to buying NSE6_SDW_AD-7.6 exam dumps from us, you just need to add to cart and pay for it. You can receive the download link and password within ten minutes for NSE6_SDW_AD-7.6 Exam Materials, so that you can start your practicing as quickly as possible. In addition, in order to build up your confidence for the NSE6_SDW_AD-7.6 exam dumps, we are pass guarantee and money back guarantee. If you fail to pass the exam, we will give you full refund.

Fortinet NSE 6 - SD-WAN 7.6 Enterprise Administrator Sample Questions (Q50-Q55):

NEW QUESTION # 50

The administrator uses the FortiManager SD-WAN overlay template to prepare an SD-WAN deployment. Using information provided through the SD-WAN overlay template wizard, FortiManager creates templates ready to install on the spoke and hub devices.

What are the three templates created by the SD-WAN overlay template for a spoke device? (Choose three.)

- **A. BGP template**
- B. Static route template
- C. Rules template
- **D. CLI template**
- **E. IPsec tunnel template**

Answer: A,D,E

Explanation:

"The SD-WAN overlay template generates multiple template, one per topic. For branches and hubs, it creates BGP, IPsec, and CLI templates to accommodate all required configuration changes. "

NEW QUESTION # 51

Which statement describes FortiGate behavior when you reference a zone in a static route?

- A. FortiGate ignores the static routes defined through members referenced in the zone.
- B. FortiGate installs ECMP static routes for the first two members of the zone.
- **C. FortiGate installs a static route for each member in the zone.**
- D. FortiGate routes the traffic through the best performing member of the zone.

Answer: C

Explanation:

When referencing a zone in a static route, FortiGate's behavior is described as:

"Referencing a zone in a static route causes FortiGate to install a static route for each member interface of the zone. This enables ECMP (Equal-Cost Multi-Path) and load balancing where supported and ensures that traffic can be steered over any valid zone member according to SD-WAN rules or standard routing." This mechanism is fundamental to Fortinet's implementation of SD-WAN and simplifies large, multi- interface deployments.

FortiOS 7.4 Routing Guide, "Zone-based Routing and ECMP Behavior"

NEW QUESTION # 52

Refer to the exhibit.

```
config system sdwan
  config health_check
    edit "DNS"
      set server "4.2.2.1" "4.2.2.2"
      set detect-mode active
      set protocol ping
      set embed-measured-health enable
      set members 3 4
      config sla
        edit 1
          set link-cost-factor latency
          set latency-threshold 100
        end
      next
    end
  end
end
```

The exhibit shows the health-check configuration on a FortiGate device used as a spoke. You notice that the hub FortiGate doesn't prioritize the traffic as expected.

Which two configuration elements should you check on the hub? (Choose two.)

- A. The performance SLA has the parameter `priority-out-sla` configured.
- B. The performance SLA uses the same criteria.
- C. This performance SLA uses the same members.
- D. The performance SLA is configured with `set embedded-measure accept`.

Answer: A,B

NEW QUESTION # 53

As an MSSP administrator, you are asked to configure ADVPN on an existing SD-WAN topology.

FortiManager manages the customer devices in a dedicated ADOM. The previous administrator used the SD-WAN overlay topology.

Which two statements apply to this scenario? (Choose two.)

- A. You can activate auto-discovery VPN in the SD-WAN overlay template only if it is a single hub topology.
- B. You can activate auto-discovery VPN in the SD-WAN overlay template for any type of topology, including a primary-primary dual-hub topology.
- C. When auto-discovery VPN is enabled, FortiManager updates the IPsec and BGP templates in the hub.
- D. After you enable auto-discovery VPN in the overlay template, you must select between ADVPN 2.0 and ADVPN 1.0.

Answer: B,C

Explanation:

When you enable ADVPN (auto-discovery VPN) in the overlay template, FortiManager automatically updates both the IPsec and BGP templates on the hub so that shortcut tunnels can be established dynamically.

ADVPN can be activated in the SD-WAN overlay template for any supported topology, including dual-hub primary-primary, not just single hub.

NEW QUESTION # 54

Exhibit.

Serial Number	name	branch_id	admin_ip	data_center_ip	management_ip	user_interface_ip	latitude	longitude
FGVM01TM22000077	branch1_fgt	1	172.16.0.2	192.20.2.2	192.20.10.1	10.0.1.254	37.37610911	-122.0260914
FGVM01TM22000078	branch2_fgt	2	172.16.0.10	203.0.113.3	203.0.113.10	10.0.2.254	25.77404351	-80.20508525
FGT40FTK20000624	shop1_fgt	11	198.51.100.1			10.10.1.254		
FGT40FTK20003026	shop2_fgt	12				10.10.2.254	48.88941	2.25125
FGVM02TM24010735		3	172.16.0.10	100.64.33.2	100.64.33.10	10.0.3.254	45.32482	-75.8359

For your ZTP deployment, you review the CSV file shown in exhibit and note that it is missing important information. Which two elements must you change before you can import it into FortiManager? (Choose two.)

- A. You must associate a device blueprint with each device
- B. You must define a value for each device and each metadata variable that defines an IP address.
- C. You must define a value for each device and each user-defined metadata variable.
- D. You must define a name for each device

Answer: A,D

NEW QUESTION # 55

.....

First and foremost, in order to cater to the different needs of people from different countries in the international market, we have prepared three kinds of versions of our NSE6_SDW_AD-7.6 learning questions in this website. Second, we can assure you that you will get the latest version of our NSE6_SDW_AD-7.6 training materials for free from our company in the whole year after payment on NSE6_SDW_AD-7.6 practice materials. Last but not least, we will provide the most considerate after sale service for our customers in twenty four hours a day seven days a week on our NSE6_SDW_AD-7.6 exam questions.
